PERFORMANCE SWAPS

Il Fondo ha stipulato contratti di "Performance swap" in cui due parti stipulano un accordo in base al quale le due parti si scambiano flussi di cassa basati sulla performance di un indice o di un'azione di riferimento per la durata specificata dell'accordo. Gli importi degli interessi pagati o ricevuti vengono calcolati e contabilizzati ogni volta che viene calcolato il NAV.

Totale:					-785,749.79

La controparte di questo Performance Swap è JP MORGAN.

INFLATION SWAPS

Il Fondo ha concluso operazioni di "Inflation swap", vale a dire contratti che offrono la differenza tra un livello d'inflazione, applicato a un dato importo nominale concordato ad avvio contratto, e un tasso d'interesse fisso applicato allo stesso importo nominale. Queste cifre sono calcolate e riservate ogniqualvolta il NAV è calcolato.

18 DICHIARAZIONE DEI MOVIMENTI DEL PORTFOLIO

I dettagli relativi ai movimenti dei titoli nel portfolio per il periodo chiuso il 30 giugno 2024 possono essere ottenuti, gratuitamente e su richiesta, presso la sede legale del Fondo e presso la sede del rappresentante di Hong Kong.

È anche possibile ottenere, gratuitamente, l'elenco delle modifiche del portfolio presso l'Agente per le informazioni e il pagamento in Germania, e presso la sede del Rappresentante in Svizzera.

19 STRUTTURA MASTER-FEEDER

Amundi Funds Global Total Return Bond

L'obiettivo del Comparto Amundi Funds Global Total Return Bond è quello di conseguire una combinazione di reddito e incremento di capitale (rendimento totale). In particolare, il Comparto investe in un fondo feeder in Amundi Oblig Internationales (fondo master) che cerca di offrire una performance (dopo le commissioni applicabili) superiore al JP Morgan Global Government Bond Index Broad su un determinato periodo di 3 anni.

Il fondo master investe principalmente in obbligazioni OCSE e obbligazioni convertibili. Gli investimenti possono comprendere titoli garantiti da mutui ipotecari (MBS) e titoli garantiti da attività (ABS).

In particolare, il Comparto investe almeno l'85% del suo patrimonio netto in azioni del fondo master (Classe OR-D).

Amundi Oblig Internationales è una SICAV di diritto francese e si qualifica come un fondo master ai sensi della direttiva 2009/65/CE.

Il fondo master investe fino al 100% in:

- obbligazioni emesse o garantite da paesi membri dell'OCSE;
- obbligazioni investment grade e obbligazioni convertibili emesse da società che hanno sede, o eseguono la loro attività economica principale, nell'OCSE,
- titoli garantiti da MBS e ABS aventi rating AAA (S&P) o Aaa (Moody) al momento dell'acquisto e declassati non sotto AA o Aa2 quando detenuti.

I mutui sottostanti i MBS possono essere commerciali o residenziali, e i MBS possono o meno venire con qualche forma di supporto governativo del credito. L'esposizione del fondo master a obbligazioni convertibili contingenti è limitata a un 10% del patrimonio netto.

Il fondo master gestisce attivamente la propria esposizione ai tassi di interesse e ai mercati valutari.

Nel rispetto delle politiche di cui sopra, il fondo master può investire inoltre in strumenti del mercato monetario, depositi e, fino al 10% del suo patrimonio netto, in OICVM/OIC.

Il fondo master fa un ampio uso di derivati per ridurre vari rischi, per una gestione efficiente del portafoglio e come un modo per acquisire un'esposizione (lunga o corta) a vari asset, mercati o altre opportunità di investimento (compresi i derivati incentrati sul credito e cambio).

Il fondo master potrà perfezionare delle operazioni di acquisizioni e cessioni temporanee di titoli (pronti contro termine e pronti contro termine inversi).

Il reddito netto dal fondo master è sistematicamente distribuito e le plusvalenze nette realizzate dal fondo master sono sistematicamente reinvestite o distribuite ogni anno, a seconda di quanto determinato dalla società di gestione del fondo master.

Il team di investimento del fondo master utilizza una vasta gamma di posizioni strategiche e tattiche, tra cui l'arbitraggio tra i mercati del credito, dei tassi di interesse e valutario, nell'assemblaggio di un portafoglio altamente diversificato.

Il gestore degli investimenti dei due Comparti è Amundi (UK) Limited.

Le commissioni addebitate direttamente ad Amundi Funds Global Total Return Bond ammontano a EUR 542,520.44 come viene sintetizzato nella seguente tabella, in termini di percentuali del NAV medio delle classi di azioni di Amundi Funds Global Total Return Bond:

			Addebiti durante il funzionamento	Commissioni di performance
Global Total Return Bond	EUR	Classe A EUR (C)	0.97%	0.57%
	EUR	Classe A EUR AD (D)	0.97%	0.58%
	EUR	Classe A EUR QTD (D)	0.61%	1.14%
	EUR	Classe F2 EUR (C)	1.60%	0.00%
	EUR	Classe F EUR QTD (D)	1.46%	0.46%
	EUR	Classe F2 EUR QTD (D)	1.60%	0.00%
	EUR	Classe G EUR (C)	1.15%	0.62%
	EUR	Classe G EUR QTD (D)	1.15%	0.62%
	EUR	Classe I EUR (C)	0.46%	0.64%
	EUR	Classe I EUR AD (D)	0.48%	1.18%
	EUR	Classe M2 EUR (C)	0.54%	0.00%

Le commissioni addebitate indirettamente attraverso compensi maturati sul Fondo Master (Classe OR-D) ammontano a EUR 46,516.24 o 0.15% del NAV medio del Fondo Master (classe OR-D) Amundi Oblig Internationales.

Le relazioni annuali e semestrali del fondo master sono disponibili su richiesta presso la sede legale del Fondo.

Amundi Funds Global Total Return Bond paga anche indirettamente per le commissioni dei fondi sottostanti detenuti nel fondo master.

Il parere dei revisori espresso nella relazione annuale del fondo Master pubblicata il 28 giugno 2024, senza modificarla, include un'osservazione in relazione alla valutazione dei titoli russi a seguito dell'invasione russa dell'Ucraina del 24 febbraio 2022.

Amundi Funds Target Coupon

L'obiettivo del Comparto Amundi Funds Target Coupon è quello di conseguire una combinazione di reddito e incremento di capitale (rendimento totale). In particolare, il Comparto investe come fondo feeder in Amundi Revenus (fondo master). Il fondo master e, di conseguenza, il Comparto sono prodotti finanziari che promuovono le caratteristiche ESG ai sensi dell'articolo 8 del Regolamento sull'Informativa.

Il fondo master investe principalmente in strumenti di debito (obbligazioni e strumenti del mercato monetario) di qualsiasi tipo emessi da governi o società a livello mondiale e denominati in una delle valute dell'OCSE, diversificando tra valute e mercati azionari.

In particolare, il Comparto investe almeno l'85% del suo patrimonio netto in azioni del fondo master (Classe OR-D). Il Comparto può investire fino ad un 15% in depositi e derivati che vengono utilizzati solo a fini di copertura.

Amundi Revenus è un FCI di diritto francese e si qualifica come un fondo master ai sensi della direttiva 2009/65/CE.

Il fondo master investe almeno il 70% del suo patrimonio netto in strumenti di debito. Il fondo master può investire in

- obbligazioni sotto-investment-grade (obbligazioni ad alto rendimento),
- obbligazioni corporate subordinate (comprese le obbligazioni convertibili contingenti fino al 50% del patrimonio netto) e
- fino al 20% del patrimonio netto in titoli garantiti da mutui ipotecari (MBS) e titoli garantiti da attività (ABS).

Il fondo master può inoltre investire in azioni di società di qualsiasi tipo di capitalizzazione e settori in tutto il mondo. L'esposizione del fondo master al mercato azionario può variare dallo 0% al 20% del patrimonio netto, e la sua esposizione al mercato valutario può variare dallo 0% a 100% del patrimonio netto.

Il fondo master può anche investire fino al 10% del patrimonio netto in OICVM/OIC.

Il fondo master fa un ampio uso di derivati per ridurre vari rischi, per una gestione efficiente del portafoglio e come un modo per acquisire un'esposizione (lunga o corta) a vari asset, mercati o altre opportunità di investimento (compresi i derivati incentrati sul credito).

Il fondo master potrà perfezionare delle operazioni di acquisizioni e cessioni temporanee di titoli (pronti contro termine e pronti contro termine inversi).

L'ammontare del reddito distribuito verrà stabilito annualmente dalla società di gestione del fondo master in base ai rendimenti attesi delle attività in portafoglio.

Il fondo master non compara le proprie prestazioni a un indice in particolare.

Il team di investimento del fondo master cerca di sfruttare i premi di rendimento da un ampio universo di investimento (principalmente obbligazioni), utilizzando un approccio di gestione flessibile e che si basa su scelte ad alta convinzione. Analizza il tassi di interesse e le tendenze economiche (top-down) per identificare le strategie, i paesi e le classi di attività che appaiono suscettibili di offrire i migliori rendimenti adeguati al rischio. Il team di investimento utilizza quindi sia l'analisi tecnica sia l'analisi fondamentale, compresi premio per il rischio e analisi del credito, per selezionare i titoli in base alla loro capacità di generare reddito (bottom-up) e di costruire un portafoglio altamente diversificato in grado di fornire un rendimento regolare.

Inoltre, il fondo master cerca di ottenere un punteggio ESG del suo portafoglio superiore a quello del suo universo di investimento.

Il gestore degli investimenti dei due Comparti è Amundi Asset Management.

Le commissioni addebitate direttamente ad Amundi Funds Target Coupon ammontano a EUR 666,533.12 come viene sintetizzato nella seguente tabella, in termini di percentuali del NAV medio delle classi di azioni di Amundi Funds Target Coupon:

			Addebiti durante il funzionamento	Commissioni di performance
Target Coupon	EUR	Classe A2 EUR AD (D)	1.04%	-
	EUR	Classe F2 EUR AD (D)	1.65%	-
	EUR	Classe G2 EUR AD (D)	1.25%	-
	EUR	Classe I2 EUR AD (D)	0.56%	-
	EUR	Classe M2 EUR AD (D)	0.66%	-
	EUR	Classe Q-A4 EUR AD (D)	1.01%	-

Le commissioni addebitate indirettamente attraverso compensi maturati sul fondo master (Classe OR) ammontano a 17.282,56 o allo 0.04% del NAV medio del fondo master (classe OR) Amundi Revenus.

Amundi Funds Target Coupon paga anche indirettamente per le commissioni dei fondi sottostanti detenuti nel fondo master.

Le relazioni annuali e semestrali del fondo master sono disponibili su richiesta presso la sede legale del Fondo.

Amundi Funds Montpensier Great European Models SRI

L'obiettivo del Comparto Amundi Funds Montpensier Great European Models SRI è quello di ottenere una crescita del capitale durante il periodo di detenzione raccomandato attraverso l'investimento in investimenti sostenibili ai sensi dell'articolo 9 del regolamento sull'informativa. In particolare, il Comparto investe come fondo feeder nel fondo Montpensier GREAT EUROPEAN MODELS SRI (fondo master mira a sovraperformare il suo indice di riferimento, l'indice Stoxx Europe 600 (SXXR).

Il fondo master investe principalmente in equity europee e strumenti rappresentativi di capitale.

In particolare, il Comparto investe almeno l'85% del suo patrimonio netto in azioni del fondo master (Classe Y).

Il Fondo master è un SICAV di diritto francese e si qualifica come un fondo master ai sensi della direttiva 2009/65/CE.

Il fondo master integra dei Fattori di Sostenibilità nel suo processo di investimento, come illustrato più dettagliatamente nel Codice di trasparenza che è disponibile sulla pagina dedicata del fondo sul sito web della società di gestione, www.montpensier.com.

Il portafoglio del fondo master è esposto per almeno il 60% in azioni dei paesi dell'Unione Europea. Gli investimenti in titoli ammissibili in base al Plan d'Epargne Action francese rappresenteranno un minimo del 75% del patrimonio.

Nel rispetto delle politiche di cui sopra, il Comparto può anche essere esposto

- fino ad un 30% del suo patrimonio in azioni di paesi europei non membri dello Spazio economico europeo;
- fino ad un 10% del suo patrimonio in azioni di mercati emergenti come definiti dal fondo master;
- fino ad un 10% del suo patrimonio in azioni di mercati extraeuropei;
- al rischio di tasso di interesse fino ad un 40% del patrimonio netto, con un massimo del 20% del patrimonio in obbligazioni e del 10% in strumenti del mercato monetario;
- fino al 10% del patrimonio netto in depositi;
- fino al 10% del patrimonio netto in OICVM/OIC.

Gli investimenti in azioni di titoli small-cap saranno limitati al 20% del patrimonio.

Non esistono vincoli di settore o di allocazione geografica all'interno dell'Europa, di valuta o di rating su questi investimenti.

Il fondo master può includere un rischio di cambio limitato al 30% del patrimonio netto, escluso l'euro o altre valute dello Spazio economico europeo.

Il fondo master può utilizzare dei derivati per ridurre vari rischi e per acquisire un'esposizione (lunga o corta) a vari asset, mercati o altre opportunità di investimento (compresi i derivati incentrati su azioni).

L'indice Stoxx Europe 600 (SXXR) serve a posteriori come indicatore per valutare la performance del Comparto.

Il fondo master è gestito attivamente e non ci sono vincoli rispetto all'indice Stoxx Europe 600 (SXXR) che limitino la costruzione del portafoglio.

L'approccio extra-finanziario attuato è presentato nel Codice di trasparenza della SICAV, disponibile sul sito web del gestore degli investimenti del fondo master. Si basa sull'integrazione di criteri extrafinanziari fin dalla definizione dell'universo d'investimento, attraverso un processo di esclusione per ridurre l'universo d'investimento di almeno il 20% rispetto all'universo iniziale, in conformità con il marchio SRI francese. Inoltre, tutti i titoli in portafoglio sono analizzati secondo un duplice approccio ESG e fondamentale; il minimo richiesto dal marchio SRI è il 90% dei titoli analizzati secondo l'approccio ESG.

L'approccio extra-finanziario attuato è in linea con un obiettivo di mitigazione del rischio in termini di sostenibilità.

I gestori degli investimenti dei Comparti sono Amundi Asset Management (feeder) e Montpensier Finance (fondo master).

Le commissioni addebitate direttamente ad Amundi Funds Montpensier Great European Models SRI ammontano a EUR 6.788,87 come viene sintetizzato nella seguente tabella, in termini di percentuali del NAV medio delle classi di azioni di Amundi Funds Montpensier Great European Models SRI:

			Addebiti durante il funzionamento	Commissioni di performance
Montpensier Great European Models SRI	EUR	Classe A2 EUR (C)	2.74%	-
	EUR	Classe A5 EUR (C)	1.82%	-
	EUR	Classe E2 EUR (C)	2.56%	-
	EUR	Classe F EUR (C)	3.23%	-
	EUR	Classe G EUR (C)	2.88%	-
	EUR	Classe I2 EUR (C)	1.81%	-
	EUR	Classe R2 EUR (C)	1.85%	-

Le commissioni addebitate indirettamente attraverso compensi maturati sul fondo master ammontano a 1,530.63 EUR o al 0.60% del NAV medio del fondo master Montpensier GREAT EUROPEAN MODELS SRI.

Amundi Funds Montpensier Great European Models SRI paga anche indirettamente per le commissioni dei fondi sottostanti detenuti nel fondo master.

Le relazioni annuali e semestrali del fondo master sono disponibili su richiesta presso la sede legale del Fondo.

Amundi Funds Montpensier M Climate Solutions

L'obiettivo del Comparto Amundi Funds Montpensier M Climate Solutions è quello di ottenere una crescita del capitale durante il periodo di detenzione raccomandato attraverso l'investimento in investimenti sostenibili ai sensi dell'articolo 9 del regolamento sull'informativa.

In particolare, il Comparto investe come fondo feeder nel fondo Montpensier M Climate Solutions che cerca di partecipare allo sviluppo dei mercati azionari globali investendo principalmente in azioni di società le cui iniziative o soluzioni contribuiscono direttamente o indirettamente a ridurre gli impatti del cambiamento climatico, o in azioni di società parte della cui attività riguarda tendenze e sviluppi legati al tema della transizione energetica e climatica.

Il fondo master investe principalmente in azioni di tutto il mondo.

In particolare, il Comparto investe almeno l'85% del suo patrimonio netto in azioni del fondo master (Classe Y).

Il Fondo master è un FCP di diritto francese e si qualifica come un fondo master ai sensi della direttiva 2009/65/CE.

Il fondo master investe almeno il 75% del suo patrimonio netto in azioni e strumenti rappresentativi di capitale (come certificati di investimento e obbligazioni convertibili) di società di tutto il mondo, in tutti i settori di attività e in tutte le regioni geografiche, compreso fino al 40% del patrimonio in mercati emergenti.

Gli strumenti equivalenti al capitale possono rappresentare fino al 25% del patrimonio netto. Non esistono vincoli di capitalizzazione di mercato per questi investimenti.

Nel rispetto delle politiche di cui sopra, il Comparto può anche:

- essere esposto al rischio di tasso di interesse fino ad un 40% del patrimonio netto, con un massimo del 25% del patrimonio in obbligazioni e del 10% in strumenti del mercato monetario;
- investire fino al 10% del patrimonio netto in OICVM/OIC. e
- detenere depositi fino al 10% del proprio patrimonio netto.

Non esistono vincoli di rating o di valuta su questi investimenti.

Il fondo master fa uso di derivati per ridurre vari rischi, per acquisire un'esposizione (lunga o corta) a vari asset, mercati o altre opportunità di investimento (compresi i derivati incentrati su credito e azioni).

Il fondo master è gestito attivamente.

Il riferimento ad un indice è solo a scopo di confronto successivo.

L'indice Stoxx Global 1800 (SXW1R) serve a posteriori come indicatore per valutare la performance del Comparto.

La strategia di gestione del fondo master utilizza un doppio approccio per identificare i titoli:

- stock picking sulla base di criteri non finanziari con l'obiettivo di identificare il coinvolgimento delle aziende nella transizione energetica ed ecologica per il clima. Saranno escluse determinate attività, come l'energia nucleare e da combustibili fossili;
- completato da un'analisi fondamentale supportata da uno studio quantitativo basato su rapporti finanziari.

I gestori degli investimenti dei Comparti sono Amundi Asset Management (feeder) e Montpensier Finance (fondo master).

Le commissioni addebitate direttamente ad Amundi Funds Montpensier M Climate Solutions ammontano a EUR 666,749.56 come viene sintetizzato nella seguente tabella, in termini di percentuali del NAV medio delle classi di azioni di Amundi Funds Montpensier M Climate Solutions:

			Addebiti durante il funzionamento	Commissioni di performance
Montpensier M Climate Solutions	EUR	Classe A2 EUR (C)	1.56%	-
	EUR	Classe A5 EUR (C)	0.82%	-
	EUR	Classe E2 EUR (C)	1.38%	-
	EUR	Classe F EUR (C)	2.23%	-
	EUR	Classe G EUR (C)	1.55%	-
	EUR	Classe I2 EUR (C)	0.64%	-
	EUR	Classe R2 EUR (C)	0.68%	-

Le commissioni addebitate indirettamente attraverso compensi maturati sul Fondo Master ammontano a EUR 301.139,29 o allo 0.45% del NAV medio del Fondo Master Montpensier M Climate Solutions fund.

Amundi Funds Montpensier M Climate Solutions paga anche indirettamente per le commissioni dei fondi sottostanti detenuti nel fondo master.

Le relazioni annuali e semestrali del fondo master sono disponibili su richiesta presso la sede legale del Fondo.

Amundi Funds Impact Green Bonds

L'obiettivo del Comparto Amundi Funds Impact Green Bonds è quello di ottenere una combinazione di reddito e di crescita del capitale (rendimento totale) durante il periodo di detenzione raccomandato attraverso l'investimento in investimenti sostenibili ai sensi dell'articolo 9 del regolamento sull'informativa.

In particolare, il Comparto investe come fondo feeder in Amundi Responsible Investing - Impact Green Bonds (fondo master) che mira a fornire una performance legata agli investimenti sostenibili ai sensi dell'articolo 9 del regolamento sull'informativa, investendo in green bonds il cui impatto sull'ambiente è positivo, valutato sulla base delle emissioni stimate di gas serra evitate e utilizzando come indicatore le tonnellate di emissioni CO2 equivalenti (tCO2e) evitate.

Il fondo master investe principalmente in green bonds investment grade dell'OCSE emesse da qualsiasi emittente in tutto il mondo e denominate in qualsiasi valuta.

L'esposizione a valute diverse dall'euro è limitata al 10% del patrimonio netto.

In particolare, il Comparto investe almeno l'85% del patrimonio netto in azioni del fondo master (Classe OR-D).

Il fondo master Impact Green Bonds è un Comparto della SICAV Amundi Responsible Investing di diritto francese e si qualifica come un fondo master ai sensi della direttiva 2009/65/CE.

Il fondo master può investire fino al 100% del suo patrimonio netto in tutte le seguenti tipologie di green bonds negoziate su un mercato regolamentato ed emesse da governi, organizzazioni sovranazionali e società private o pubbliche in tutto il mondo, di cui fino al 15% del patrimonio in mercati emergenti:

- obbligazioni a tasso fisso e a tasso variabile;
- obbligazioni indicizzate: inflazione, CMR (Constant Maturity Rate);
- titoli subordinati emessi da qualsiasi tipo di banca, società o compagnia di assicurazioni;
- Asset-Backed Securities (ABS) e Mortgage-Backed Securities (MBS) fino ad un massimo del 10% del patrimonio netto.

Il fondo master investirà un minimo del 50% del patrimonio netto in green bond di emittenti con un rating ESG compreso tra A e D.

Almeno il 90% dei titoli detenuti in portafoglio sono oggetto di un'analisi non finanziaria.

Il fondo master può investire fino al 15% del patrimonio netto in titoli privi di rating o con rating inferiore a investment grade.

Il rischio di cambio sarà coperto fino a un'esposizione totale a valute diverse dall'euro del 10% del patrimonio netto.

Nel rispetto delle politiche di cui sopra, il fondo master può anche investire:

- fino al 30% del patrimonio netto in strumenti del mercato monetario.
- fino al 10% del patrimonio netto in OICVM/OIC.
- in depositi;

Il fondo master fa uso di derivati per ridurre vari rischi, per una gestione efficiente del portafoglio e come un modo per acquisire un'esposizione (lunga o corta) a vari asset, mercati o altre opportunità di investimento (compresi i derivati incentrati su tassi di interesse, credito e cambio).

Il fondo master è gestito attivamente. L'indice Barclays MSCI Global Green Bond (cedole reinvestite), con copertura in euro ("l'Indice") funge a posteriori come indicatore per valutare la performance del fondo master.

Non esistono vincoli relativi all'indice che limitino la costruzione del portafoglio.

L'investimento sostenibile del fondo master si concentra principalmente su obiettivi ambientali investendo nelle cosiddette "green bond" che finanziano progetti ammissibili (i) che soddisfano i criteri e le linee guida dei Green Bond Principles (pubblicati dall'ICMA) e (ii) per i quali è possibile valutare l'impatto positivo sulla transizione energetica e l'ambiente dei progetti che finanzia.

Il gestore degli investimenti dei due Comparti è Amundi Asset Management.

Le commissioni addebitate direttamente ad Amundi Funds Impact Green Bonds ammontano a EUR 106,312.21 come viene sintetizzato nella seguente tabella, in termini di percentuali del NAV medio delle classi di azioni di Amundi Funds Impact Green Bonds:

			Addebiti durante il funzionamento	Commissioni di performance
Impact Green Bonds	EUR	Classe A2 EUR (C)	1.08%	-
	EUR	Classe E2 EUR (C)	0.88%	-
	EUR	Classe F2 EUR (C)	1.52%	-

22 COMMISSIONI DI RICEZIONE E TRASMISSIONE DI ORDINI

Le commissioni di ricezione e trasmissione di ordini vengono:

- pagate a Amundi Intermediation o a Amundi (UK) Ltd, per i loro servizi resi ai Comparti gestiti da Amundi che consistono nella centralizzazione degli ordini e nella contribuzione alla loro migliore esecuzione.

- maturate su base giornaliera e pagate trimestralmente sulla base delle operazioni gestite da parti correlate di Amundi

Comparata con un gestore dell'investimento che realizza operazioni da solo, la centralizzazione dell'ordine permette di negoziare prezzi migliori con i broker, grazie ad un volume crescente di operazioni, di avere accesso a un numero maggiore di broker e di informazioni sui mercati, di avvantaggiarsi del know-how di specialisti commerciali e di trading controller specializzati.

Tali commissioni sono imputate alla voce "Commissioni di ricezione e trasmissione di ordini" sulla Dichiarazione di operazioni e modifiche agli attivi netti.

23 OPERAZIONI CON PARTI CORRELATE

Le parti correlate, in qualità di broker, possono effettuare operazioni o investire in valute o altri prodotti finanziari per conto di ciascun Comparto per il quale la parte correlata agisce da broker o per conto proprio o come controparte per i propri clienti, ivi compresi quei casi in cui le parti correlate o i clienti di queste sono in grado di effettuare transazioni per conto proprio allo stesso momento che per conto di ciascun Comparto. Le transazioni elencate nella tabella sono state inserite come attività commerciale regolare e in normali termini commerciali.

Il Fondo ritiene che le commissioni, i premi e le riduzioni pagabili alle parti correlate siano concorrenziali, sebbene è nell'interesse della parte correlata ottenere tassi di commissione vantaggiosi, insieme ai premi e alle riduzioni per ciascun Comparto.

Nel corso dell'anno sono state effettuate da dette parti correlate transazioni per un totale di EUR 21,717,646,048.80 ovvero 8.59% del totale delle transazioni effettuate in detto periodo.

Durante il periodo chiuso il 30 giugno 2024, Amundi Funds ha effettuato transazioni con le parti correlate per un totale di:

	Valuta	Comparti	Totale transazioni con parti correlate	Percentuale di transazioni con parti correlate	Totale commissioni con parti correlate	Tasso medio di commissioni

24 COMMISSIONI SOFT DOLLAR

I Gestori dell'investimento del Comparto in esame hanno contratto accordi di tipo "soft commission" con i broker, secondo cui i gestori dell'investimento ricevono taluni beni e servizi utilizzati a supporto del processo decisionale dell'investimento e che rappresentano un vantaggio dimostrabile per il Comparto. I beni e i servizi sono pagati dai broker al di fuori della commissione ricevuta, e i gestori dell'investimento non effettueranno pagamenti diretti per detti servizi. I beni e i servizi utilizzati per il Fondo comprendono l'analisi del mercato: servizi relativi a dati e quotazioni, misurazione del rendimento e software e hardware correlato a detti beni e servizi; servizi di custodia e compensazione e pubblicazioni relative all'investimento.

I seguenti comparti hanno contratto accordi di tipo "soft commission":

Climate Transition Global Equity
Equity Japan Target
Japan Equity Value

26 SWING PRICING

Nei giorni di valutazione in cui ritiene che la negoziazione delle azioni di un Comparto richieda acquisti o vendite significativi di investimenti di portafoglio, il Consiglio di amministrazione può adeguare il NAV del Comparto per riflettere più fedelmente i prezzi effettivi delle transazioni sottostanti, sulla base degli spread di negoziazione stimati, dei costi e di altre considerazioni di mercato e di negoziazione. In generale, il NAV sarà adeguato al rialzo in presenza di una forte domanda di acquisto di azioni del comparto e al ribasso in presenza di una forte domanda di rimborso di azioni del comparto. Tale adeguamento viene applicato a tutte le operazioni del Comparto in un determinato giorno, quando le richieste nette superano una certa soglia stabilita dal Consiglio di amministrazione. Tali adeguamenti perseguono l'obiettivo di proteggere gli Azionisti a lungo termine della SICAV dai costi associati alle attività di sottoscrizione e rimborso in corso e non sono destinati a risolvere le circostanze specifiche di ogni singolo investitore. Per un determinato Giorno di valutazione, l'aggiustamento non sarà di norma superiore al 2% del NAV, ma il Consiglio di amministrazione può aumentare questo limite se necessario per proteggere gli interessi degli azionisti.

Gli importi degli swing effettuati per il periodo chiuso al 30 giugno 2024 sono iscritti nella "Dichiarazione di operazioni e modifiche agli attivi in "sottoscrizioni/rimborsi netti".

Nel periodo luglio 2023 - giugno 2024, i seguenti Comparti sono stati oggetto del meccanismo di Swing Pricing:

Non sono state registrate rettifiche di swing pricing per il Valore Patrimoniale Netto per azione al 30 giugno 2024.

27 TITOLI RUSSI

A seguito dell'invasione russa in Ucraina del 24 febbraio 2022 e del suo impatto sui mercati e sui titoli russi, il Consiglio di amministrazione e la Società di gestione hanno deciso, a partire dalla fine di febbraio, di rivedere costantemente e di valutare equamente le azioni (compresi gli ADR/GDR) e le obbligazioni russe. La valutazione al fair value tiene conto dei regimi sanzionatori in vigore e del loro impatto sulla negoziabilità e sul processo di regolamento dei titoli in questione. Al momento della stesura della presente relazione, il processo di valutazione al fair value di detti titoli è ancora in corso.

Di seguito l'elenco dei titoli valutati al fair value al 30 giugno 2024:

Un numero limitato di transazioni su tali titoli, effettuate immediatamente prima dell'invasione, rimane in sospeso.

Di seguito il valore cumulato al 30 giugno 2024:

Nome del Comparto	Importo delle operazioni non regolate espresso in USD
Emerging Europe Middle East and Africa	625,042.82
Emerging Markets Equity Focus	252,148.38
Emerging World Equity	2,793,595.42
Russian Equity	1,022,731.17
Emerging Markets Blended Bond	3,398,094.42
Net Zero Ambition Multi-Asset	354,321.86
Pioneer Flexible Opportunities	636,367.38

Gli importi relativi a queste operazioni sono inclusi nella sezione dello Stato patrimoniale alla voce Depositi presso banche e disponibilità liquide.

A seguito di accordi raggiunti con alcune controparti dopo la chiusura dell'esercizio, sono state annullate diverse operazioni non regolate a fronte di importi accreditati ai comparti.

Le posizioni originariamente vendute sono state reintegrate in portafoglio e valutate a 0; i saldi delle operazioni non regolate sono stati rettificati e qui di seguito sono riportati i valori cumulati al 15 ottobre 2024 espressi, per coerenza, utilizzando gli stessi tassi di cambio utilizzati per la tabella precedente:

Nome del Comparto	Importo delle operazioni non regolate espresso in USD
Emerging Europe Middle East and Africa	461,116.40
Emerging Markets Equity Focus	252,148.38
Emerging World Equity	1,641,188.11
Russian Equity	780,776.16
Emerging Markets Blended Bond	642,724.21
Net Zero Ambition Multi-Asset	256,913.30
Pioneer Flexible Opportunities	636,367.38

Il Consiglio di amministrazione e la Società di gestione stanno intraprendendo azioni per risolvere i problemi nell'interesse del fondo e dei suoi azionisti, tenendo conto della natura senza precedenti della situazione.

Il Consiglio di amministrazione e la Società di gestione continuano a monitorare l'evoluzione della situazione e stanno valutando attentamente le opzioni disponibili riguardanti il comparto sospeso, anche alla luce delle FAQ della CCSF pubblicate il 31 marzo 2022.

28 TITOLI IN SOFFERENZA

A fine anno, oltre il 10% del NAV del seguente comparto era investito in titoli in sofferenza.

29 EVENTI SUCCESSIVI

Il Comparto Global Macro Bonds & Currencies Low Vol sarà liquidato il 22 luglio 2024.

Il 12 settembre 2024 i seguenti Comparti sono stati ridenominati:

- Amundi Funds Absolute Return Credit in Amundi Funds Multi Sector Credit
- Amundi Funds Euro Government Bond in Amundi Funds Euro Government Responsible Bond
- Amundi Funds Euro Corporate Short Term Impact Green Bond in Amundi Funds Impact Euro Corporate Short Term Green Bond

30 REGOLAMENTO SULL'INFORMATIVA SULLA SOSTENIBILITÀ NEL SETTORE DEI SERVIZI FINANZIARI ("SFDR")

Le informazioni sulle caratteristiche ambientali e/o sociali e/o sugli investimenti sostenibili sono disponibili nella sezione (non certificata) del Regolamento sull'informativa sulla sostenibilità nel settore dei servizi finanziari e i relativi allegati, ove applicabili.

Relazione certificata

Agli azionisti di
Amundi Funds

Opinione

Nella nostra opinione, i bilanci allegati forniscono un'immagine fedele e completa della posizione finanziaria di Amundi Funds (il "Fondo") e di ciascuno dei comparti al 30 giugno 2024, e dei risultati delle operazioni e delle modifiche agli attivi netti per l'anno chiuso in tale data, conformemente ai requisiti legali e normativi lussemburghesi in relazione alla preparazione e presentazione dei bilanci.

Abbiamo revisionato

I bilanci del Fondo comprendono:

- il portafoglio titoli al 30 giugno 2024;
- lo stato patrimoniale al 30 giugno 2024;
- la dichiarazione di operazioni e modifiche agli attivi netti per l'esercizio chiuso in tale data, e
- le note alle dichiarazioni finanziarie, che comprendono un riepilogo delle politiche di contabilità più significative.

Opinione

Questa è stata condotta in conformità alla Legge del 23 luglio 2016 sulla professione della revisione contabile (Legge 23 luglio 2016) e agli standard internazionali sulla revisione contabile (ISA) adottati per il Lussemburgo dalla "Commission de Surveillance du Secteur Financier" (CSSF). In conformità alla legge 23 luglio 2016 e agli ISA adottati per il Lussemburgo dalla CSSF, la nostra responsabilità è quella descritta nella sezione "Responsabilità del "Réviseur d'entreprises agréé" per la revisione contabile dei bilanci" della nostra relazione.

Riteniamo che le prove ottenute dalla revisione costituiscano una base sufficiente e idonea al fine di generare una nostra opinione.

Siamo indipendenti rispetto al Fondo, in conformità al Codice etico internazionale per i contabili professionisti, inclusi gli Standard internazionali di indipendenza, emesso dall'International Code of Accountants (codice IESBA), adottato per il Lussemburgo dalla CSSF e ai principi in materia di etica rilevanti per la nostra revisione contabile. Abbiamo adempiuto alle nostre altre responsabilità etiche in conformità a detti requisiti etici.

Osservazione

Richiamiamo l'attenzione sulla Nota 1 del presente bilancio, in cui si indica che il Consiglio di amministrazione del Fondo ha deciso di sospendere il calcolo del valore patrimoniale netto, l'emissione, il riscatto e la conversione delle azioni del comparto Russian Equity a partire dal 28 febbraio 2022 a seguito delle continue tensioni geopolitiche e delle sanzioni imposte alla Russia che hanno reso impossibile la negoziazione o la valutazione della maggior parte degli attivi del comparto. Il nostro parere non è stato modificato in merito a questa questione.

Altro

Il Consiglio di Amministrazione del Fondo ha la responsabilità delle informazioni supplementari. Le informazioni supplementari comprendono le informazioni incluse nella relazione annuale, ma non includono i bilanci e la nostra relazione di revisione degli stessi.

Il nostro parere sul bilancio non copre le altre informazioni e non esprime opinione alcuna su dette informazioni.

In relazione alla nostra revisione contabile del bilancio, la nostra responsabilità consiste nel leggere le altre informazioni sopra indicate e, in tal senso, valutare se le altre informazioni contengono importanti incoerenze rispetto ai rendiconti finanziari o ai dati da noi acquisiti nel corso della revisione contabile, o sembrano contenere inesattezze rilevanti. Se, in base al lavoro da noi svolto, concludiamo che esistono inesattezze rilevanti all'interno di queste altre informazioni, è nostro compito riferirlo. Non abbiamo alcuna osservazione a questo proposito.

Responsabilità del Consiglio di Amministrazione del Fondo in relazione ai bilanci

Il Consiglio di Amministrazione del Fondo ha la responsabilità di preparare e illustrare in maniera equa i bilanci in conformità ai requisiti legali e normativi lussemburghesi in relazione alla preparazione e presentazione dei bilanci e di mettere in atto i controlli interni che il Consiglio di Amministrazione del Fondo ritenga necessari al fine di consentire la stesura di bilanci privi di inesattezze rilevanti, siano esse dovute a frode o ad errore.

Nella stesura dei bilanci, il Consiglio di Amministrazione del Fondo è responsabile della valutazione del normale funzionamento del Fondo e di ciascuno dei suoi comparti, rivelando, se del caso, eventuali elementi concernenti detto normale funzionamento e utilizzando il presupposto della continuità aziendale, salvo il Consiglio di Amministrazione del Fondo intenda liquidare il Fondo o chiudere uno dei suoi comparti o cessare le operazioni, o non vi sia nessuna alternativa realistica in questo senso.

Responsabilità del "Réviseur d'entreprises agréé" per la revisione contabile dei bilanci

Lo scopo della nostra attività di revisione è ottenere ragionevole conferma che i bilanci, nel loro complesso, siano privi di inesattezze rilevanti, dovute a frode o errore, ed emettere una relazione di revisione che includa il nostro parere. La ragionevole conferma è un alto livello di conferma, ma non rappresenta una garanzia che l'analisi condotta in conformità alla legge del 23 luglio 2016 e agli ISA adottati per il Lussemburgo dalla CSSF sia sempre in grado di individuare un'inesattezza rilevante. Le inesattezze possono derivare da frode o errore e sono considerate rilevanti se, individualmente o complessivamente, si potrebbero ragionevolmente considerare che le stesse possano influenzare le decisioni economiche degli utenti adottate in base a questi rendiconti finanziari.

Nell'effettuare la revisione contabile in conformità alla Legge del 23 luglio 2016 e agli ISA adottati per il Lussemburgo dalla CSSF, esercitiamo il dovuto giudizio e scetticismo professionale per l'intera revisione. Inoltre ci incarichiamo di:

- identificare e valutare il rischio che i conti annuali contengano inesattezze rilevanti imputabili a irregolarità o errori, definire e porre in essere procedure di audit in risposta a detti rischi, ed ottenere elementi probatori sufficienti e adeguati su cui basare la nostra opinione. Il rischio di non identificare inesattezze rilevanti imputabili a frode è maggiore rispetto a quello risultante da errori, dato che la frode può comportare collusioni, falsificazioni, omissioni intenzionali, false dichiarazioni o l'elusione di controlli interni;
- ottenere una conoscenza dei controlli interni pertinenti nell'ambito della revisione contabile, al fine di definire procedure di revisione appropriate alle circostanze specifiche, ma non allo scopo di esprimere un'opinione sull'efficacia del controllo interno del Fondo;
- emettere una valutazione sull'adeguatezza dei criteri contabili utilizzati e sulla plausibilità delle stime contabili effettuate e delle relative informazioni divulgate dal Consiglio di Amministrazione del Fondo;
- stabilire l'adeguatezza dell'utilizzo del presupposto della continuità aziendale da parte del Consiglio di Amministrazione del Fondo e, sulla base delle evidenze ottenute nel corso dell'audit, l'eventuale presenza di una significativa incertezza relativa ad eventi o condizioni che possano comportare l'insorgere di seri dubbi sulla capacità del Fondo o di uno qualsiasi dei suoi comparti di garantire una continuità aziendale. Se giungiamo alla conclusione che esistono delle incertezze significative, nella nostra relazione di audit dobbiamo richiamare l'attenzione sulle relative informative fornite a livello di bilancio o, qualora tali informative siano inadeguate, modificare la nostra opinione. Le nostre conclusioni si basano sulle evidenze di revisione ottenute fino alla data della nostra relazione di revisione dei conti. Tuttavia, futuri eventi o condizioni potrebbero far sì che il Fondo o uno qualsiasi dei suoi comparti (Global Macro Bonds & currencies Low Volt, laddove esista una decisione o intenzione di liquidare) interrompa il suo normale funzionamento;
- valutare la presentazione complessiva, la struttura e il contenuto del bilancio, comprese le informative, nonché la capacità dei bilanci di rappresentare le operazioni e gli eventi soggiacenti in modo tale da ottenere una presentazione attendibile e trasparente.

Tra l'altro, comunichiamo agli incaricati della governance l'estensione e la periodicità della revisione, nonché le rilevazioni significative nel corso dell'audit, comprese eventuali carenze significative nel controllo interno identificate durante la nostra analisi.

Abbiamo fornito ai responsabili delle attività di governance anche una dichiarazione attestante che abbiamo rispettato le norme e i principi in materia di etica e di indipendenza, e abbiamo comunicato loro ogni situazione che possa ragionevolmente avere un effetto sulla nostra indipendenza e, ove applicabile, le azioni intraprese per eliminare le minacce o le misure di salvaguardia applicate.

PricewaterhouseCoopers, Société coopérative
Rappresentata da

Lussemburgo, 30 ottobre 2024

Christophe Pittie

Agli azionisti di Amundi Funds

Con la presente confermiamo che, nella nostra opinione, la Società di Gestione del Fondo ha, in tutti gli aspetti materiali, gestito Amundi Funds in conformità alle disposizioni della documentazione legale del Fondo, così come modificata per l'esercizio chiuso al 30 giugno 2024.

Per e per conto di
CACEIS Bank Luxembourg S.A.

Se richiesto dalla legge, le notifiche agli azionisti saranno pubblicate nel "Mémorial" del Lussemburgo, nel Luxemburger Wort e in qualunque altra pubblicazione stabilita dai Direttori.

REGOLAMENTO DI OPERAZIONI DI FINANZIAMENTO TRAMITE TITOLI (SFT)

Ai sensi del regolamento 2015/202365 del Parlamento Europeo e del Consiglio del 25 novembre 2015 sulla trasparenza delle operazioni di finanziamento tramite titoli, solo le transazioni su operazioni di pronti contro termine inversi, pronti contro termine, prestiti di titoli e performance Swaps sono state oggetto del presente regolamento al 30 giugno 2024.

Tutte le transazioni sono transazioni bilaterali.

I comparti rispettano costantemente il vincolo "La liquidità ricevuta come garanzia dei contratti OTC e pronti contro termine, deve essere superiore alla somma dei depositi presso istituti di credito, gli investimenti in titoli di Stato di alta qualità, operazioni di pronti contro termine inversi con istituti di credito e gli investimenti in fondi del mercato monetario a breve termine". La liquidità è gestita complessivamente; il processo di gestione degli investimenti non isola specificatamente la liquidità ricevuta come garanzia rispetto ad altre liquidità. Le garanzie concesse dai comparti nel contesto di pronti contro termine si mantengono in conti separati.

Gli interessi ricevuti e pagati nell'ambito di accordi di riacquisto inverso e accordi di riacquisto sono indicati nel Conto Economico e Prospetto delle Variazioni del Patrimonio Netto, per ciascun Comparto alle voci "Interessi ricevuti su Repo e Repo inversi" e "Interessi pagati su Repo e Repo inversi".

*Il totale non include i contanti delle garanzie.

Tutte le transazioni sono transazioni bilaterali.
Per ogni controparte di ogni comparto, le posizioni di garanzia sono seguite globalmente per tutti i tipi di strumenti OTC.
La liquidità è gestita complessivamente; il processo di gestione degli investimenti non isola specificatamente la liquidità ricevuta come garanzia rispetto ad altre liquidità.
Nella valutazione degli swap sono stati inclusi i rimborsi e le spese sostenute da operazioni di swaps transactions nell'anno concluso al 30 giugno 2024.

POLITICHE E PRATICHE RETRIBUTIVE

La politica retributiva di Amundi Luxembourg S.A. è conforme ai requisiti specificati nella Direttiva Europea 2014/91/EU entrata in vigore il 18 marzo 2016, e recepita dalla normativa lussemburghese il 10 maggio 2016. La politica retributiva si basa sul quadro retributivo del gruppo Amundi ed è rivista annualmente ed approvata dal Consiglio di Amundi Luxembourg. La politica è soggetta a revisione indipendente da parte della funzione interna incaricata del controllo di conformità. Nelle principali evoluzioni del 2023 la politica retributiva è stata collegata ad "Amundi Ambition 2025" e ai criteri ESG e al Rischio di Sostenibilità. Sono stati aggiunti criteri qualitativi e quantitativi per la Gestione degli investimenti così come per le Vendite e il Marketing. Non sono state apportate modifiche sostanziali alla politica retributiva adottata per gli anni precedenti.

La politica applicabile nel 2023 è stata approvata dal Consiglio Amministrazione di Amundi Luxembourg il 5 ottobre 2023. La politica retributiva del gruppo viene rivista annualmente dal Amundi group Remuneration Committee. La revisione del 2023 si è svolta il 02 febbraio 2023. La politica di remunerazione e gli obiettivi delle pratiche sono coerenti e promuovono una gestione sana ed efficace del rischio, allineando la remunerazione con prestazioni e rischi a lungo termine al fine di evitare conflitti di interesse. Le componenti della remunerazione fissa sono collegate alle funzioni ricoperte, ai servizi professionali prestati e alla portata delle responsabilità, riflettendo il livello di qualifica accademica, i livelli di retribuzione di mercato, l'esperienza e le competenze richieste per ciascuna posizione, nonché il livello di eccellenza dimostrato. La remunerazione variabile è concepita per promuovere uno sviluppo sostenibile a lungo termine della Società di Gestione nonché un sistema solido ed efficace di gestione del rischio. La quota di remunerazione variabile tiene conto dell'andamento del dipendente, della sua business unit e del gruppo Amundi nel suo complesso, e si basa su criteri finanziari e non finanziari. Amundi Luxembourg S.A. e il Gruppo Amundi hanno definito tutto il personale identificato dotato di autorità o influenza sui fondi gestiti da Amundi e che, di conseguenza, può avere un impatto sulla performance o sul profilo di rischio dei fondi.

■ IMPORTI DI REMUNERAZIONE ACCORDATA

Amundi Luxembourg S.A., la Società di gestione opera dal 31 dicembre 2023 come società di gestione o GEFIA per varie OICVM e FIA ombrello e indipendenti. La remunerazione complessiva espressa in Euro corrisposta da Amundi Luxembourg S.A. al proprio personale durante l'anno calendario 2023 è la seguente:

	N. di beneficiari	Remunerazione fissa	Remunerazione variabile	Totale
Personale	110	8,737,726.50	1,545,780.42	10,283,506.92
Del quale				
- Personale Identificato	9	1,419,514.99	516,082.67	1,935,597.66
- Resto del personale	101	7,318,211.51	1,029,697.75	8,347,909.26

Al 31/12/2023 e al 30/06/2024 Amundi Funds SICAV ha rappresentato rispettivamente circa il 35% e circa il 26% del patrimonio netto totale in Gestione di Amundi Luxembourg S.A.

I dati complessivi sulla retribuzione sopra riportati si riferiscono alle attività relative a tutti i fondi gestiti.

I dipendenti di Amundi Luxembourg S.A. e del Gruppo Amundi, nominati membri del Consiglio di Amministrazione della Società di Gestione e dei Fondi, rinunciano a qualsiasi remunerazione per tutti i fondi gestiti.

Nessun dipendente della Società di Gestione riceve alcun importo, compresi carried interests e commissioni di performance pagati direttamente dall'OICVM o dai FIA gestiti.

REMUNERAZIONE DEI DELEGATI

Quando resi disponibili alla Società di Gestione, i dati sulla remunerazione 2023 relativi ai Gestori degli Investimenti sono dettagliati di seguito (dati AuM dei comparti al 30/06/2024).

¹ Questo Comparto è stato ridenominato, maggiori informazioni nella Nota 1.

² Questo Comparto è un fondo feeder che non utilizza derivati (cifra di leverage: 0%). I valori VaR riportati provengono dai Fondi Master.

³ Questo Comparto è stato liquidato il 12 marzo 2024, maggiori informazioni nella Nota 1.

■ L'APPROCCIO VAR RELATIVO

I seguenti comparti utilizzano l'approccio del Valore al rischio relativo (VaR – Value at Risk) (intervallo di confidenza del 99%, periodo di 1 mese di detenzione), al fine di monitorare e misurare l'esposizione globale su un periodo di osservazione di un anno.

* Questo Comparto è stato lanciato durante il periodo di riferimento, maggiori informazioni nella Nota 1.

² Questo Comparto è stato ridenominato nel corso del periodo, maggiori informazioni nella Nota 1.

³ Questo Comparto è stato fuso nel corso del periodo, maggiori informazioni nella Nota 1.

⁴ Questo Comparto è stato liquidato durante il periodo di riferimento, maggiori informazioni nella Nota 1.

* In alcuni casi (quando un comparto è stato rimosso, liquidato o lanciato entro gli ultimi 12 mesi, quando una qualsiasi classe di azioni è stata lanciata o liquidata entro gli ultimi 12 mesi, quando le attività sotto gestione per qualsiasi classe di azioni sono state aumentate o ridotte significativamente entro gli ultimi 12 mesi o laddove vi siano poche attività sotto gestione per una qualsiasi classe) i Rapporti di Spesa Totali calcolati su una base annuale (periodo di riferimento di 12 mesi) potrebbero non essere rappresentativi del valore reale.

REGOLAMENTO SULLE COMMISSIONI DI PERFORMANCE

Secondo le linee guida dell'Autorità europea degli strumenti finanziari e dei mercati sulle commissioni di performance (ESMA34-39-992), l'impatto dei dati sulle commissioni di performance al 30 giugno 2024 è stato il seguente:

Classi di Azioni	ISIN	Importo delle commissioni di performance realizzate alla fine del periodo di osservazione nella valuta del Comparto	% basato sul NAV alla fine del periodo di osservazione ⁽¹⁾	Importo delle commissioni di performance cristallizzate giornalmente durante il periodo contabile a causa dei rimborsi (nella valuta del Comparto)	% in base al NAV medio nel periodo contabile ⁽²⁾	Importo delle commissioni di performance maturate alla fine del periodo contabile nella valuta del Comparto	% basato sul NAV alla fine del periodo contabile ⁽³⁾

(3) Importo delle commissioni di performance maturate alla fine dell'anno (fine del periodo contabile) nella valuta del Comparto diviso per il NAV alla fine del periodo contabile

Le classi di azioni attive senza commissioni di performance cristallizzate nel corso dell'anno o senza commissioni di performance a fine anno non sono riportate nella tabella.

REGOLAMENTO SULL'INFORMATIVA (DISCLOSURE).

Il 18 dicembre 2019, il Consiglio europeo e il Parlamento europeo hanno annunciato di aver raggiunto un accordo politico sul regolamento sull'Informativa, cercando così di stabilire un quadro paneuropeo per facilitare gli investimenti sostenibili. Il Regolamento sull'Informativa prevede un approccio armonizzato per quanto riguarda la divulgazione di informazioni relative alla sostenibilità agli investitori nel settore dei servizi finanziari dell'Area Economica Europea.

Ai fini del regolamento sull'Informativa, la Società di gestione soddisfa i criteri di un "partecipante ai mercati finanziari", mentre ogni Comparto si qualifica come "prodotto finanziario". Per ulteriori dettagli sulle modalità con cui un Comparto si conforma ai requisiti del Disclosure Regulation si rimanda al supplemento relativo al Comparto stesso. Si rimanda inoltre alla sezione 'Investimenti sostenibili' del Prospetto informativo del Fondo e alla Politica di investimento responsabile di Amundi disponibile sul sito www.amundi.com.

Come richiesto dall'art. 11 del Regolamento sull'Informativa (Disclosure), il Fondo rilascia le seguenti dichiarazioni: Nell'ambito della Politica di Investimento Responsabile di Amundi, Amundi ha sviluppato un proprio approccio di rating ESG. Il rating ESG di Amundi mira a misurare la performance ESG di un emittente, ossia la sua capacità di anticipare e gestire i rischi di sostenibilità e le opportunità inerenti al suo settore e alle singole circostanze. Utilizzando i rating ESG di Amundi, i gestori di portafoglio tengono conto dei rischi di sostenibilità nelle loro decisioni di investimento. Amundi applica politiche di esclusione mirate a tutte le strategie di investimento attivo di Amundi, escludendo le società in contrasto con la Politica di Investimento Responsabile, come quelle che non rispettano le convenzioni internazionali, i quadri riconosciuti a livello internazionale o le normative nazionali.

■ Articolo 9 Comparti

Questi Comparti hanno un obiettivo sostenibile e sono pertanto classificati come articolo 9, ai sensi del SFDR (Regolamento (UE) 2019/2088 del Parlamento europeo e del Consiglio, del 27 novembre 2019, sulle informazioni relative alla sostenibilità nel settore dei servizi finanziari). Pertanto, come previsto dall'articolo 58 del REGOLAMENTO DELEGATO DELLA COMMISSIONE (UE) 2022/1288, le informazioni dettagliate sulle caratteristiche ambientali o sociali promosse dal prodotto finanziario sono disponibili in allegato alla presente relazione.

Questo allegato contiene informazioni su:

- Raggiungimento dell'obiettivo di investimento sostenibile del prodotto finanziario;
- Principali investimenti, asset allocation e percentuale degli investimenti in diversi settori e sottosettori economici;
- Informazioni sugli investimenti sostenibili.

■ Articolo 8 Comparti (richiesto Art.11.1)

I Comparti elencati di seguito sono classificati ai sensi dell'articolo 8 della Disclosure Regulation e mirano a promuovere caratteristiche ambientali e/o sociali. Oltre ad applicare la Politica di investimento responsabile di Amundi, questi Comparti, ai sensi dell'articolo 8, mirano a promuovere tali caratteristiche attraverso investimenti che comportino un punteggio ESG del proprio portafoglio superiore a quello del rispettivo benchmark o universo d'investimento. Il punteggio del portafoglio ESG è la media ponderata in base all'AUM del punteggio ESG degli emittenti basato sul modello di punteggio ESG di Amundi.

Nel corso dell'esercizio in analisi, il Gestore degli investimenti ha promosso costantemente le caratteristiche ambientali e/o sociali attraverso l'applicazione delle suddette metodologie.

■ Articolo 6 Comparti

In considerazione dell'orientamento degli investimenti e delle classi/settori di attività in cui investono, i gestori degli investimenti di tutti gli altri Comparti, non classificati ai sensi degli articoli 8 o 9 del Regolamento sull'informativa (Disclosure), non hanno integrato una considerazione delle attività economiche sostenibili dal punto di vista ambientale nel processo di investimento del Comparto. Pertanto, si noti che gli investimenti sottostanti a questi Comparti non hanno tenuto conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Nel corso dell'esercizio finanziario, il Comparto ha preso in considerazione la PAI 14 attraverso lo Standard minimo e la Politica di esclusione di Amundi relativi alle armi controverse, escludendo gli emittenti che producono, vendono, immagazzinano o prestano servizi per le mine antiuomo e le bombe a grappolo, vietate dai trattati di Ottawa e Oslo, e gli emittenti coinvolti nella produzione, nella vendita o nell'immagazzinamento di armi chimiche, biologiche e all'uranio impoverito, come previsto dalla Politica globale di investimento responsabile di Amundi.

Obiettivo di investimento sostenibile

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di attività economiche ecosostenibili. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

X

Si

No

X

Ha effettuato degli investimenti sostenibili con un obiettivo ambientale: 17.3% del patrimonio netto del fondo

X

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

X

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

X

Ha effettuato degli investimenti sostenibili con un obiettivo sociale: 81.5% del patrimonio netto del fondo

☐

Ha promosso caratteristiche ambientali/sociali (A/S) e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del ____% di investimenti sostenibili:

☐

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

☐

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

☐

con un obiettivo sociale

☐

Ha promosso caratteristiche di A/S, ma non ha effettuato alcun investimento sostenibile

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Il fondo integra fattori di sostenibilità nel suo processo d'investimento, come indicato più dettagliatamente di seguito.

Prendendo in considerazione i criteri ESG nel fondo, l'obiettivo di investimento sostenibile è quello di combinare la performance finanziaria con il desiderio di influenzare positivamente, quando possibile, gli emittenti in termini di performance ESG, incoraggiando le società a migliorare l'integrazione dei criteri ESG nelle proprie attività e valorizzando le migliori pratiche.

La società di gestione ha applicato la politica descritta nel documento precontrattuale per i prodotti finanziari di cui all'articolo 9, paragrafi da 1 a 4 bis, del regolamento (UE) 2019/2088 e all'articolo 5, primo paragrafo, del regolamento (UE) 2020/852.

Il 100% del portafoglio investito, esclusa la liquidità e i mezzi equivalenti (ovvero il 98,82% del patrimonio netto del fondo), è costituito da investimenti sostenibili.

L'intensità media ponderata di carbonio e l'impronta di carbonio del portafoglio sono inferiori al proprio indice. Questa performance è attribuibile alla nostra forte sottoesposizione ai combustibili fossili.

L'intensità media ponderata di carbonio e l'impronta di carbonio del portafoglio continuano ad essere inferiori a quelle dell'indice anche quando si includono le emissioni Upstream Scope 3.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● Come si sono comportati gli indicatori di sostenibilità?

1.1. Prestazioni ambientali

Rispetto del Global Compact: Peso delle società in portafoglio identificate come conformi ai principi del Global Compact delle Nazioni Unite.

● ... e rispetto ai periodi precedenti?

Vedi sopra.

I principali effetti negativi

sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?

In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?

La valutazione del principio “non arrecare un danno significativo” (DNSH) si basa su esclusioni, Principali Effetti Negativi (PAI) e sul monitoraggio delle controversie. Inoltre, le società con un impatto ambientale o sociale MIA negativo, o pilastri A e S, sono considerate in deroga al principio DNSH.

Per ulteriori dettagli, si rimanda al Prospetto informativo e al Documento precontrattuale SFDR allegato al prospetto dell'OICR, disponibili sul sito web della società di gestione.

Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:

Escludiamo dal nostro universo d'investimento le società che non sono allineate con alcune norme e convenzioni internazionali, in particolare il Global Compact delle Nazioni Unite (UNGC), l'Organizzazione Internazionale del Lavoro (OIL) e i Principi Guida delle Nazioni Unite su Imprese e Diritti Umani (UNGPBHR).

Le società che sono oggetto di una controversia "Rossa" sono escluse dall'universo d'investimento. Tra queste controversie "Rosse" si annoverano le aziende che non sono in linea con il Global Compact delle Nazioni Unite (Diritti Umani, Diritti del Lavoro, Ambiente e Corruzione).

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Teniamo conto dei principali indicatori di impatto negativo nella politica di esclusioni settoriali e normative, l'analisi delle buone pratiche di governance (utilizzando la Montpensier Governance Flag - MGF), l'analisi qualitativa esclusiva del contributo delle aziende alle transizioni ambientali e solidali (Montpensier Impact Assessment - MIA, Montpensier Industry Contributor - MIC), e/o nell'analisi delle eco-attività che determina il contributo a uno o più Obiettivi di Sviluppo Sostenibile (SDGs) delle Nazioni Unite.

La rilevanza e la copertura di questi indicatori nell'analisi variano a seconda del settore, dell'industria e della regione in cui opera ogni azienda.

Le informazioni sugli obiettivi ambientali, sociali e di governance (ESG) sono disponibili sul sito web della società di gestione:

<https://www.montpensier.com/sites/default/files/public/documents/politique-esg.pdf>

Classificazione ICB (Industry Classification Benchmark) - 11 settori industriali

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **fatturato** riflette la "ecocompatibilità" delle società partecipate oggi.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, rilevanti per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

☐ Sì:

☐ In gas fossile ☐ In energia nucleare

☒ No

I dati relativi al coinvolgimento delle aziende nelle attività legate al gas fossile e/o all'energia nucleare, in linea con la tassonomia, sono determinati prendendo in considerazione solo i dati pubblicati dalle aziende. Non sono ancora disponibili dati sul coinvolgimento delle aziende in attività di gas fossile e/o energia nucleare conformi alla tassonomia.

A titolo informativo, i titoli identificati come coinvolti nell'energia fossile e/o nucleare rappresentano il 3.40% del portafoglio, vale a dire il 3.40% del portafoglio per i titoli che derivano parte delle loro vendite dall'energia nucleare e il 0.00% per i titoli coinvolti nell'energia fossile.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

** Ai fini dei grafici di cui sopra, per "obbligazioni sovrane" si intendono tutte le esposizioni sovrane. Il fatturato è stimato da MSCI ESG Research in base alla metodologia descritta di seguito. I dati CapEx e Opex tengono conto solo dei dati pubblicati dalle aziende.*

Allineamento della tassonomia europea

L'allineamento della tassonomia europea è stimato da MSCI ESG Research in base alla percentuale massima del fatturato di una società derivante da prodotti e servizi che perseguono obiettivi ambientali, sulla base del quadro MSCI Sustainable Impact Metrics.

La percentuale di vendite generate da prodotti e servizi che soddisfano gli obiettivi ambientali è ridotta a 0 per le aziende che non soddisfano i criteri "Non arrecare un danno significativo" e "Garanzie minime di salvaguardia sociale" della tassonomia europea.

Lo stesso vale per le aziende i cui ricavi derivano dalla fornitura, distribuzione o vendita al dettaglio di prodotti del tabacco in misura pari o superiore al 5% e le aziende coinvolte in armi controverse.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

 sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri per le attività economiche ecosostenibili ai sensi del Regolamento (UE) 2020/852.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Il Comparto non prevede una quota minima di investimenti in attività transitorie o abilitanti.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

	28/06/24	30/06/23
Allineamento alla tassonomia europea	% AUM	% AUM
Amundi Funds Montpensier Global Conve	4.8%	7.5%

La percentuale sopra indicata rappresenta il contributo del portafoglio all'allineamento alla tassonomia europea (in base al fatturato) di tutti gli investimenti sostenibili, che abbiano un obiettivo ambientale o sociale.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

Alla data della presente relazione, il 17.3% del patrimonio netto era investito in investimenti sostenibili con un obiettivo ambientale, mentre il 13.0% non era allineato alla tassonomia UE.

Qual è stata la quota di investimenti socialmente sostenibili?

Alla data della presente relazione, il 81.5% del patrimonio netto era investito in investimenti sostenibili con finalità sociali.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

La liquidità, i mezzi equivalenti e gli eventuali derivati di copertura rappresentano l'1,2% del patrimonio netto del fondo e non offrono garanzie ambientali o sociali minime.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

La società di gestione ha applicato la politica descritta nel documento informativo precontrattuale per i prodotti finanziari di cui all'articolo 9, paragrafi 1 a 4a, del regolamento (UE) 2019/2088 e all'articolo 5, primo paragrafo, del regolamento (UE) 2020/852.

La politica di coinvolgimento degli azionisti di Montpensier Finance consiste in una politica di voto e in una politica di coinvolgimento.

L'esercizio dei diritti di voto è un elemento importante del dialogo con gli emittenti. Incoraggia le migliori pratiche di governance e promuove l'etica professionale.

Montpensier Finance ritiene che l'esercizio dei diritti di voto sia parte integrante del processo di gestione degli investimenti e debba essere effettuato nel migliore interesse dei propri clienti. La politica dei diritti di voto di Montpensier Finance mira a promuovere la valutazione a lungo termine degli investimenti dei suoi fondi.

Per esercitare i diritti di voto connessi ai titoli detenuti dal fondo, i gestori fanno riferimento ai principi relativi alle raccomandazioni di corporate governance pubblicati da ISS Governance, nella sua Politica di sostenibilità. L'ISS copre tutte le società presenti nei portafogli dei fondi gestiti da Montpensier Finance.

Le norme di conformità richiedono che i gestori di portafoglio svolgano le loro funzioni in modo indipendente, in particolare per quanto riguarda gli emittenti, e nell'interesse esclusivo delle quote / degli azionisti. I gestori di portafoglio prestano particolare attenzione alle delibere che possono pregiudicare gli interessi delle quote / degli azionisti.

La politica di voto completa e l'ultima relazione sull'esercizio dei diritti di voto sono disponibili sul nostro sito web.

Montpensier Finance integra la sua politica di voto con una politica di impegno.

I team di gestione dei fondi sono incoraggiati a sollevare qualsiasi preoccupazione con le società durante le riunioni, in particolare quando le questioni ESG sembrano non essere sufficientemente prese in considerazione, al fine di incoraggiare queste società a migliorare le loro pratiche in materia ambientale, sociale e di governance aziendale, tutti fattori di crescita sostenibile.

I gestori del fondo, coadiuvati dagli analisti ISR, instaureranno un rapporto positivo e costruttivo a medio-lungo termine con le società in portafoglio.

Questa relazione è poliedrica:

- ✓ Contatti aziendali;
- ✓ Comunicare alla società le intenzioni di voto dei gestori dei fondi prima dell'Assemblea generale.

Oltre alle iniziative di coinvolgimento diretto che di solito conduce direttamente con le Piccole e Medie Imprese, Montpensier Finance partecipa anche ad azioni di coinvolgimento collettivo implementate da ISS come parte del suo programma ISS ESG, in particolare per le società più grandi.

Questo dialogo è condotto con l'obiettivo di:

- ✓ Incoraggiare le aziende a definire un impegno ESG;
- ✓ Incoraggiare le aziende a comunicare le loro pratiche ESG.

La politica di coinvolgimento completa e l'ultima relazione sul coinvolgimento sono disponibili sul nostro sito web.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento
sono indici atti a misurare se il prodotto finanziario raggiunge l'obiettivo sostenibile.

Il fondo non utilizza un benchmark sostenibile. La sua performance di sostenibilità viene confrontata con il suo benchmark: Stoxx 600

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Obiettivo di investimento sostenibile

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di attività economiche ecosostenibili.

Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

X

Si

No

X

Ha effettuato degli investimenti sostenibili con un obiettivo ambientale: 96.6% del patrimonio netto del fondo

X

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

X

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

☐

Ha promosso caratteristiche ambientali/sociali (A/S) e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del ____% di investimenti sostenibili:

☐

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

☐

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

☐

con un obiettivo sociale

☐

Ha effettuato degli investimenti sostenibili con un obiettivo sociale: 0.0% del patrimonio netto del fondo

☐

Ha promosso caratteristiche di A/S, ma ma non ha effettuato alcun investimento sostenibile

Fondo tematico azionario globale, all caps, rivolto a società effettivamente coinvolte e in grado di generare un impatto reale nella transizione energetica ed ecologica per il clima.

In che misura è stato raggiunto l'obiettivo di investimento sostenibile di questo prodotto finanziario?

Il fondo integra fattori di sostenibilità nel suo processo d'investimento, come indicato più dettagliatamente di seguito. L'obiettivo di investimento sostenibile del fondo è quello di individuare il coinvolgimento di aziende a favore della transizione energetica ed ecologica per il clima, al fine di investire principalmente in azioni di aziende le cui iniziative o soluzioni contribuiscono direttamente o indirettamente alla riduzione degli impatti del cambiamento climatico, o in azioni di aziende di cui una parte dell'attività riguarda cambiamenti e sviluppi legati al tema della transizione energetica e climatica.

I criteri ESG sono presi in considerazione dal fondo al fine di unificare la performance finanziaria e il desiderio di influenzare positivamente, quando possibile, l'emittente in termini di performance ESG, incoraggiando le società a migliorare l'integrazione dei criteri ESG nelle proprie attività e valorizzando le migliori pratiche.

La società di gestione ha applicato la politica descritta nel documento precontrattuale per i prodotti finanziari di cui all'articolo 9, paragrafi da 1 a 4 bis, del regolamento (UE) 2019/2088 e all'articolo 5, primo paragrafo, del regolamento (UE) 2020/852.

Il 100% del portafoglio investito, esclusa la liquidità e i mezzi equivalenti (ovvero il 98,11% del patrimonio netto del fondo), è costituito da investimenti sostenibili.

L'intensità media ponderata di carbonio e l'impronta di carbonio del portafoglio sono significativamente inferiori al proprio indice. Questa performance è attribuibile alla nostra forte sottoesposizione ai combustibili fossili.

L'intensità media ponderata di carbonio del portafoglio è in linea con l'indice di riferimento e l'impronta di carbonio è inferiore all'indice di riferimento se si includono le emissioni Upstream Scope 3.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● Come si sono comportati gli indicatori di sostenibilità?

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **fatturato** riflette la "ecocompatibilità" delle società partecipate oggi.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, rilevanti per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

☐ Sì:

☐ In gas fossile ☐ In energia nucleare

☒ No

I dati relativi al coinvolgimento delle aziende nelle attività legate al gas fossile e/o all'energia nucleare, in linea con la tassonomia, sono determinati prendendo in considerazione solo i dati pubblicati dalle aziende.

Non sono ancora disponibili dati sul coinvolgimento delle aziende in attività di gas fossile e/o energia nucleare conformi alla tassonomia.

A titolo informativo, i titoli identificati come coinvolti nell'energia fossile e/o nucleare rappresentano il 3.40% del portafoglio, vale a dire il 3.40% del portafoglio per i titoli che derivano parte delle loro vendite dall'energia nucleare e il 0.00% per i titoli coinvolti nell'energia fossile.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per "obbligazioni sovrane" si intendono tutte le esposizioni sovrane.

Il fatturato è stimato da MSCI ESG Research in base alla metodologia descritta di seguito.

I dati CapEx e OpEx tengono conto solo dei dati pubblicati dalle aziende.

La percentuale di allineamento alla tassonomia sopra indicata rappresenta il contributo del portafoglio, in media ponderata, all'allineamento alla tassonomia europea (in base a fatturato, CapEx o OpEx) di tutti gli investimenti sostenibili, indipendentemente dal fatto che abbiano un obiettivo ambientale o sociale.

Allineamento della tassonomia europea

L'allineamento della tassonomia europea è stimato da MSCI ESG Research in base alla percentuale massima del fatturato di una società derivante da prodotti e servizi che perseguono obiettivi ambientali, sulla base del quadro MSCI Sustainable Impact Metrics.

La percentuale di vendite generate da prodotti e servizi che soddisfano gli obiettivi ambientali è ridotta a 0 per le aziende che non soddisfano i criteri "Non arrecare un danno significativo" e "Garanzie minime di salvaguardia sociale" della tassonomia europea.

Lo stesso vale per le aziende i cui ricavi derivano dalla fornitura, distribuzione o vendita al dettaglio di prodotti del tabacco in misura pari o superiore al 5% e le aziende coinvolte in armi controverse.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

 sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri per le attività economiche ecosostenibili ai sensi del Regolamento (UE) 2020/852.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Il Comparto non prevede una quota minima di investimenti in attività transitorie o abilitanti.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

	28/06/24	30/06/23
Allineamento alla tassonomia europea	% AUM	% AUM
Amundi Funds Montpensier Global Conve	65.8%	65.7%

La percentuale sopra indicata rappresenta il contributo del portafoglio all'allineamento alla tassonomia europea (in base al fatturato) di tutti gli investimenti sostenibili, che abbiano un obiettivo ambientale o sociale.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

Alla data della presente relazione, il 96.6% del patrimonio netto era investito in investimenti sostenibili con un obiettivo ambientale, mentre il 3.6% non era allineato alla tassonomia UE.

Qual è stata la quota di investimenti socialmente sostenibili?

Alla data della presente relazione, lo 0.0% del patrimonio netto era investito in investimenti sostenibili con finalità sociali, sapendo che si tratta di un fondo tematico azionario globale, all caps, rivolto a società effettivamente coinvolte e in grado di generare un impatto reale nella transizione energetica ed ambientale per il clima.

Quali investimenti erano compresi nella categoria "non sostenibile", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

La liquidità, i mezzi equivalenti e gli eventuali derivati di copertura rappresentano l'1,9% del patrimonio netto del fondo e non offrono garanzie ambientali o sociali minime.

Che azioni sono state intraprese per raggiungere l'obiettivo di investimento sostenibile durante il periodo di riferimento?

La società di gestione ha applicato la politica descritta nel documento informativo precontrattuale per i prodotti finanziari di cui all'articolo 9, paragrafi 1 a 4a, del regolamento (UE) 2019/2088 e all'articolo 5, primo paragrafo, del regolamento (UE) 2020/852.

La politica di coinvolgimento degli azionisti di Montpensier Finance consiste in una politica di voto e in una politica di coinvolgimento.

L'esercizio dei diritti di voto è un elemento importante del dialogo con gli emittenti. Incoraggia le migliori pratiche di governance e promuove l'etica professionale.

Montpensier Finance ritiene che l'esercizio dei diritti di voto sia parte integrante del processo di gestione degli investimenti e debba essere effettuato nel migliore interesse dei propri clienti. La politica dei diritti di voto di Montpensier Finance mira a promuovere la valutazione a lungo termine degli investimenti dei suoi fondi.

Per esercitare i diritti di voto connessi ai titoli detenuti dal fondo, i gestori fanno riferimento ai principi relativi alle raccomandazioni di corporate governance pubblicati da ISS Governance, nella sua Politica di sostenibilità. L'ISS copre tutte le società presenti nei portafogli dei fondi gestiti da Montpensier Finance.

Le norme di conformità richiedono che i gestori di portafoglio svolgano le loro funzioni in modo indipendente, in particolare per quanto riguarda gli emittenti, e nell'interesse esclusivo delle quote / degli azionisti. I gestori di portafoglio prestano particolare attenzione alle delibere che possono pregiudicare gli interessi delle quote / degli azionisti.

La politica di voto completa e l'ultima relazione sull'esercizio dei diritti di voto sono disponibili sul nostro sito web.

Montpensier Finance integra la sua politica di voto con una politica di impegno.

I team di gestione dei fondi sono incoraggiati a sollevare qualsiasi preoccupazione con le società durante le riunioni, in particolare quando le questioni ESG sembrano non essere sufficientemente prese in considerazione, al fine di incoraggiare queste società a migliorare le loro pratiche in materia ambientale, sociale e di governance aziendale, tutti fattori di crescita sostenibile.

I gestori del fondo, coadiuvati dagli analisti ISR, instaureranno un rapporto positivo e costruttivo a medio-lungo termine con le società in portafoglio.

Questa relazione è poliedrica:

- ✓ Contatti aziendali;
- ✓ Comunicare alla società le intenzioni di voto dei gestori dei fondi prima dell'Assemblea generale.

Oltre alle iniziative di coinvolgimento diretto che di solito conduce direttamente con le Piccole e Medie Imprese, Montpensier Finance partecipa anche ad azioni di coinvolgimento collettivo implementate da ISS come parte del suo programma ISS ESG, in particolare per le società più grandi.

Questo dialogo è condotto con l'obiettivo di:

- ✓ Incoraggiare le aziende a definire un impegno ESG;
- ✓ Incoraggiare le aziende a comunicare le loro pratiche ESG.

La politica di coinvolgimento completa e l'ultima relazione sul coinvolgimento sono disponibili sul nostro sito web.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento

sono indici atti a misurare se il prodotto finanziario raggiunge l'obiettivo sostenibile.

Il fondo non utilizza un benchmark sostenibile. La sua performance di sostenibilità viene confrontata con il suo benchmark: Stoxx Global 1800

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

N/A

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

N/A

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

N/A

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Per gli indicatori di performance del fondo e il suo benchmark rispetto agli indicatori di sostenibilità, si veda sopra.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS IMPACT

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

X

Si

No

X

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale: 89.86%**

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale: _____**

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del _____ di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma **ma non ha effettuato alcun investimento sostenibile**

In che misura è stato raggiunto l'obiettivo di investimento sostenibile di questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **BLOOMBERG EURO GREEN BOND INDEX: CORPORATE**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Il comparto ha mantenuto la quota impegnata della sua allocazione investita nell'uso di green bond.

L'obiettivo dei green bond è quello di finanziare progetti che generano un impatto positivo e misurabile sull'ambiente. L'indicatore chiave per misurare l'impatto dei green bond è "tonnellate di emissioni di CO2 evitate per milione di euro investiti in un anno". Al di là dell'analisi finanziaria quantitativa e qualitativa delle obbligazioni che probabilmente andranno a comporre il portafoglio, il processo di selezione comprende una valutazione della strategia ESG a livello di emittente e una valutazione dei green bond in base a diversi punti di analisi:

1. Amundi ha sviluppato un sistema esclusivo di punteggio ESG basato su una scala di sette lettere, che va da A a G, dove A rappresenta il rating migliore e G quello peggiore. Qualsiasi emittente con rating G è escluso da tutti i portafogli gestiti attivamente di Amundi. Implementiamo la verifica del rating ESG dell'emittente e controlliamo la conformità del rating ai criteri del relativo fondo. Come indicato in precedenza, gli emittenti con un rating G nella scala di rating ESG di Amundi non sono idonei all'investimento. In caso di punti deboli, il team di ricerca ESG cercherà di approfondire le controversie sul relativo pilastro (A, S e G).

2. Valutazione dei green bond in termini di: (i) analisi del progetto, attraverso l'analisi dell'ubicazione geografica degli asset, l'azione sugli asset, la valutazione di qualsiasi impatto aggiuntivo del progetto green sull'ambiente, sulla biodiversità, sulle comunità locali o su altri aspetti sociali (Do no significant harm, ovvero "non arreca un danno significativo"), l'allineamento agli standard di settore (ad esempio, l'allineamento ai Green Bond Principles dell'International Capital Markets Association, alla Climate Bond Initiative, alla tassonomia dell'UE). (ii) analisi dell'emittente a livello di strategia ESG globale e di controversie, (iii) logica di finanziamento green (tipo di progetti finanziati, allocazione dei green asset, tipo di strumenti di finanziamento dei progetti green) e (iv) trasparenza (rapporto sui green bond, esistenza di un parere di terze parti).

3. Monitoraggio continuo (investimento ex-post), che comprende l'esame regolare dell'allocazione e del rapporto sull'impatto del green bond, delle controversie in cui l'emittente è coinvolto e della strategia ambientale dell'emittente.

Infine, tutti i Green Bond selezionati dovranno soddisfare i criteri e le linee guida dei Green Bond Principles pubblicati dall'International Capital Market Association. Per maggiori dettagli su quanto sopra, si prega di visitare la Politica di investimento responsabile di Amundi.

● *Come si sono comportati gli indicatori di sostenibilità?*

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **1.188 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.799 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

Alla fine del periodo, il portafoglio detiene **89.79 %** di green bonds.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.99 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.83 (C).

Alla fine del periodo precedente, il portafoglio deteneva 95.01 % di green bonds.

● **In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?**

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- **In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?**

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- **Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:**

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

Si, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.50% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito all'obbligo di mitigazione dei cambiamenti climatici o agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE ¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

1. Investimenti allineati alla tassonomia comprese le obbligazioni sovrane*

2. Investimenti allineati alla tassonomia escluse le obbligazioni sovrane*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **89.36%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 0.00%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Non esistono tutele minime ambientali o sociali per questi beni.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

● **In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?**

Questo prodotto non dispone di un Benchmark ESG.

 sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Gli indici di riferimento sono indici atti a misurare se il prodotto

finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS IMPACT GREEN BONDS

Identificativo della persona giuridica: 213800XAP1H8TNKVRE27

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

X

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale: 95.98%**

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale: _____**

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del _____ di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura è stato raggiunto l'obiettivo di investimento sostenibile di questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **BLOOMBERG MSCI GLOBAL GREEN BOND HEDGED INDEX**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Il comparto ha mantenuto la quota impegnata della sua allocazione investita nell'uso di green bond.

L'obiettivo dei green bond è quello di finanziare progetti che generano un impatto positivo e misurabile sull'ambiente. L'indicatore chiave per misurare l'impatto dei green bond è "tonnellate di emissioni di CO2 evitate per milione di euro investiti in un anno". Al di là dell'analisi finanziaria quantitativa e qualitativa delle obbligazioni che probabilmente andranno a comporre il portafoglio, il processo di selezione comprende una valutazione della strategia ESG a livello di emittente e una valutazione dei green bond in base a diversi punti di analisi:

1. Amundi ha sviluppato un sistema esclusivo di punteggio ESG basato su una scala di sette lettere, che va da A a G, dove A rappresenta il rating migliore e G quello peggiore. Qualsiasi emittente con rating G è escluso da tutti i portafogli gestiti attivamente di Amundi. Implementiamo la verifica del rating ESG dell'emittente e controlliamo la conformità del rating ai criteri del relativo fondo. Come indicato in precedenza, gli emittenti con un rating G nella scala di rating ESG di Amundi non sono idonei all'investimento. In caso di punti deboli, il team di ricerca ESG cercherà di approfondire le controversie sul relativo pilastro (A, S e G).
2. Valutazione dei green bond in termini di: (i) analisi del progetto, attraverso l'analisi dell'ubicazione geografica degli asset, l'azione sugli asset, la valutazione di qualsiasi impatto aggiuntivo del progetto green sull'ambiente, sulla biodiversità, sulle comunità locali o su altri aspetti sociali (Do no significant harm, ovvero "non arreca un danno significativo"), l'allineamento agli standard di settore (ad esempio, l'allineamento ai Green Bond Principles dell'International Capital Markets Association, alla Climate Bond Initiative, alla tassonomia dell'UE). (ii) analisi dell'emittente a livello di strategia ESG globale e di controversie, (iii) logica di finanziamento green (tipo di progetti finanziati, allocazione dei green asset, tipo di strumenti di finanziamento dei progetti green) e (iv) trasparenza (rapporto sui green bond, esistenza di un parere di terze parti).
3. Monitoraggio continuo (investimento ex-post), che comprende l'esame regolare dell'allocazione e del rapporto sull'impatto del green bond, delle controversie in cui l'emittente è coinvolto e della strategia ambientale dell'emittente.

Infine, tutti i Green Bond selezionati dovranno soddisfare i criteri e le linee guida dei Green Bond Principles pubblicati dall'International Capital Market Association. Per maggiori dettagli su quanto sopra, si prega di visitare la Politica di investimento responsabile di Amundi.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **1.212 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.935 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

Alla fine del periodo, il portafoglio detiene **96.23 %** di green bonds.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 1.14 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.97 (C). Alla fine del periodo, il portafoglio deteneva 99.95 % di green bonds.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata:

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
AMUNDI RESP INV - IMPACT GREEN BD-OR(D)	Finanziari	Fondi comuni di investimento	Francia	101.28%

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'**asset allocation** descrive la quota di investimenti in asset specifici.

In quali settori economici sono stati effettuati gli investimenti?

Settore	Sottosettori	% Asset
<i>Finanziari</i>	<i>Fondi comuni di investimento</i>	101.28%
<i>Forex</i>	<i>Forex</i>	-1.26%
<i>Cash</i>	<i>Cash</i>	-0.02%

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.93% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

-fatturato che riflette la quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
-spese in conto capitale(CapEx) investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- spese operative (OpEx) attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.40%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

 sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **95.05%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 0.00%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
CLIMATE TRANSITION GLOBAL EQUITY

Identificativo della persona giuridica:
213800AAWV9V2PNKC495

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **45.60%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI ACWI**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.243 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.171 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Questo è il primo rapporto periodico del SFDR redatto per questo comparto.

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:*** Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato

a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio "non arreca un danno significativo", in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di "non arreca un danno significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- Esclusione: Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- Integrazione dei fattori ESG: Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- Engagement: il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- Voto: la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- Monitoraggio delle controversie: Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
ALPHABET INC CL A	Servizi di comunicazione	Media e Intrattenimento	Stati Uniti	5.03%
INTL BUSINESS MACHINES CORP	Tecnologie dell'Informazione	Software e Servizi	Stati Uniti	3.26%
CARDINAL HEALTH INC	Assistenza Sanitaria	Servizi e strumenti per la salute	Stati Uniti	3.20%
KB FINANCIAL GROUP INC	Finanziari	Banche	Corea	3.03%

Qual è stata la quota di investimenti legati alla sostenibilità?

● **Qual è stata l'allocazione degli asset?**

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

L'asset allocation descrive la quota di investimenti in asset specifici.

● **In quali settori economici sono stati effettuati gli investimenti?**

Settore	Sottosettori	% Asset
Finanziari	Banche	13.95%
Settore Industriale	Beni strumentali	9.86%
Finanziari	Servizi Finanziari	6.70%
Beni di consumo voluttuari	Beni di Consumo Voluttuario Distribuzione e Vendita al Dettaglio	6.31%
Servizi di comunicazione	Media e Intrattenimento	6.10%

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.04% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito all'obbligo di mitigazione dei cambiamenti climatici o agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE ¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- fatturato che riflette la quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
- spese in conto capitale(CapEx) investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- spese operative (OpEx) attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.03% e la quota di investimenti in attività abilitanti era pari allo 0.03%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Questo è il primo rapporto periodico del SFDR redatto per questo comparto.

sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **37.87%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 7.69%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EUROLAND EQUITY

Identificativo della persona giuridica:
54930017SRMTTD1P6F20

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **77.26%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EMU**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● *Come si sono comportati gli indicatori di sostenibilità?*

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **1.174 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **1.030 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● *... e rispetto ai periodi precedenti?*

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 1.11 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 1.03 (C).

● *Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?*

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti

umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 3.18% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE ¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

-fatturato
quota di entrate da attività verdi delle imprese beneficiarie degli investimenti

-spese in conto capitale (CapEx)
investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- spese operative (OpEx)
attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.02% e la quota di investimenti in attività abilitanti era pari allo 3.36%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 2.91%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **64.90%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 9.18%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EUROPEAN EQUITY ESG IMPROVERS

Identificativo della persona giuridica:
213800RDI8BXDLA6QV22

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **56.77%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EUROPE (15)**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Il gestore degli investimenti ha focalizzato il processo di investimento su società/settori/paesi che hanno abbracciato, o abbracceranno, una traiettoria ESG positiva all'interno della loro attività. Il gestore degli investimenti ha individuato opportunità di investimento allineate con

L'obiettivo di generare alfa, concentrandosi in particolare sull'inclusione di società/settori/paesi che saranno fortemente vincenti dal punto di vista ESG in futuro, che presentino (o presenteranno) un miglioramento positivo del profilo ESG, investendo al contempo in società/settori/paesi attualmente steward ESG.

Inoltre, il Comparto ha ottenuto un punteggio ESG del suo portafoglio superiore a quello del Benchmark. Il Comparto è stato confrontato con il punteggio ESG del suo Benchmark dopo che il 20% dei titoli con rating ESG più basso è stato escluso dal Benchmark.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● *Come si sono comportati gli indicatori di sostenibilità?*

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **1.145 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.798 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● *... e rispetto ai periodi precedenti?*

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.19 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.80 (C).

● *Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?*

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione

della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio "non arreca un danno significativo", in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di "non arreca un danno significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività

di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.

- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.
#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.
La categoria **#1 Allineati con caratteristiche A/S** comprende:
- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- La sottocategoria **#1B altre caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 1.57% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE ¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia

sono espresse in percentuale di:

- turnover quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- spese in conto capitale (CapEx) investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- spese operative (OpEx) attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.03% e la quota di investimenti in attività abilitanti era pari allo 0.95%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 9.93%.

sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al 47.80% alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 7.40%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EUROLAND EQUITY SMALL CAP

Identificativo della persona giuridica:
529900IUDK1P871TPU43

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **75.10%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EMU SMALL CAP**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Il prodotto è etichettato SRI (Investimento Sociale e Responsabile - Social and Responsible Investment). Nel corso dell'anno ha cercato di promuovere le 3 dimensioni (ambientale, sociale e di governance) tenendo conto del rating ESG degli emittenti nella costruzione del portafoglio.

Il rating ESG degli emittenti mira a valutare la loro capacità di gestire il potenziale impatto negativo delle loro attività sui fattori di sostenibilità. Questa analisi mira quindi a valutare i loro comportamenti ambientali e sociali in termini di governance, assegnando loro un rating ESG che va da A (rating migliore) a G (rating peggiore), in modo da ottenere una valutazione più globale dei rischi.

1. Il portafoglio ha applicato costantemente la seguente politica di esclusione di Amundi:
 - Esclusioni legali di armi controverse
 - Aziende che contravvengono gravemente e ripetutamente a uno o più dei 10 principi del Global Compact (UN Global Compact), senza misure correttive credibili;
 - Le esclusioni settoriali del gruppo Amundi su carbone e tabacco (i dettagli di questa politica sono disponibili nella Politica di Investimento Responsabile di Amundi disponibile sul sito www.amundi.fr)
2. Non sono stati effettuati investimenti in emittenti con rating F o G. Per gli emittenti il cui rating è stato abbassato a F o G, i titoli già presenti in portafoglio sono stati venduti nei tempi previsti dal prospetto e tenendo conto degli interessi finanziari dei detentori.
3. Il punteggio ESG medio ponderato del portafoglio è stato costantemente superiore al punteggio ESG medio ponderato dell'universo di investimento del fondo dopo aver eliminato il 20% degli emittenti peggiori.
4. Il fondo ha privilegiato gli emittenti che sono leader nel loro settore di attività secondo i criteri ESG identificati dal team di analisti extra-finanziari della società di gestione (approccio "best in class"). Ad eccezione delle esclusioni di cui sopra, tutti i settori economici sono rappresentati in questo approccio e l'UCI può quindi essere esposto ad alcuni settori controversi.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.962 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.673 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.91 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.60 (C).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● **In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?**

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro “non arrecano un danno significativo” (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**,

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 5.83% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito all'obbligo di mitigazione dei cambiamenti climatici o agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

-fatturato che riflette la quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
-spese in conto capitale(CapEx) investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- spese operative (OpEx) attività operative verdi delle imprese beneficiarie degli investimenti.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1?**

☐ Sì:

☐ In gas fossile

☐ In energia nucleare

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

- **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.21% e la quota di investimenti in attività abilitanti era pari allo 3.90%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 8.67%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **50.42%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 18.85%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

- **In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?**

Questo prodotto non dispone di un Benchmark ESG.

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche

ambientali o sociali
che promuove.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI
FUNDS EUROPEAN EQUITY

Identificativo della persona giuridica:
213800CFWZ9RHAKLOD58

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **68.94%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EUROPE (15)**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.914 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.798 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Questo è il primo rapporto periodico del SFDR redatto per questo comparto.

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti

sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO₂ che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- Esclusione: Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- Integrazione dei fattori ESG: Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- Engagement: il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- Voto: la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- Monitoraggio delle controversie: Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● **In quali settori economici sono stati effettuati gli investimenti?**

Per conformarsi alla tassonomia dell'UE, i criteri per il gas fossile includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per quanto riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.65% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito all'obbligo di mitigazione dei cambiamenti climatici o agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE ¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **fatturato** che riflette la quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.02% e la quota di investimenti in attività abilitanti era pari allo 0.63%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Questo è il primo rapporto periodico del SFDR redatto per questo comparto.

sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

● Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **45.22%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

● Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 23.07%.

● Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI
FUNDS EUROPE EX UK EQUITY

Identificativo della persona giuridica:
213800GUNJ834MSUJJ48

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **70.16%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EUROPE EX UK**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **1.185 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.906 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Questo è il primo rapporto periodico del SFDR redatto per questo comparto.

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti

umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili

provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- Esclusione: Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- Integrazione dei fattori ESG: Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- Engagement: il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- Voto: la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- Monitoraggio delle controversie: Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
NOVO NORDISK A/S-B	Assistenza Sanitaria	Prodotti farmaceutici Biotech e scienze della vita	Danimarca	7.11%

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● **In quali settori economici sono stati effettuati gli investimenti?**

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile

o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per quanto riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:
- **fatturato** che riflette la quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

riferimento ha investito lo 2.67% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito all'obbligo di mitigazione dei cambiamenti climatici o agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE ¹?**

☐ Sì:

☐ In gas fossile ☐ In energia nucleare

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.02% e la quota di investimenti in attività abilitanti era pari allo 2.78%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- ***In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?***

Questo è il primo rapporto periodico del SFDR redatto per questo comparto.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **54.21%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 13.28%.

Quali investimenti erano compresi nella categoria “altri”, qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **83.85%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI Europe (dividends reinvested) Index**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è 1.188 (C).
- Il rating ESG medio ponderato dell'universo d'investimento ESG è 0.77 (C).

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 1.13 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.76 (C).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti

sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO₂ che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei

dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
SAP SE / XETRA	Tecnologie dell'informazione	Software e Servizi	Germania	3.95%

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.
#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● **In quali settori economici sono stati effettuati gli investimenti?**

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 13.85% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito all'obbligo di mitigazione dei cambiamenti climatici o agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

-fatturato che riflette la quota di entrate da attività verdi delle imprese beneficiarie degli investimenti

-spese in conto capitale(CapEx) investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- spese operative (OpEx) attività operative verdi delle imprese beneficiarie degli investimenti.

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.12% e la quota di investimenti in attività abilitanti era pari allo 9.43%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 16.33%.

● Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **50.21%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

 sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri per le attività

economiche
ecosostenibili
ai sensi del
Regolamento (EU)
2020/852.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 19.79%.

Quali investimenti erano compresi nella categoria “altri”, qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI
FUNDS EUROPEAN EQUITY VALUE

Identificativo della persona giuridica:
549300240RQEGYGAX021

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha **promosso caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **60.71%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EUROPE VALUE**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.998 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.712 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 1.03 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.70 (C).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Dal 01/07/2023 al 30/06/2024**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
ROCHE HLDG AG-GENUSS	Assistenza Sanitaria	Prodotti farmaceutici Biotech e scienze della vita	Svizzera	2.67%
SHELL PLC	Energia	Petrolio, gas e combustibili di consumo	Regno Unito	2.58%
HSBC HOLDING PLC GBP	Finanziario	Banche	Regno Unito	2.58%

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario. **#2 Altri** comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili. La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● **In quali settori economici sono stati effettuati gli investimenti?**

Settore	Sottosettori	% Asset
Finanziari	Banche	16.25%

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.25% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

fine del 2035. Per quanto riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

- **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.10% e la quota di investimenti in attività abilitanti era pari allo 1.02%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 5.74%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **58.02%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 2.44%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

- **In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?**

Questo prodotto non dispone di un Benchmark ESG.

Gli indici di riferimento sono indici atti a misurare se il prodotto

finanziario rispetta le caratteristiche ambientali o sociali che promuove.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EUROPEAN EQUITY INCOME ESG

Identificativo della persona giuridica:
549300L23KUMFUPDKS14

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **77.50%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EUROPE (15)**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **1.199 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.798 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 1.13 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.80 (C).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti

umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.12% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

a combustibili a basso contenuto di carbonio entro la fine del 2035. Per quanto riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- turnover quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- spese in conto capitale (CapEx) investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- spese operative (OpEx) attività operative verdi delle imprese beneficiarie degli investimenti.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

☐ Sì:

☐ In gas fossile ☐ In energia nucleare

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.03% e la quota di

investimenti in attività abilitanti era pari allo 1.79%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 4.11%.

 sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **60.20%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 16.09%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EUROPEAN EQUITY SMALL CAP

Identificativo della persona giuridica:
549300YCBHPCBFFKY81

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato degli investimenti sostenibili con un obiettivo ambientale: _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato degli investimenti sostenibili con un obiettivo sociale: _____

Ha promosso caratteristiche ambientali/sociali (A/S) e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del 63.96% di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma non ha effettuato alcun investimento sostenibile

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EUROPE (16) SMALL CAP**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.756 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.528 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.77 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.49 (C).

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti

sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 3.02% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

-fatturato
quota di entrate da attività verdi delle imprese beneficiarie degli investimenti

-spese in conto capitale (CapEx)
investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- spese operative (OpEx)
attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.08% e la quota di investimenti in attività abilitanti era pari allo 1.33%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 5.60%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **44.48%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 16.45%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS EQUITY JAPAN TARGET

Identificativo della persona giuridica: 529900LFY58YVU1ISY58

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **32.46%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **TOPIX**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **-0.223 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.280 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era -0.27 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.28 (D).

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti

sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi

sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating

ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la

fine del 2035. Per quanto riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- turnover quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- spese in conto capitale (CapEx) investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- spese operative

☐ Sì:

☐ In gas fossile

☐ In energia nucleare

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

⁴Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

** Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.*

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **21.89%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 10.58%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

- **In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?**

Questo prodotto non dispone di un Benchmark ESG.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Gli indici di riferimento sono indici atti a misurare se il prodotto

finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
GLOBAL ECOLOGY ESG

Identificativo della persona giuridica:
549300PF1HPU3EW4TO97

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **63.42%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI WORLD**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Il prodotto è etichettato SRI (Investimento Sociale e Responsabile - Social and Responsible Investment). Nel corso dell'anno ha cercato di promuovere le 3 dimensioni (ambientale, sociale e di governance) tenendo conto del rating ESG degli emittenti nella costruzione del portafoglio.

Il rating ESG degli emittenti mira a valutare la loro capacità di gestire il potenziale impatto negativo delle loro attività sui fattori di sostenibilità. Questa analisi mira quindi a valutare i loro comportamenti ambientali e sociali in termini di governance, assegnando loro un rating ESG che va da A (rating migliore) a G (rating peggiore), in modo da ottenere una valutazione più globale dei rischi.

1. Il portafoglio ha applicato costantemente la seguente politica di esclusione di Amundi:
 - Esclusioni legali di armi controverse
 - Aziende che contravvengono gravemente e ripetutamente a uno o più dei 10 principi del Global Compact (UN Global Compact), senza misure correttive credibili;
 - Le esclusioni settoriali del gruppo Amundi su carbone e tabacco (i dettagli di questa politica sono disponibili nella Politica di Investimento Responsabile di Amundi disponibile sul sito www.amundi.fr)
2. Non sono stati effettuati investimenti in emittenti con rating F o G. Per gli emittenti il cui rating è stato abbassato a F o G, i titoli già presenti in portafoglio sono stati venduti nei tempi previsti dal prospetto e tenendo conto degli interessi finanziari dei detentori.
3. Il punteggio ESG medio ponderato del portafoglio è stato costantemente superiore al punteggio ESG medio ponderato dell'universo di investimento del fondo dopo aver eliminato il 20% degli emittenti peggiori.
4. Il fondo ha privilegiato gli emittenti che sono leader nel loro settore di attività secondo i criteri ESG identificati dal team di analisti extra-finanziari della società di gestione (approccio "best in class"). Ad eccezione delle esclusioni di cui sopra, tutti i settori economici sono rappresentati in questo approccio e l'UCI può quindi essere esposto ad alcuni settori controversi.

● *Come si sono comportati gli indicatori di sostenibilità?*

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.622 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.179 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.69 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.12 (D).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● **In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?**

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro “non arrecano un danno significativo” (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 1.44% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **fatturato**
quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
- **spese in conto capitale (CapEx)**
investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)**
attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 1.66%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 1.72%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **46.80%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 15.18%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato degli investimenti sostenibili con un obiettivo ambientale: _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato degli investimenti sostenibili con un obiettivo sociale: _____

Ha promosso caratteristiche ambientali/sociali (A/S) e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del 53.16% di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma non ha effettuato alcun investimento sostenibile

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI WORLD**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Il gestore degli investimenti ha focalizzato il processo di investimento su società/settori/paesi che hanno abbracciato, o abbracceranno, una traiettoria ESG positiva all'interno della loro attività. Il gestore degli investimenti ha individuato opportunità di investimento allineate con

l'obiettivo di generare alfa, concentrandosi in particolare sull'inclusione di società/settori/paesi che saranno fortemente vincenti dal punto di vista ESG in futuro, che presentino (o presenteranno) un miglioramento positivo del profilo ESG, investendo al contempo in società/settori/paesi attualmente steward ESG.

Inoltre, il Comparto ha ottenuto un punteggio ESG del suo portafoglio superiore a quello del Benchmark. Il Comparto è stato confrontato con il punteggio ESG del suo Benchmark dopo che il 20% dei titoli con rating ESG più basso è stato escluso dal Benchmark.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.292 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.179 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.27 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.12 (D).

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e

2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio "non arreca un danno significativo", in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di "non arreca un danno significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività

di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.

- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.48% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE ¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.48%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.31%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **38.96%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 13.72%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS NET
ZERO AMBITION GLOBAL EQUITY

Identificativo della persona giuridica:
213800EAAY2IPNSZZ69

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato degli investimenti sostenibili con un obiettivo ambientale: _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato degli investimenti sostenibili con un obiettivo sociale: _____

Ha promosso caratteristiche ambientali/sociali (A/S) e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del 71.08% di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma non ha effettuato alcun investimento sostenibile

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI WORLD CLIMATE PARIS ALIGNED**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali, puntando a ridurre la propria intensità di carbonio, allineando l'intensità della propria impronta di carbonio a quella del suo Benchmark **MSCI WORLD CLIMATE PARIS ALIGNED**.

Gli indicatori di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● *Come si sono comportati gli indicatori di sostenibilità?*

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.522 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.012 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

L'indicatore di sostenibilità utilizzato è l'intensità dell'impronta di carbonio del portafoglio che viene calcolata come media del portafoglio ponderata per gli asset e confrontata con l'intensità dell'impronta di carbonio ponderata per gli asset del Benchmark. Di conseguenza, i titoli con un'impronta ambientale relativamente bassa avevano una maggiore probabilità di essere selezionati nel portafoglio rispetto ai titoli con un'impronta ambientale relativamente alta.

- L'intensità media ponderata dell'impronta di carbonio del portafoglio è **55.01**.
- L'intensità media ponderata dell'impronta di carbonio del Benchmark è **66.13**

● *... e rispetto ai periodi precedenti?*

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio **0.66 (C)** e il rating ESG medio ponderato dell'universo d'investimento ESG era **0.04 (D)**. Alla fine del periodo precedente l'intensità di carbonio media ponderata del portfolio era **72.84** e l'indice di riferimento medio ponderato dell'intensità di carbonio era **74.69**.

● *Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?*

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti

negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e

- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio "non arreca un danno significativo", in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di "non arreca un danno significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- Esclusione: Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- Integrazione dei fattori ESG: Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.

- Engagement: il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- Voto: la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- Monitoraggio delle controversie: Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
MICROSOFT CORP	Tecnologie dell'informazione	Software e Servizi	Stati Uniti	7.72%

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.
#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.
La categoria **#1 Allineati con caratteristiche A/S** comprende:
- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- La sottocategoria **#1B altre caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

Settore	Sottosettori	% Asset
Settore Industriale	Beni strumentali	17.49%

<i>Tecnologie dell'informazione</i>	<i>Semiconduttori e apparecchiature per semiconduttori</i>	15.85%

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 1.70% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

-fatturato
quota di entrate da attività verdi delle imprese beneficiarie degli investimenti

-spese in conto capitale (CapEx)
investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- spese operative (OpEx)
attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.89%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 1.91%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al 56.14% alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 13.25%

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

L'obiettivo di investimento sostenibile viene raggiunto allineando gli obiettivi di riduzione dell'impronta di carbonio del fondo all'indice MSCI World Climate Paris Aligned Net USD. L'intensità dell'impronta di carbonio del portafoglio viene calcolata come media del portafoglio ponderata per gli asset e confrontata con l'intensità dell'impronta di carbonio ponderata per gli asset dell'Indice.

Di conseguenza, i titoli con un'impronta ambientale relativamente bassa hanno una maggiore probabilità di essere selezionati nel portafoglio rispetto ai titoli con un'impronta ambientale relativamente alta. Inoltre, il fondo esclude le società sulla base di comportamenti e (o) prodotti controversi, in conformità alla politica di investimento responsabile.

- L'intensità media ponderata dell'impronta di carbonio del portafoglio è **55.01**
- L'intensità media ponderata dell'impronta di carbonio del Benchmark è **66.13**

● *In che modo l'indice di riferimento differisce da un indice generale di mercato?*

Un indice generale di mercato non valuta né include i suoi componenti in base alle caratteristiche ambientali e pertanto non è allineato alle caratteristiche ambientali.

L'indice utilizzato è un “Paris Aligned Benchmark” che incorpora obiettivi specifici relativi alla riduzione delle emissioni e alla transizione verso un'economia a basse emissioni di carbonio attraverso la selezione e la ponderazione dei componenti sottostanti.

● *Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?*

- Il rating ESG medio ponderato del portafoglio è **0.522 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.012 (D)**.

- L'intensità media ponderata dell'impronta di carbonio del portafoglio è **55.01**
- L'intensità media ponderata dell'impronta di carbonio del Benchmark è **66.13**

● ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

L'obiettivo di investimento sostenibile viene raggiunto allineando gli obiettivi di riduzione dell'impronta di carbonio del fondo all'indice MSCI World Climate Paris Aligned Net USD. L'intensità dell'impronta di carbonio del portafoglio viene calcolata come media del portafoglio ponderata per gli asset e confrontata con l'intensità dell'impronta di carbonio ponderata per gli asset dell'Indice.

Di conseguenza, i titoli con un'impronta ambientale relativamente bassa hanno una maggiore probabilità di essere selezionati nel portafoglio rispetto ai titoli con un'impronta ambientale relativamente alta. Inoltre, il fondo esclude le società sulla base di comportamenti e (o) prodotti controversi, in conformità alla politica di investimento responsabile.

- L'intensità media ponderata dell'impronta di carbonio del portafoglio è **55.01**
- L'intensità media ponderata dell'impronta di carbonio del Benchmark è **66.13**

● ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Un indice generale di mercato non valuta né include i suoi componenti in base alle caratteristiche ambientali e pertanto non è allineato alle caratteristiche ambientali.

L'indice utilizzato è un "Paris Aligned Benchmark" che incorpora obiettivi specifici relativi alla riduzione delle emissioni e alla transizione verso un'economia a basse emissioni di carbonio attraverso la selezione e la ponderazione dei componenti sottostanti.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
GLOBAL EQUITY INCOME ESG

Identificativo della persona giuridica:
549300JVYWQ1AGFG7O16

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **60.87%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI WORLD**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.644 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.179 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.71 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.12 (D).

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti

sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
MICROSOFT CORP	Informazioni Tecnologia	Software e Servizi	Stati Uniti	6.96%
JPMORGAN CHASE & CO	Finanziari	Banche	Stati Uniti	2.94%

Qual è stata la quota di investimenti legati alla sostenibilità?

● Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.

- La sottocategoria **#1B altre caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● In quali settori economici sono stati effettuati gli investimenti?

Settore	Sottosettori	% Asset
Beni d'Investimento	Industriali	11.76%
Tecnologie dell'informazione	Software e Servizi	10.69%
Tecnologie dell'informazione	Semiconduttori e apparecchiature per semiconduttori	9.64%
Finanziari	Banche	9.57%

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.15% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE ¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Le attività allineate alla tassonomia

sono espresse in percentuale di:

-fatturato

quota di entrate da attività verdi delle imprese beneficiarie degli investimenti

-spese in conto capitale (CapEx)

investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- spese operative (OpEx)

attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 1.68%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 3.30%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **48.51%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 10.86%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?

Questo prodotto non dispone di un Benchmark ESG.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
JAPAN EQUITY ENGAGEMENT

Identificativo della persona giuridica:
549300ELY8IP EE0JYT57

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **53.17%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **TOPIX**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.131 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.280 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portafoglio era 0.14 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.28 (D).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio

ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating

ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- La sottocategoria **#1B altre caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● **In quali settori economici sono stati effettuati gli investimenti?**

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emis-

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

sioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per quanto riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

-fatturato
quota di entrate da attività verdi delle imprese beneficiarie degli investimenti

-spese in conto capitale (CapEx)
investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- spese operative (OpEx)
attività operative verdi delle imprese beneficiarie degli investimenti.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

☐ Sì:

☐ In gas fossile ☐ In energia nucleare

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

- **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **36.58%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 16.58%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

- **In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?**

Questo prodotto non dispone di un Benchmark ESG.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Gli indici di riferimento sono indici atti a misurare se il prodotto

finanziario rispetta le caratteristiche ambientali o sociali che promuove.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS GLOBAL EQUITY

Identificativo della persona giuridica: 549300R5QSNNJBY1T17

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha **promosso caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **41.25%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI ACWI**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.185 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.171 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.24 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.12 (D).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti

umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

- ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/2024**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Qual è stata la quota di investimenti legati alla sostenibilità?

L'asset allocation descrive la quota di investimenti in asset specifici.

● **Qual è stata l'allocazione degli asset?**

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● **In quali settori economici sono stati effettuati gli investimenti?**

Settore	Sottosettori	% Asset
Finanziari	Banche	13.40%
Beni di consumo voluttuari	Beni di Consumo Voluttuario Distribuzione e Vendita al Dettaglio	8.71%
Settore Industriale	Beni strumentali	8.33%

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.04% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.03% e la quota di investimenti in attività abilitanti era pari allo 0.01%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.01%.

sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **34.13%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 7.08%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS US
EQUITY DIVIDEND GROWTH

Identificativo della persona giuridica:
5493008HZKXKMO2U3E97

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Sì

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **27.53%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **RUSSELL 1000 VALUE (FRC)**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **-0.137 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.479 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era -0.13 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.39 (D).

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti

umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Qual è stata la quota di investimenti legati alla sostenibilità?

- **Qual è stata l'allocazione degli asset?**

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- La sottocategoria **#1B altre caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● **In quali settori economici sono stati effettuati gli investimenti?**

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE ¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia

sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **24.73%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le

attività economiche
ecosostenibili
ai sensi del
Regolamento (EU)
2020/852.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 2.80%.

Quali investimenti erano compresi nella categoria “altri”, qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● *In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?*

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
US EQUITY ESG IMPROVERS

Identificativo della persona giuridica:
213800ETDMQDXO6WX979

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha **promosso caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **39.41%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **S&P 500**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Il gestore degli investimenti ha focalizzato il processo di investimento su società/settori/paesi che hanno abbracciato, o abbracceranno, una traiettoria ESG positiva all'interno della loro attività. Il gestore degli investimenti ha individuato opportunità di investimento allineate con l'obiettivo di generare alfa, concentrandosi in particolare sull'inclusione di società/settori/paesi che saranno fortemente vincenti dal punto di vista ESG in futuro, che presentino (o presenteranno) un miglioramento positivo del profilo ESG, investendo al contempo in società/settori/paesi attualmente steward ESG.

Inoltre, il Comparto ha ottenuto un punteggio ESG del suo portafoglio superiore a quello del Benchmark. Il Comparto è stato confrontato con il punteggio ESG del suo Benchmark dopo che il 20% dei titoli con rating ESG più basso è stato escluso dal Benchmark.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.107 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.433 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.14 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.38 (D).

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e

2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***
Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio "non arreca un danno significativo", in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di "non arreca un danno significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione

ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.

- Voto: la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- Monitoraggio delle controversie: Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia:
Dal 01/07/2023 al 30/06/2024

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
COCA-COLA CO/ THE	Beni di prima necessità	Prodotti Alimentari, Bevande e Tabacco	Stati Uniti	4.66%
CISCO SYSTEMS INC	Tecnologie dell'informazione	Hardware e Attrezzatura Tecnologica	Stati Uniti	4.61%
AMERICAN TOWER CL A	Real Estate	REIT	Stati Uniti	3.38%
US BANCORP	Finanziario	Banche	Stati Uniti	3.35%
PFIZER INC	Assistenza Sanitaria	Prodotti farmaceutici Biotech e scienze della vita	Stati Uniti	3.24%
DEERE & CO	Settore Industriale	Beni strumentali	Stati Uniti	2.93%
UNITEDHEALTH GROUP INC	Assistenza Sanitaria	Servizi e strumenti per la salute	Stati Uniti	2.62%
SHELL PLC	Energia	Petrolio, gas e combustibili di consumo	Regno Unito	2.48%
KEYSIGHT TECHNOLOGIES INC	Tecnologie dell'informazione	Hardware e Attrezzatura Tecnologica	Stati Uniti	2.33%
ELI LILLY & CO	Assistenza Sanitaria	Prodotti farmaceutici Biotech e scienze della vita	Stati Uniti	2.28%
FREEPORT-MCMORAN INC	Materiali	Metallurgia ed Estrazione	Stati Uniti	2.26%
NEXTERA ENERGY INC	Utility	Utility nel settore elettrico	Stati Uniti	2.20%
KIMBERLY-CLARK CORP	Beni di prima necessità	Prodotti per la casa e per la persona	Stati Uniti	2.09%
VOYA FINANCIAL INC	Finanziari	Servizi Finanziari	Stati Uniti	1.99%
ROCKWELL AUTOMATION INC	Settore Industriale	Beni strumentali	Stati Uniti	1.98%

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

Settore	Sottosettori	% Asset
Tecnologie dell'informazione	Software e Servizi	10.55%
Assistenza Sanitaria	Prodotti farmaceutici Biotech e scienze della vita	9.01%
Finanziari	Servizi Finanziari	8.67%
Tecnologie dell'informazione	Hardware e Attrezzatura Tecnologica	8.23%

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili

alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia

sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **31.30%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 8.11%.

Quali investimenti erano compresi nella categoria “altri”, qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● *In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?*

Questo prodotto non dispone di un Benchmark ESG.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS US
EQUITY FUNDAMENTAL GROWTH

Identificativo della persona giuridica:
54930019NOJ42Y83JC39

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **25.54%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **RUSSELL 1000 GROWTH**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **-0.359 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.386 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era -0.24 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.36 (D).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

- ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- La sottocategoria **#1B altre caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

carbonio entro la fine del 2035. Per quanto riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

☐ Si:

☐ In gas fossile ☐ In energia nucleare

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **21.84%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 3.70%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

● **In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?**

Questo prodotto non dispone di un Benchmark ESG.

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta

le caratteristiche ambientali o sociali che promuove.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS US EQUITY RESEARCH

Identificativo della persona giuridica: 5493005S070A64LD3058

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha **promosso caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **31.14%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso caratteristiche di A/S, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **S&P 500**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **-0.167 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.433 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era -0.07 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.38 (D).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il

nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Dal 01/07/2023 al 30/06/2024**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● **In quali settori economici sono stati effettuati gli investimenti?**

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

basso contenuto di carbonio entro la fine del 2035. Per quanto riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹ ?**

☐ Sì:

☐ In gas fossile ☐ In energia nucleare

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

- **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **22.58%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 8.56%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

- **In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?**

Questo prodotto non dispone di un Benchmark ESG.

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta

le caratteristiche ambientali o sociali che promuove.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
PIONEER US EQUITY RESEARCH VALUE

Identificativo della persona giuridica:
549300BN5NK5WLW1TH95

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha **promosso caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **31.42%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **RUSSELL 1000 VALUE (FRC)**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.020 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.479 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.019 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.479 (D).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro

meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la quota maggiore degli investimenti del prodotto finanziario durante il periodo di riferimento, ossia: Dal 01/07/2023 al 30/06/2024

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
COCA-COLA CO/ THE	Beni di prima necessità	Prodotti Alimentari, Bevande e Tabacco	Stati Uniti	5.13%

Qual è stata la quota di investimenti legati alla sostenibilità?

● Qual è stata l'allocazione degli asset?

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● **In quali settori economici sono stati effettuati gli investimenti?**

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹ ?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

** Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.*

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **23.90%** alla fine del periodo. Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

 sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri per le attività economiche ecosostenibili ai sensi del

Regolamento
(EU) 2020/852.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 7.52%.

Quali investimenti erano compresi nella categoria “altri”, qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento
sono indici
atti a misurare
se il prodotto
finanziario rispetta
le caratteristiche
ambientali o sociali
che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● *In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?*

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS POLEN
CAPITAL GLOBAL GROWTH

Identificativo della persona giuridica:
549300LSQ5T56F5I6810

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **56.45%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI ACWI**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità misurano in che

● **Come si sono comportati gli indicatori di sostenibilità?**

modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.197 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.171 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ... e rispetto ai periodi precedenti?

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.233 (D) e il rating ESG medio ponderato dell'indice di riferimento era -0.119 (D).

● Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti

umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Qual è stata la quota di investimenti legati alla sostenibilità?

- Qual è stata l'allocazione degli asset?

L'asset allocation
descrive la quota di
investimenti in asset
specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● In quali settori economici sono stati effettuati gli investimenti?

Settore	Sotto settori	% Asset
Tecnologie dell'informazione	Software e Servizi	32.41%
Assistenza Sanitaria	Prodotti farmaceutici Biotech e scienze della vita	13.79%
Finanziari	Servizi Finanziari	12.39%
Beni di consumo voluttuari	Beni di Consumo Voluttuario Distribuzione e Vendita al Dettaglio	9.68%
Assistenza Sanitaria	Servizi e strumenti per la salute	7.34%
Servizi di comunicazione	Media e Intrattenimento	6.56%

Informazioni aggiuntive (non certificate)

<i>Settore Industriale</i>	<i>Servizi commerciali e professionali</i>	5.38%

<i>Beni di prima necessità</i>	<i>Prodotti per la casa e per la persona</i>	2.78%
<i>Beni di consumo voluttuari</i>	<i>Servizi ai Consumatori</i>	1.93%
<i>Beni di consumo voluttuari</i>	<i>Beni di Consumo Durevoli & Abbigliamento</i>	0.94%
<i>Forex</i>	<i>Forex</i>	-0.33%
<i>Cash</i>	<i>Cash</i>	2.61%

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito all'obbligo di mitigazione dei cambiamenti climatici o agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- fatturato** che riflette la quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
- spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

1. Investimenti allineati alla tassonomia **comprese le obbligazioni sovrane***

2. Investimenti allineati alla tassonomia **escluse le obbligazioni sovrane***

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **41.34%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 15.10%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta

Questo prodotto non dispone di un Benchmark ESG.

- **In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?**

Questo prodotto non dispone di un Benchmark ESG.

le caratteristiche ambientali o sociali che promuove.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS NET
ZERO AMBITION TOP EUROPEAN PLAYERS

Identificativo della persona giuridica:
5493003EV6H1NSIIXJ13

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **75.39%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EUROPE (15)**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo.

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali allineando la sua intensità di carbonio a quella dell'indice **MSCI Europe Climate Paris Aligned Index (EUR)**, il suo indice comparativo di riferimento per la valutazione dell'intensità di carbonio.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **1.347 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.798 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

L'indicatore di sostenibilità utilizzato è l'intensità di carbonio del portafoglio che viene calcolata come media del portafoglio ponderata per gli asset e confrontata con l'intensità di carbonio ponderata per gli asset dell'indice di comparazione. Di conseguenza, i titoli con un'intensità di carbonio relativamente bassa avevano una maggiore probabilità di essere selezionati nel portafoglio rispetto ai titoli con un'intensità di carbonio relativamente alta.

- L'intensità media ponderata dell'impronta di carbonio del portafoglio è **68.05**.
- L'intensità di carbonio media ponderata dell'indice MSCI Europe Climate Paris Aligned (EUR) è pari a **77.24**

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 1.31 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.80 (C). Alla fine del periodo precedente l'intensità di carbonio media ponderata del portfolio era 92.18 e l'indice di riferimento medio ponderato dell'intensità di carbonio era 97.36¹.

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● **In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?**

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

¹ Nel corso del 2023 l'indice di riferimento è stato sostituito con l'MSCI Europe Climate Paris Aligned (EUR) e per coerenza abbiamo riportato l'intensità di carbonio di tale indice anche per il periodo precedente.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro “non arrecano un danno significativo” (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un’intensità di CO2 che non rientri nell’ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell’ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell’ambito della propria politica di esclusione, facente parte della Politica di Amundi per l’Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell’ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.

- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

L'asset allocation descrive la quota di investimenti in asset specifici.

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 1.09% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito all'obbligo di mitigazione dei cambiamenti climatici o agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1^a?**

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **fatturato** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

☐ Si:

☐ In gas fossile ☐ In energia nucleare

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.01% e la quota di investimenti in attività abilitanti era pari allo 1.33%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 11.27%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **56.37%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 17.93%.

Quali investimenti erano compresi nella categoria “altri”, qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

L'obiettivo di investimento sostenibile viene raggiunto allineando gli obiettivi di riduzione dell'impronta di carbonio del fondo all'indice MSCI Emerging Markets Climate Paris Aligned. L'intensità dell'impronta di carbonio del portafoglio viene calcolata come media del portafoglio ponderata per gli asset e confrontata con l'intensità dell'impronta di carbonio ponderata per gli asset dell'Indice.

Di conseguenza, i titoli con un'impronta ambientale relativamente bassa hanno una maggiore probabilità di essere selezionati nel portafoglio rispetto ai titoli con un'impronta ambientale relativamente alta. Inoltre, il fondo esclude le società sulla base di comportamenti e (o) prodotti controversi, in conformità alla politica di investimento responsabile.

- L'intensità media ponderata dell'impronta di carbonio del portafoglio è 68.05.
- L'intensità media ponderata dell'impronta di carbonio dell'indice MSCI Europe Climate Paris Aligned (EUR) è pari a 77.24.

● ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Un indice generale di mercato non valuta né include i suoi componenti in base alle caratteristiche ambientali e pertanto non è allineato alle caratteristiche ambientali.

L'indice utilizzato è un "Paris Aligned Benchmark" che incorpora obiettivi specifici relativi alla riduzione delle emissioni e alla transizione verso un'economia a basse emissioni di carbonio attraverso la selezione e la ponderazione dei componenti sottostanti.

● ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

- Il rating ESG medio ponderato del portafoglio è 1.347 (C).
- Il rating ESG medio ponderato dell'universo d'investimento ESG è 0.798 (C).
- L'intensità media ponderata dell'impronta di carbonio del portafoglio è 68.05.
- L'intensità media ponderata dell'impronta di carbonio dell'indice MSCI Europe Climate Paris Aligned (EUR) è pari a 77.24.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

L'obiettivo di investimento sostenibile viene raggiunto allineando gli obiettivi di riduzione dell'impronta di carbonio del fondo all'indice MSCI Emerging Markets Climate Paris Aligned. L'intensità dell'impronta di carbonio del portafoglio viene calcolata come media del portafoglio ponderata per gli asset e confrontata con l'intensità dell'impronta di carbonio ponderata per gli asset dell'Indice.

Di conseguenza, i titoli con un'impronta ambientale relativamente bassa hanno una maggiore probabilità di essere selezionati nel portafoglio rispetto ai titoli con un'impronta ambientale relativamente alta. Inoltre, il fondo esclude le società sulla base di comportamenti e (o) prodotti controversi, in conformità alla politica di investimento responsabile.

- L'intensità media ponderata dell'impronta di carbonio del portafoglio è 68.05.
- L'intensità media ponderata dell'impronta di carbonio dell'indice MSCI Europe Climate Paris Aligned (EUR) è pari a 77.2.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Un indice generale di mercato non valuta né include i suoi componenti in base alle caratteristiche ambientali e pertanto non è allineato alle caratteristiche ambientali.

L'indice utilizzato è un "Paris Aligned Benchmark" che incorpora obiettivi specifici relativi alla riduzione delle emissioni e alla transizione verso un'economia a basse emissioni di carbonio attraverso la selezione e la ponderazione dei componenti sottostanti.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS US PIONEER FUND

Identificativo della persona giuridica: 54930046EO6XR0RZBB11

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha **promosso caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **31.87%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **S&P 500**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **-0.258 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.433 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era -0.255 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.433 (D).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione

regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

- ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato

denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/2024**

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.13% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE?

☐ Sì:

☐ In gas fossile ☐ In energia nucleare

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

⁴Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.13%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

● **Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?**

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **18.96%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

● **Qual è stata la quota di investimenti socialmente sostenibili?**

La quota di investimenti socialmente sostenibili alla fine del periodo era del 12.78%.

● **Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?**

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

● **Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?**

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
ASIA EQUITY FOCUS

Identificativo della persona giuridica:
529900JOPK0BJB1JIC13

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha **promosso caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **38.77%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI AC ASIA EX JAPAN**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **-0.017 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.086 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.10 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.09 (D).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione

regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili

provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Dal 01/07/2023 al 30/06/2024**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
TAIWAN SEMICONDUCTOR MANUFAC	Tecnologie dell'informazione	Semiconduttori e apparecchiature per semiconduttori	Taiwan	9.72%

Qual è stata la quota di investimenti legati alla sostenibilità?

● Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● In quali settori economici sono stati effettuati gli investimenti?

Settore	Sottosettori	% Asset
Tecnologie dell'informazione	Semiconduttori e apparecchiature per semiconduttori	15.34%
Finanziari	Banche	14.38%

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

● **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹ ?**

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia

sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri per le attività

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **22.39%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

economiche
ecosostenibili
ai sensi del
Regolamento (EU)
2020/852.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 16.38%.

Quali investimenti erano compresi nella categoria “altri”, qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● *In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?*

Questo prodotto non dispone di un Benchmark ESG.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS CHINA A SHARES

Identificativo della persona giuridica: 213800SWM4W1H6YGZF46

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **25.56%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI CHINA A ONSHORE**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **-0.608 (E)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-1.133 (E)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era -0.86 (E) e il rating ESG medio ponderato dell'universo d'investimento ESG era -1.03 (E).

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio

ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti

negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.
#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.
La categoria **#1 Allineati con caratteristiche A/S** comprende:
- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- La sottocategoria **#1B altre caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

Settore	Sotto settori	% Asset
Settore Industriale	Beni strumentali	15.08%
Beni di prima necessità	Prodotti Alimentari, Bevande e Tabacco	11.79%
Finanziari	Banche	9.13%

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emis-

sione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

-fatturato

quota di entrate da attività verdi delle imprese beneficiarie degli investimenti

-spese in conto capitale (CapEx)

investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- spese

operative (OpEx)

attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto**

● **Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?**

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **14.20%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

dei criteri per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 11.36%.

Quali investimenti erano compresi nella categoria “altri”, qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS CHINA EQUITY

Identificativo della persona giuridica: 549300Y1J7CKLI10B145

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha **promosso caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **30.83%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI CHINA 10/40**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **-0.468 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.732 (E)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio ERA -0.41 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.58 (E).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

- ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Si, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili

provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/2024**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
TENCENT HOLDINGS LTD	Servizi di comunicazione	Media e Intrattenimento	Isole Cayman	9.82%

Qual è stata la quota di investimenti legati alla sostenibilità?

● Qual è stata l'allocazione degli asset?

L'asset allocation
descrive la quota di
investimenti in asset
specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● In quali settori economici sono stati effettuati gli investimenti?

Settore	Sottosettori	% Asset
Servizi di comunicazione	Media e Intrattenimento	17.63%

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹?**

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche eco-sostenibili ai sensi

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **9.37%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

del Regolamento
(EU) 2020/852.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 21.46%.

Quali investimenti erano compresi nella categoria “altri”, qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● *In che modo l'indice di riferimento differisce da un indice generale di mercato?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?*

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EMERGING EUROPE MIDDLE EAST AND
AFRICA

Identificativo della persona giuridica:
549300QA3E8RYX3KUC78

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **28.54%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EM EMEA**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● *Come si sono comportati gli indicatori di sostenibilità?*

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **-0.024 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.300 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● *... e rispetto ai periodi precedenti?*

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.03 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.32 (D).

● *Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?*

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.12% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- fatturato
- quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
- spese in conto capitale (CapEx)
- investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- spese operative (OpEx)
- attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.45% e la quota di investimenti in attività abilitanti era pari allo 1.29%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.0%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al 24.96% alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 3.46%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EMERGING MARKETS EQUITY FOCUS

Identificativo della persona giuridica:
529900SQFJZNLOBO8Z15

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha **promosso caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **42.48%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EM (EMERGING MARKETS)**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.103 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.099 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.08 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.10 (D).

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio

ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

- ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la quota maggiore degli investimenti del prodotto finanziario durante il periodo di riferimento, ossia: Dal 01/07/2023 al 30/06/2024

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.01%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **28.45%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 14.03%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

- **In che modo l'indice di riferimento differisce da un indice generale di mercato?**

Questo prodotto non dispone di un Benchmark ESG.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Gli **indici di riferimento** sono indici atti a misurare se il prodotto

finanziario rispetta le caratteristiche ambientali o sociali che promuove.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EMERGING MARKETS EQUITY FOCUS EX CHINA

Identificativo della persona giuridica:
213800S4PO3LJPFHD177

Si intende per investimento sostenibile un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **36.10%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EM (EMERGING MARKETS) EX CHINA**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità misurano in che

● **Come si sono comportati gli indicatori di sostenibilità?**

modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.193 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.097 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ... e rispetto ai periodi precedenti?

Questo è il primo rapporto periodico del SFDR redatto per questo comparto.

● Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

fine del 2035. Per quanto riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- fatturato** che riflette la quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
- spese in conto capitale(CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

☐ Si:

☐ In gas fossile

☐ In energia nucleare

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

⁴Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.01% e la quota di investimenti in attività abilitanti era pari allo 0.01%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Questo è il primo rapporto periodico del SFDR redatto per questo comparto.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **29.22%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 6.88%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● *In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?*

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EMERGING MARKETS EQUITY ESG
IMPROVERS

Identificativo della persona giuridica:
213800T17Z9VUK8N7648

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **47.70%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EM (EMERGING MARKETS)**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Il gestore degli investimenti ha focalizzato il processo di investimento su società/settori/paesi che hanno abbracciato, o abbracceranno, una traiettoria ESG positiva all'interno della loro attività. Il gestore degli investimenti ha individuato opportunità di investimento allineate con l'obiettivo di generare alfa, concentrandosi in particolare sull'inclusione di società/settori/paesi che saranno fortemente vincenti dal punto di vista ESG in futuro, che presentino (o presenteranno) un miglioramento positivo del profilo ESG, investendo al contempo in società/settori/paesi attualmente steward ESG.

Inoltre, il Comparto ha ottenuto un punteggio ESG del suo portafoglio superiore a quello del Benchmark. Il Comparto è stato confrontato con il punteggio ESG del suo Benchmark dopo che il 20% dei titoli con rating ESG più basso è stato escluso dal Benchmark.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● *Come si sono comportati gli indicatori di sostenibilità?*

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.356 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.099 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● *... e rispetto ai periodi precedenti?*

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.37 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.10 (D).

● *Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?*

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO₂ che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio "non arreca un danno significativo", in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di "non arreca un danno significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- Esclusione: Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- Integrazione dei fattori ESG: Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.

- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- La sottocategoria **#1B altre caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

fine del 2035. Per quanto riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

-fatturato
quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
-spese in conto capitale (CapEx)
investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- spese operative (OpEx)
attività operative verdi delle imprese beneficiarie degli investimenti.

● **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

- ☐ Sì:
- ☐ In gas fossile ☐ In energia nucleare
- ☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.09%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **36.80%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 10.90%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

● **In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?**

Questo prodotto non dispone di un Benchmark ESG.

Gli indici di riferimento sono indici atti a misurare se il prodotto

finanziario rispetta le caratteristiche ambientali o sociali che promuove.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI
FUNDS EMERGING WORLD EQUITY

Identificativo della persona giuridica:
529900FMUS31WLI1V843

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha **promosso caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **45.02%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EM (EMERGING MARKETS)**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.130 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.099 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.07 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.10 (D).

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio

ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti

negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

- ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating

ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
TAIWAN SEMICONDUCTOR MANUFAC	Tecnologie dell'informazione	Semiconduttori e apparecchiature per semiconduttori	Taiwan	9.66%

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation
descrive la quota di
investimenti in asset
specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● **In quali settori economici sono stati effettuati gli investimenti?**

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.02% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹?**

☐

Si:

☐

In gas fossile

☐

In energia nucleare

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.02%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **31.35%** alla fine del periodo.

sono investimenti sostenibili con

un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 13.65%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● ***In che modo l'indice di riferimento differisce da un indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Informazioni aggiuntive (non certificate)

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS LATIN AMERICA EQUITY

Identificativo della persona giuridica: 529900S2PKB89W9KIR25

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **39.86%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EM LATIN AMERICA**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.217 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.158 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.33 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.20 (D).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti

umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato

I principali effetti

negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- Esclusione: Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- Integrazione dei fattori ESG: Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- Engagement: il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- Voto: la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- Monitoraggio delle controversie: Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
PETROBRAS SA-ADR	Energia	Petrolio, gas e combustibili di consumo	Brasile	8.01%
GRUPO FINANCIERO BANORTE-O	Finanziari	Banche	Messico	5.11%

Qual è stata la quota di investimenti legati alla sostenibilità?

- Qual è stata l'allocazione degli asset?

L'asset allocation
descrive la quota di
investimenti in asset
specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● In quali settori economici sono stati effettuati gli investimenti?

Settore	Sottosettori	% Asset
Finanziari	Banche	19.72%
Energia	Petrolio, gas e combustibili di consumo	13.26%
Materiali	Metallurgia ed Estrazione	9.92%

<i>Cash</i>	<i>Cash</i>	0.56%

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.01% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito all'obbligo di mitigazione dei cambiamenti climatici o agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- fatturato che riflette la quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
- spese in conto capitale(CapEx) investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- spese operative (OpEx) attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.07%.

sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **34.36%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 5.49%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **49.87%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EM CLIMATE PARIS ALIGNED**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo.

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali, puntando a ridurre la propria intensità di carbonio, allineando l'intensità della propria impronta di carbonio a quella del suo Benchmark **MSCI EM CLIMATE PARIS ALIGNED**.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.324 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.044 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

L'indicatore di sostenibilità utilizzato è l'intensità dell'impronta di carbonio del portafoglio che viene calcolata come media del portafoglio ponderata per gli asset e confrontata con l'intensità dell'impronta di carbonio ponderata per gli asset del Benchmark. Di conseguenza, i titoli con un'impronta ambientale relativamente bassa avevano una maggiore probabilità di essere selezionati nel portafoglio rispetto ai titoli con un'impronta ambientale relativamente alta.

- L'intensità media ponderata dell'impronta di carbonio del portafoglio è **113.98**.
- L'intensità media ponderata dell'impronta di carbonio del Benchmark è **128.61**.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era **0.33 (D)** e il rating ESG medio ponderato dell'universo d'investimento ESG era **0.03 (D)**. Alla fine del periodo precedente l'intensità di carbonio media ponderata del portfolio era **161.02** e l'indice di riferimento medio ponderato dell'intensità di carbonio era **226.69**.

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e

- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio "non arreca un danno significativo", in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di "non arreca un danno significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- Esclusione: Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- Integrazione dei fattori ESG: Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.

- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
TAIWAN SEMICONDUCTOR-SP ADR	Tecnologie dell'informazione	Semiconduttori e apparecchiature per semiconduttori	Taiwan	9.60%

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

Settore	Sotto settori	% Asset

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.01% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito all'obbligo di mitigazione dei cambiamenti climatici o agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di: **-fatturato** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti **-spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde. **- spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.01%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.09%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **36.67%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

sono

investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del

Regolamento (EU) 2020/852.

La quota di investimenti socialmente sostenibili alla fine del periodo era del 13.19%.

Quali investimenti erano compresi nella categoria “altri”, qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

L'obiettivo di investimento sostenibile viene raggiunto allineando gli obiettivi di riduzione dell'impronta di carbonio del fondo all'indice MSCI Emerging Markets Climate Paris Aligned. L'intensità dell'impronta di carbonio del portafoglio viene calcolata come media del portafoglio ponderata per gli asset e confrontata con l'intensità dell'impronta di carbonio ponderata per gli asset dell'Indice.

Di conseguenza, i titoli con un'impronta ambientale relativamente bassa hanno una maggiore probabilità di essere selezionati nel portafoglio rispetto ai titoli con un'impronta ambientale relativamente alta. Inoltre, il fondo esclude le società sulla base di comportamenti e (o) prodotti controversi, in conformità alla politica di investimento responsabile.

- L'intensità media ponderata dell'impronta di carbonio del portafoglio è **113.98**
- L'intensità media ponderata dell'impronta di carbonio del Benchmark è **128.61**

● *In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?*

Un indice generale di mercato non valuta né include i suoi componenti in base alle caratteristiche ambientali e pertanto non è allineato alle caratteristiche ambientali. L'indice utilizzato è un “Paris Aligned Benchmark” che incorpora obiettivi specifici relativi alla riduzione delle emissioni e alla transizione verso un'economia a basse emissioni di carbonio attraverso la selezione e la ponderazione dei componenti sottostanti.

● ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

- Il rating ESG medio ponderato del portafoglio è **0.324 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.044 (D)**.

- L'intensità media ponderata dell'impronta di carbonio del portafoglio è **113.98**
- L'intensità media ponderata dell'impronta di carbonio del Benchmark è **128.61**

● ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

L'obiettivo di investimento sostenibile viene raggiunto allineando gli obiettivi di riduzione dell'impronta di carbonio del fondo all'indice MSCI Emerging Markets Climate Paris Aligned. L'intensità dell'impronta di carbonio del portafoglio viene calcolata come media del portafoglio ponderata per gli asset e confrontata con l'intensità dell'impronta di carbonio ponderata per gli asset dell'Indice.

Di conseguenza, i titoli con un'impronta ambientale relativamente bassa hanno una maggiore probabilità di essere selezionati nel portafoglio rispetto ai titoli con un'impronta ambientale relativamente alta. Inoltre, il fondo esclude le società sulla base di comportamenti e (o) prodotti controversi, in conformità alla politica di investimento responsabile.

- L'intensità media ponderata dell'impronta di carbonio del portafoglio è **113.98**
- L'intensità media ponderata dell'impronta di carbonio del Benchmark è **128.61**

● ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Un indice generale di mercato non valuta né include i suoi componenti in base alle caratteristiche ambientali e pertanto non è allineato alle caratteristiche ambientali.

L'indice utilizzato è un "Paris Aligned Benchmark" che incorpora obiettivi specifici relativi alla riduzione delle emissioni e alla transizione verso un'economia a basse emissioni di carbonio attraverso la selezione e la ponderazione dei componenti sottostanti.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS NEW
SILK ROAD

Identificativo della persona giuridica:
549300ZD1W6MTTH0G211

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato degli investimenti sostenibili con un obiettivo ambientale: _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato degli investimenti sostenibili con un obiettivo sociale: _____

Ha promosso caratteristiche ambientali/sociali (A/S) e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del 32.53% di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, ma non ha effettuato alcun investimento sostenibile

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **80% MSCI EM (EMERGING MARKETS) + 20% MSCI FRONTIER MARKETS**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● *Come si sono comportati gli indicatori di sostenibilità?*

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.040 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.130 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● *... e rispetto ai periodi precedenti?*

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era -0.08 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.14 (D).

● *Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?*

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti

umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?***

Descrizione particolareggiata: Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
TAIWAN SEMICONDUCTOR MANUFAC	Informazioni Tecnologia	Semiconduttori e Semiconduttori Attrezzature	Taiwan	9.42%

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.
#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.
La categoria **#1 Allineati con caratteristiche A/S** comprende:
- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- La sottocategoria **#1B altre caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.01% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

-fatturato
quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
-spese in conto capitale (CapEx)
investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- spese operative (OpEx)
attività operative verdi delle imprese beneficiarie degli investimenti.

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.02%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **21.47%** alla fine del periodo.

sono investimenti sostenibili con un obiettivo ambientale

che non tengono conto dei criteri per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 11.05%.

Quali investimenti erano compresi nella categoria “altri”, qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
RUSSIAN EQUITY

Identificativo della persona giuridica:
549300SIBXZF8M2U7K58

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **8.50%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI RUSSIA 10/40**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo.

Gli indicatori di sostenibilità misurano in che

Come si sono comportati gli indicatori di sostenibilità?

modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **-0.511 (E)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-1.862 (F)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ... e rispetto ai periodi precedenti?

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio ERA -0.78 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -1.25 (E).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco

d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti

negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell'approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la quota maggiore degli

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
HALYK SAVINGS BK GDR	Finanziari	Banche	Kazakistan	8.50%

investimenti del prodotto finanziario durante il periodo di riferimento, ossia: Da 01/07/2023 a 30/06/24

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

Settore	Sotto settori	% Asset
Finanziari	Banche	8.50%
Cash	Cash	91.50%

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **fatturato** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE ¹?**

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

- **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di

investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **0.00%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 8.50%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

● **In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?**

Questo prodotto non dispone di un Benchmark ESG.

Gli indici di riferimento sono indici atti a misurare se il prodotto

finanziario rispetta le caratteristiche ambientali o sociali che promuove.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS SBI FM
INDIA EQUITY

Identificativo della persona giuridica:
529900VCX77NSWARZC34

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **32.14%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento MSCI India 10/40. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è -0.117 (D).
- Il rating ESG medio ponderato dell'universo d'investimento ESG è -0.380 (D).

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era -0.05 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.26 (D).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti

sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti

negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
RELIANCE INDUSTRIES LTD	Energia	Petrolio, gas e combustibili di consumo	India	7.88%
HDFC BANK LIMITED	Finanziari	Banche	India	7.54%
ICICI BANK LTD	Finanziario	Banche	India	6.93%
INFOSYS LTD	Tecnologie dell'informazione	Software e Servizi	India	6.62%
LARSEN & TOUBRO LTD	Settore Industriale	Beni strumentali	India	5.80%

Qual è stata la quota di investimenti legati alla sostenibilità?

● Qual è stata l'allocazione degli asset?

L'asset allocation
descrive la quota di
investimenti in asset
specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● **In quali settori economici sono stati effettuati gli investimenti?**

Settore	Sotto settori	% Asset
Finanziari	Banche	24.49%
Settore Industriale	Beni strumentali	15.05%
Beni di consumo voluttuari	Industria automobilistica e componenti	11.87%
Tecnologie dell'informazione	Software e Servizi	8.35%
Energia	Petrolio, gas e combustibili di consumo	7.88%

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.00% in investimenti sostenibili allineati alla tassonomia dell'UE.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

☐

Si:

☐

In gas fossile

☐

In energia nucleare

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono

norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- fatturato** che riflette la quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
- spese in conto capitale(CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.00%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.00%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **14.50%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 17.64%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?

Questo prodotto non dispone di un Benchmark ESG.

● Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS EURO-LAND EQUITY DYNAMIC MULTI FACTORS

Identificativo della persona giuridica: 549300GS11SOXBNLON64

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **74.53%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EMU Index**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **1.109 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **1.03 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente

per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;

- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente:

- Il rating ESG medio ponderato del portafoglio era **1.14 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG era **1.03 (C)**.

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti

sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

- ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

I principali effetti

negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

Si, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Dal 01/07/2023 al 30/06/2024**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Qual è stata la quota di investimenti legati alla sostenibilità?

● Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● *In quali settori economici sono stati effettuati gli investimenti?*

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 2.05% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

● **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

- ☐ Sì:
- ☐ In gas fossile ☐ In energia nucleare
- ☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.08% e la quota di investimenti in attività abilitanti era pari allo 2.25%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 7.09%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **60.79%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 11.69%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● *In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?*

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EUROLAND EQUITY RISK PARITY

Identificativo della persona giuridica:
222100TM3VJBCM4GPK90

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **65.84%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI EMU Index**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **1.057 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **1.03 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 1.12 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 1.03 (C).

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

- ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato a tutti i settori oltre

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio "non arreca un danno significativo", in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di "non arreca un danno significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- Esclusione: Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- Engagement: il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- Voto: la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- Monitoraggio delle controversie: Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la quota maggiore degli investimenti del prodotto finanziario durante il periodo di riferimento, ossia: Dal 01/07/2023 al 30/06/2024

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
TOTALENERGIES SE PARIS	Energia	Petrolio, gas e combustibili di consumo	Francia	2.02%
REPSOL SA	Energia	Petrolio, gas e combustibili di consumo	Spagna	1.67%
GALP ENERGIA -B	Energia	Petrolio, gas e combustibili di consumo	Portogallo	1.58%
OMV AG	Energia	Petrolio, gas e combustibili di consumo	Austria	1.47%
DEUTSCHE TELEKOM NAM (XETRA)	Servizi di comunicazione	Telecomunicazioni	Germania	1.41%
ENI SPA MILAN	Energia	Petrolio, gas e combustibili di consumo	Italia	1.37%
KONINKLIJKE KPN NV	Servizi di comunicazione	Telecomunicazioni	Paesi Bassi	1.34%
SAP SE / XETRA	Tecnologie dell'informazione	Software e Servizi	Germania	1.25%
ELISA OYJ	Servizi di comunicazione	Telecomunicazioni	Finlandia	1.16%
ORANGE	Servizi di comunicazione	Telecomunicazioni	Francia	1.10%
DANONE	Beni di prima necessità	Prodotti Alimentari, Bevande e Tabacco	Francia	1.07%
NESTE OYJ	Energia	Petrolio, gas e combustibili di consumo	Finlandia	1.06%
PUBLICIS GROUPE SA	Servizi di comunicazione	Media e Intrattenimento	Francia	1.04%
HENKEL AG & CO KGAA	Beni di prima necessità	Prodotti per la casa e per la persona	Germania	1.00%
VIVENDI SE	Servizi di comunicazione	Media e Intrattenimento	Francia	0.99%

Qual è stata la quota di investimenti legati alla sostenibilità?

- Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● In quali settori economici sono stati effettuati gli investimenti?

Settore	Sottosettori	% Asset
Energia	Petrolio, gas e combustibili di consumo	9.17%
Beni di prima necessità	Prodotti Alimentari, Bevande e Tabacco	8.18%
Servizi di comunicazione	Telecomunicazioni	7.91%

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 3.87% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

● **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹?**

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.25% e la quota di investimenti in attività abilitanti era pari al 3.99%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- ***In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?***

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 9.34%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **47.62%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 14.34%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EUROPEAN EQUITY CONSERVATIVE

Identificativo della persona giuridica:
529900CA12DQSLAWW128

Si intende per investimento sostenibile un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **66.92%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI Europe Index**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è 1.054 (C).
- Il rating ESG medio ponderato dell'universo d'investimento ESG è 0.798 (C).

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.96 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.80 (C).

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti

sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

- ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la quota maggiore degli investimenti del prodotto finanziario durante il periodo di riferimento, ossia: Dal 01/07/2023 al 30/06/2024

Maggiore Investimenti	Settore	Sottosettori	Paese	% Asset
NOVARTIS AG-REG	Assistenza Sanitaria	Prodotti farmaceutici Biotech e scienze della vita	Svizzera	2.78%
ROCHE HLDG AG-GENUSS	Assistenza Sanitaria	Prodotti farmaceutici Biotech e scienze della vita	Svizzera	2.77%
WOLTERS KLUWER	Settore Industriale	Servizi commerciali e professionali	Paesi Bassi	2.60%
UNILEVER PLC (GBP)	Beni di prima necessità	Prodotti per la casa e per la persona	Regno Unito	2.36%
KONINKLIJKE KPN NV	Servizi di comunicazione	Telecomunicazioni	Paesi Bassi	2.26%

HENKEL AG & CO KGAA VOR-PFD	Beni di prima necessità	Prodotti per la casa e per la persona	Germania	2.01%
SAP SE / XETRA	Tecnologie dell'informazione	Software e Servizi	Germania	1.99%
RELX PLC	Settore Industriale	Servizi commerciali e professionali	Regno Unito	1.85%
BEIERSDORF AG	Beni di prima necessità	Prodotti per la casa e per la persona	Germania	1.78%

Qual è stata la quota di investimenti legati alla sostenibilità?

- Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● In quali settori economici sono stati effettuati gli investimenti?

Settore	Sottosettori	% Asset
Assistenza Sanitaria	Prodotti farmaceutici Biotech e scienze della vita	18.71%
Servizi di comunicazione	Telecomunicazioni	8.39%
Beni di prima necessità	Prodotti Alimentari, Bevande e Tabacco	7.83%
Beni di prima necessità	Prodotti per la casa e per la persona	7.39%

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 3.03% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al

ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.08% e la quota di investimenti in attività abilitanti era pari al 3.01%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 4.42%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **48.86%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 15.03%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

● *In che modo l'indice di riferimento differisce da un indice generale di mercato?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?*

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EUROPEAN EQUITY DYNAMIC MULTI FACTORS

Identificativo della persona giuridica:
5493008YF0WLJMAHCR51

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **66.51%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI Europe Index**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.91 (C)**.

- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.798 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente:

- Il rating ESG medio ponderato del portafoglio era **1.04 (C)**.

- Il rating ESG medio ponderato dell'universo d'investimento ESG era **0.80 (C)**.

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio

ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi

sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati alle linee guida OCSE destinate alle imprese multinazionali e ai Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:*** Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Dal 01/07/2022 al 30/06/2023**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
NOVO NORDISK A/S-B	Assistenza Sanitaria	Prodotti farmaceutici Biotech e scienze della vita	Danimarca	4.48%
ASML HOLDING NV	Tecnologie dell'informazione	Semiconduttori e apparecchiature per semiconduttori	Paesi Bassi	3.11%
SAP SE / XETRA	Tecnologie dell'informazione	Software e Servizi	Germania	2.52%
SHELL PLC	Energia	Petrolio, gas e combustibili di consumo	Regno Unito	2.48%

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

Settore	Sottosettori	% Asset
Assistenza Sanitaria	Prodotti farmaceutici Biotech e scienze della vita	15.01%
Settore Industriale	Beni strumentali	12.03%
Finanziari	Banche	7.80%
Finanziari	Assicurazioni	6.33%

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 1.08% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme

complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

● **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹ ?**

- ☐ Sì:
- ☐ In gas fossile ☐ In energia nucleare
- ☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.06% e la quota di investimenti in attività abilitanti era pari al 1.32%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 4.70%.

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **50.99%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 14.43%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

● *In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?*

Questo prodotto non dispone di un Benchmark ESG.

● *Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?*

Questo prodotto non dispone di un Benchmark ESG.

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EUROPEAN EQUITY RISK PARITY

Identificativo della persona giuridica:
549300LGU40UNY8NUK95

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **62.8%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso caratteristiche di A/S, ma **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI Europe Index**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● *Come si sono comportati gli indicatori di sostenibilità?*

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.969 (C)**.

- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.792 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● *... e rispetto ai periodi precedenti?*

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio **1.10 (C)** e il rating ESG medio ponderato dell'universo d'investimento ESG era **0.80 (C)**.

● *Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?*

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato "Coinvolgimento della Comunità e Diritti Umani" che viene applicato a

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio "non arreca un danno significativo", in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di "non arreca un danno significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
ENI SPA MILAN	Energia	Petrolio, gas e combustibili di consumo	ITALIA	1.06%
TOTALENERGIES SE PARIS	Energia	Petrolio, gas e combustibili di consumo	FRANCIA	1.05%

Qual è stata la quota di investimenti legati alla sostenibilità?

Questo comparto è stato liquidato il 7 giugno 2024 e la presente relazione si basa sulla composizione del portafoglio del comparto alla data precedente l'inizio del processo di liquidazione, il 23 maggio 2024.

● **Qual è stata l'allocazione degli asset?**

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● *In quali settori economici sono stati effettuati gli investimenti?*

Settore	Sotto settori	% Asset
Energia	Petrolio, gas e combustibili di consumo	8.52%
Beni di prima necessità	Prodotti Alimentari, Bevande e Tabacco	8.39%
Servizi di comunicazione	Servizi di Telecomunicazione	7.79%

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **fatturato** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 3.15% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito all'obbligo di mitigazione dei cambiamenti climatici o agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1?

☐ Sì:

☐ In gas fossile ☐ In energia nucleare

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.21% e la quota di investimenti in attività abilitanti era pari allo 2.96%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 7.81%.

sono

investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **47.38%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 12.28%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Modello di informativa periodica per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
GLOBAL EQUITY CONSERVATIVE

Identificativo della persona giuridica:
529900QOYD9Y5ZBAUZ70

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **39.53%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso **caratteristiche di A/S**, ma **non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI World Index**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **0.021 (D)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.179 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.23 (D) e il rating ESG medio ponderato dell'universo d'investimento ESG era -0.12 (D).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti

sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti

negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre agli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati.

Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- Esclusione: Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- Integrazione dei fattori ESG: Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- Engagement: il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- Voto: la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- Monitoraggio delle controversie: Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.87% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Per conformarsi alla tassonomia dell'UE, i criteri per il gas fossile includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per quanto riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emis-

sione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

-**turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.

-**spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari allo 0.75%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.28%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **28.66%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 10.00%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
GLOBAL EQUITY DYNAMIC MULTI FACTORS

Identificativo della persona giuridica:
549300YXILW3O14Y0587

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **36.24%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **MSCI World (dividend reinvested) Index**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● *Come si sono comportati gli indicatori di sostenibilità?*

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **-0.079 (D)**.

- Il rating ESG medio ponderato dell'universo d'investimento ESG è **-0.179 (D)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● *... e rispetto ai periodi precedenti?*

Alla fine del periodo precedente:

- Il rating ESG medio ponderato del portafoglio era **0.21 (D)**.

- Il rating ESG medio ponderato dell'universo d'investimento ESG era **-0.12 (D)**.

● *Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?*

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della

sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati alle linee guida OCSE destinate alle imprese multinazionali e ai Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell'andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull'Informativa (Disclosure).
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L'obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell'emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell'emittente per migliorare l'impatto delle attività di quest'ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l'economia globale.
- **Voto:** la politica di voto di Amundi risponde a un'analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal

riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la quota maggiore degli investimenti del prodotto finanziario durante il periodo di riferimento, ossia: Dal 01/07/2023 al 30/06/2024

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset
NVIDIA CORP	Tecnologie dell'informazione	Semiconduttori e apparecchiature per semiconduttori	Stati Uniti	5.86%

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

Settore	Sottosettori	% Asset
Tecnologie dell'informazione	Semiconduttori e apparecchiature per semiconduttori	10.41%
Servizi di comunicazione	Media e Intrattenimento	8.70%

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto**

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.17% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹?**

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

- **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.00% e la quota di investimenti in attività abilitanti era pari al 0.25%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

- **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 0.51%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **22.57%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 13.50%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

"#2 Altri" include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Questo prodotto non dispone di un Benchmark ESG.

- **In che modo l'indice di riferimento differisce da un indice generale di mercato?**

Questo prodotto non dispone di un Benchmark ESG.

- **Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?**

sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?***

Questo prodotto non dispone di un Benchmark ESG.

● ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS
EUROPEAN CONVERTIBLE BOND

Identificativo della persona giuridica:
529900644PSS3LALW918

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **67.52%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **REFINITIV EUROPEAN CONVERTIBLE HEDGED**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **1.037 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.675 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.94 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.71 (C).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere

un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti

negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

- ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati alle linee guida OCSE destinate alle imprese multinazionali e ai Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato

“Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- Esclusione: Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- Integrazione dei fattori ESG: Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- Engagement: il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- Voto: la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- Monitoraggio delle controversie: Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la quota maggiore degli investimenti del prodotto finanziario durante il periodo di riferimento, ossia: Dal 01/07/2023 al 30/06/2024

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Qual è stata la quota di investimenti legati alla sostenibilità?

Qual è stata l'allocazione degli asset?

L'asset allocation
descrive la quota di
investimenti in asset
specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- la sottocategoria **#1A Sostenibili** che contempla gli investimenti sostenibili con obiettivi ambientali o sociali;
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● **In quali settori economici sono stati effettuati gli investimenti?**

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano,

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 3.00% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al

tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia

sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.

- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.01% e la quota di investimenti in attività abilitanti era pari al 2.56%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 4.23%.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **44.43%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 20.09%.

sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri per le attività economiche ecosostenibili ai sensi del

Regolamento (EU)
2020/852.

Quali investimenti erano compresi nella categoria “altri”, qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Obiettivo di investimento sostenibile

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La **Tassonomia dell'UE** è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di attività economiche ecosostenibili.

Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

X

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S) e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del 34.1% di investimenti sostenibili:**

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

Una Società viene identificata come sostenibile dal gestore patrimoniale, applicando la metodologia descritta nella Politica ESG disponibile sul sito [montpensier.com](https://www.montpensier.com).

In che misura è stato raggiunto l'obiettivo di investimento sostenibile di questo prodotto finanziario?

Il fondo integra i fattori di sostenibilità nel proprio processo d'investimento, come indicato più dettagliatamente di seguito e nel capitolo "Strategia d'investimento" del Prospetto informativo.

I criteri ESG sono presi in considerazione dal fondo al fine di unificare la performance finanziaria e il desiderio di influenzare positivamente, quando possibile, l'emittente in termini di performance ESG, incoraggiando le società a migliorare l'integrazione dei criteri ESG nelle proprie attività e valorizzando le migliori pratiche.

La società di gestione ha applicato la politica descritta nel documento precontrattuale per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo paragrafo, del regolamento (UE) 2020/852.

Il 34.65% del portafoglio investito, esclusa la liquidità e i mezzi equivalenti e qualsiasi organismo di investimento collettivo (ovvero il 34.09% del patrimonio netto del fondo), è costituito da investimenti sostenibili.

L'intensità media ponderata di carbonio e l'impronta di carbonio del portafoglio sono significativamente inferiori al proprio indice.

Le proporzioni sono simili quando si aggiunge lo Scope 3: l'intensità e l'impronta di carbonio del portafoglio sono inferiori a quelle dell'indice.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● Come si sono comportati gli indicatori di sostenibilità?

1.1. Prestazioni ambientali

Ambiti 1 e 2	28/06/24	30/06/23

Fonte Montpensier Finance / MSCI

Rispetto del Global Compact: Peso delle società in portafoglio identificate come conformi ai principi del Global Compact delle Nazioni Unite.

● ... e rispetto ai periodi precedenti?

Vedi sopra.

● Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario ha in parte realizzato e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?

La metodologia di Montpensier Finance per identificare gli investimenti sostenibili si basa sulle seguenti componenti:

- La valutazione del contributo a un obiettivo di sostenibilità, che si basa su un approccio di best effort, con l'obiettivo di selezionare i "best performer" (o di eliminare i "worst performer") sulla base di criteri A e/o S, nonché su un approccio basato sugli Obiettivi di Sviluppo Sostenibile (SDG) e su un'esposizione delle attività sostenibili, determinate attraverso una definizione interna di "attività definite come sostenibili";

- Valutare la conformità ai principi di buona governance, sulla base della nostra analisi dell'allineamento degli interessi tra management, azionisti e stakeholder in generale;

- La valutazione del principio "non arrecare un danno significativo" (DNSH) che si basa su esclusioni settoriali, sui Principali Effetti Negativi (PAI) e sul monitoraggio delle controversie anche in termini di governance.

Per ulteriori dettagli, si rimanda al Prospetto informativo e al Documento precontrattuale SFDR allegato al prospetto dell'OICR, disponibili sul sito web della società di gestione.

● In che modo gli investimenti sostenibili non hanno arrecato danni significativi ad alcun obiettivo di investimento sostenibile?

In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità

La valutazione del principio "non arrecare un danno significativo" (DNSH) si basa su esclusioni, Principali Effetti Negativi (PAI) e sul monitoraggio delle controversie. Inoltre, le società con un impatto ambientale o sociale MIA negativo, o pilastri A e S, sono considerate in deroga al principio DNSH.

Per ulteriori dettagli, si rimanda al Prospetto informativo e al Documento precontrattuale SFDR allegato al prospetto dell'OICR, disponibili sul sito web della società di gestione.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:

Escludiamo dal nostro universo d'investimento le società che non sono allineate con alcune norme e convenzioni internazionali, in particolare il Global Compact delle Nazioni Unite (UNGC), l'Organizzazione Internazionale del Lavoro (OIL) e i Principi Guida delle Nazioni Unite su Imprese e Diritti Umani (UNGPBHR).

Le società che sono oggetto di una controversia "Rossa" sono escluse dall'universo d'investimento. Tra queste controversie "Rosse" si annoverano le aziende che non sono in linea con il Global Compact delle Nazioni Unite (Diritti Umani, Diritti del Lavoro, Ambiente e Corruzione).

La Tassonomia dell'UE stabilisce il principio "non arreca un danno significativo", in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di "non arreca un danno significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Teniamo conto dei principali indicatori di impatto negativo nella politica di esclusioni settoriali e normative, l'analisi delle buone pratiche di governance (utilizzando la Montpensier Governance Flag - MGF), l'analisi qualitativa esclusiva del contributo delle aziende alle transizioni ambientali e solidali (Montpensier Impact Assessment - MIA, Montpensier Industry Contributor - MIC), e/o nell'analisi delle eco-attività che determina il contributo a uno o più Obiettivi di Sviluppo Sostenibile (SDGs) delle Nazioni Unite.

La rilevanza e la copertura di questi indicatori nell'analisi variano a seconda del settore, dell'industria e della regione in cui opera ogni azienda.

Le informazioni sugli obiettivi ambientali, sociali e di governance (ESG) sono disponibili sul sito web della società di gestione:

<https://www.montpensier.com/sites/default/files/public/documents/politique-esg.pdf>

Il principio di "non arreca un danno significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'Unione europea per le attività economiche sostenibili dal punto di vista ambientale.

Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri dell'Unione europea per le attività economiche sostenibili dal punto di vista ambientale.

Quali sono stati i principali investimenti di questo prodotto finanziario?

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035.

Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

- **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE 1¹?**

☐ Sì:

☐ In gas fossile ☐ In energia nucleare

☒ No

I dati relativi al coinvolgimento delle aziende nelle attività legate al gas fossile e/o all'energia nucleare, in linea con la tassonomia, sono determinati prendendo in considerazione solo i dati pubblicati dalle aziende.

Non sono ancora disponibili dati sul coinvolgimento delle aziende in attività di gas fossile e/o energia nucleare conformi alla tassonomia.

A titolo informativo, i titoli identificati come coinvolti nell'energia fossile e/o nucleare rappresentano il 3.40% del portafoglio, vale a dire il 5.80% del portafoglio per i titoli che derivano parte delle loro vendite dall'energia nucleare e il 2.37% per i titoli coinvolti nell'energia fossile.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **fatturato** riflette la "ecocompatibilità" delle società partecipate oggi.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, rilevanti per la transizione verso un'economia verde.
- **spese operative (OpEx)** attività operative verdi delle imprese beneficiarie degli investimenti.

Le attività abilitanti consentono direttamente ad altre

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

*** Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane. Il fatturato è stimato da MSCI ESG Research in base alla metodologia descritta di seguito. I dati CapEx e Opex tengono conto solo dei dati pubblicati dalle aziende.**

Allineamento della tassonomia europea

L'allineamento della tassonomia europea è stimato da MSCI ESG Research in base alla percentuale massima del fatturato di una società derivante da prodotti e servizi che perseguono obiettivi ambientali, sulla base del quadro MSCI Sustainable Impact Metrics.

La percentuale di vendite generate da prodotti e servizi che soddisfano gli obiettivi ambientali è ridotta a 0 per le aziende che non soddisfano i criteri "Non arrecare un danno significativo" e "Garanzie minime di salvaguardia sociale" della tassonomia europea.

Lo stesso vale per le aziende i cui ricavi derivano dalla fornitura, distribuzione o vendita al dettaglio di prodotti del tabacco in misura pari o superiore al 5% e le aziende coinvolte in armi controverse.

attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

 sono investimenti sostenibili con un obiettivo ambientale **che non tengono conto dei criteri** per le attività economiche ecosostenibili ai sensi del Regolamento (UE) 2020/852.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Il Comparto non prevede una quota minima di investimenti in attività transitorie o abilitanti.

● **In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?**

Allineamento alla tassonomia europea	% AUM	% AUM
Amundi Funds Montpensier Global Conve	8.4%	9.5%

La percentuale sopra indicata rappresenta il contributo del portafoglio all'allineamento alla tassonomia europea (in base al fatturato) di tutti gli investimenti sostenibili, che abbiano un obiettivo ambientale o sociale.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

Alla data della presente relazione, il 6.3% del patrimonio netto era investito in investimenti sostenibili con un obiettivo ambientale, mentre il 0.8% non era allineato alla tassonomia UE.

Qual è stata la quota di investimenti socialmente sostenibili?

Alla data della presente relazione, il 27.8% del patrimonio netto era investito in investimenti sostenibili con finalità sociali.

Quali investimenti erano compresi nella categoria "non sostenibile", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

La liquidità, i mezzi equivalenti ed eventuali fondi o derivati di copertura rappresentano il 1.6% del patrimonio netto del fondo e non offrono garanzie ambientali o sociali minime.

Che azioni sono state intraprese per raggiungere l'obiettivo di investimento sostenibile durante il periodo di riferimento?

La società di gestione ha applicato la politica descritta nel documento informativo precontrattuale per i prodotti finanziari di cui all'articolo 8, paragrafi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo paragrafo, del regolamento (UE) 2020/852.

La politica di coinvolgimento degli azionisti di Montpensier Finance consiste in una politica di voto e in una politica di coinvolgimento.

L'esercizio dei diritti di voto è un elemento importante del dialogo con gli emittenti. Incoraggia le migliori pratiche di governance e promuove l'etica professionale.

Montpensier Finance ritiene che l'esercizio dei diritti di voto sia parte integrante del processo di gestione degli investimenti e debba essere effettuato nel migliore interesse dei propri clienti. La politica dei diritti di voto di Montpensier Finance mira a promuovere la valutazione a lungo termine degli investimenti dei suoi fondi.

Per esercitare i diritti di voto connessi ai titoli detenuti dal fondo, i gestori fanno riferimento ai principi relativi alle raccomandazioni di corporate governance pubblicati da ISS Governance, nella sua Politica di sostenibilità. L'ISS copre tutte le società presenti nei portafogli dei fondi gestiti da Montpensier Finance.

Le norme di conformità richiedono che i gestori di portafoglio svolgano le loro funzioni in modo indipendente, in particolare per quanto riguarda gli emittenti, e nell'interesse esclusivo delle quote

/ degli azionisti. I gestori di portafoglio prestano particolare attenzione alle delibere che possono pregiudicare gli interessi delle quote / degli azionisti.

La politica di voto completa e l'ultima relazione sull'esercizio dei diritti di voto sono disponibili sul nostro sito web.

Montpensier Finance integra la sua politica di voto con una politica di impegno.

I team di gestione dei fondi sono incoraggiati a sollevare qualsiasi preoccupazione con le società durante le riunioni, in particolare quando le questioni ESG sembrano non essere sufficientemente prese in considerazione, al fine di incoraggiare queste società a migliorare le loro pratiche in materia ambientale, sociale e di governance aziendale, tutti fattori di crescita sostenibile.

I gestori del fondo, coadiuvati dagli analisti ISR, instaureranno un rapporto positivo e costruttivo a medio-lungo termine con le società in portafoglio.

Questa relazione è poliedrica:

- ✓ Contatti aziendali;
- ✓ Comunicare alla società le intenzioni di voto dei gestori dei fondi prima dell'Assemblea generale.

Oltre alle iniziative di coinvolgimento diretto che di solito conduce direttamente con le Piccole e Medie Imprese, Montpensier Finance partecipa anche ad azioni di coinvolgimento collettivo implementate da ISS come parte del suo programma ISS ESG, in particolare per le società più grandi.

Questo dialogo è condotto con l'obiettivo di:

- ✓ Incoraggiare le aziende a definire un impegno ESG;
- ✓ Incoraggiare le aziende a comunicare le loro pratiche ESG.

La politica di coinvolgimento completa e l'ultima relazione sul coinvolgimento sono disponibili sul nostro sito web.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento

sono indici atti a misurare se il prodotto finanziario raggiunge l'obiettivo sostenibile.

Il fondo non utilizza un benchmark sostenibile. La sua performance di sostenibilità viene confrontata con il suo benchmark: Stoxx Global 1800

- ***In che modo l'indice di riferimento differisce da un indice generale di mercato pertinente?***

N/A

- ***Come si è comportato questo prodotto finanziario rispetto agli indicatori di sostenibilità per determinare l'allineamento dell'indice di riferimento alle caratteristiche ambientali o sociali che promuove?***

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Per gli indicatori di performance del fondo e il suo benchmark rispetto agli indicatori di sostenibilità, si veda sopra.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2 bis, del regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI
FUNDS EURO AGGREGATE BOND

Identificativo della persona giuridica:
529900DJK6EP37QSNF19

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **43.46%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **85% BLOOMBERG EURO AGGREGATE (E) + 10% ICE BOFA GLOBAL HIGH YIELD INDEX + 5% JP MORGAN EMBI GLOBAL**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori

di sostenibilità

misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● **Come si sono comportati gli indicatori di sostenibilità?**

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **1.036 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.930 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● **... e rispetto ai periodi precedenti?**

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 1.15 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.93 (C).

● **Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?**

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu

Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti

negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

- ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco. Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati alle linee guida OCSE destinate alle imprese multinazionali e ai Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il nostro meccanismo

esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- Esclusione: Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- Integrazione dei fattori ESG: Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- Engagement: il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- Voto: la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- Monitoraggio delle controversie: Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la quota maggiore degli investimenti del prodotto finanziario durante il periodo di riferimento, ossia: **Dal 01/07/2023 al 30/06/2024**

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emissioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per **quanto riguarda l'energia nucleare**, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie.

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di riferimento ha investito lo 0.43% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle società partecipate ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE¹ ?

☐

Si:

☐

In gas fossile

☐

In energia nucleare

☒

No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

- **turnover** quota di entrate da attività verdi delle imprese beneficiarie degli investimenti.
- **spese in conto capitale (CapEx)** investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.
- **spese operative (OpEx)** che riflettono attività operative verdi delle imprese beneficiarie degli investimenti.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.03% e la quota di investimenti in attività abilitanti era pari al 0.30%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?

Alla fine del periodo precedente, la percentuale di investimenti con allineamento alla tassonomia era del 10.79%.

sono investimenti sostenibili con un obiettivo ambientale che non tengono conto dei criteri per le attività economiche ecosostenibili ai sensi del Regolamento (EU) 2020/852.

Qual è stata la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con obiettivi ambientali non allineati alla tassonomia era pari al **37.93%** alla fine del periodo.

Ciò è dovuto al fatto che alcuni emittenti sono considerati investimenti sostenibili ai sensi del regolamento SFDR, ma svolgono una parte delle attività che non sono in linea con gli standard di tassonomia dell'UE o per i quali non sono ancora disponibili i dati per effettuare una valutazione della tassonomia dell'UE.

Qual è stata la quota di investimenti socialmente sostenibili?

La quota di investimenti socialmente sostenibili alla fine del periodo era del 5.09%.

Quali investimenti erano compresi nella categoria "altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

“#2 Altri” include la liquidità e altri strumenti detenuti per la gestione del rischio di liquidità e di portafoglio. Per le obbligazioni e le azioni prive di rating, sono in atto salvaguardie ambientali e sociali minime attraverso uno screening controverso rispetto ai Principi del Global Compact delle Nazioni Unite. Inoltre, possono esservi inclusi titoli privi di rating ESG per cui non sono disponibili i dati necessari a misurare il conseguimento di caratteristiche ambientali o sociali.

Che azioni sono state intraprese per soddisfare le caratteristiche ambientali e/o sociali nel periodo di riferimento?

Gli indicatori di sostenibilità sono costantemente disponibili nel sistema di gestione del portafoglio, consentendo ai gestori del portafoglio di valutare l'impatto delle loro decisioni di investimento.

Questi indicatori sono incorporati nel quadro di controllo di AMUNDI, con responsabilità distribuite tra il primo livello di controlli eseguiti dagli stessi team di investimento e il secondo livello di controlli eseguiti dai team di Rischio, che monitorano la conformità alle caratteristiche ambientali o sociali promosse dal fondo su base continuativa.

Inoltre, la Politica di investimento responsabile di AMUNDI definisce un approccio attivo basato sull'engagement che promuove il dialogo con le società beneficiarie dell'investimento, comprese quelle presenti nel portafoglio di questo prodotto. Il nostro Annual Engagement Report, disponibile su <https://about.amundi.com/esg-documentation>, fornisce un resoconto dettagliato di questo impegno e dei suoi risultati.

Come si è comportato questo prodotto finanziario rispetto all'indice di riferimento?

Gli indici di riferimento sono indici atti a misurare se il prodotto finanziario rispetta le caratteristiche ambientali o sociali che promuove.

Questo prodotto non dispone di un Benchmark ESG.

- ***Come si è comportato questo prodotto finanziario rispetto all'indice generale di mercato?***

Questo prodotto non dispone di un Benchmark ESG.

Informativa periodica per i prodotti finanziari di cui all'articolo 8, commi 1, 2 e 2a, del Regolamento (UE) 2019/2088 e all'articolo 6, primo comma, del regolamento (UE) 2020/852

Nome del prodotto: AMUNDI FUNDS EURO
CORPORATE ESG BOND

Identificativo della persona giuridica:
EJCJD2QBJY0UVP7HMP10

Si intende per investimento sostenibile un investimento in un'attività economica che contribuisce a un obiettivo ambientale o sociale, purché tale investimento non arrechi un danno significativo ad alcun obiettivo ambientale o sociale e l'impresa beneficiaria degli investimenti segua prassi di buona governance.

La Tassonomia dell'UE è un sistema di classificazione istituito dal Regolamento (UE) 2020/852, che stabilisce un elenco di **attività economiche ecosostenibili**. Tale regolamento non definisce un elenco di attività economiche socialmente sostenibili. Gli investimenti sostenibili con un obiettivo ambientale potrebbero essere allineati o no alla tassonomia.

Caratteristiche ambientali e/o sociali

Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?

Si

No

Ha effettuato **degli investimenti sostenibili con un obiettivo ambientale:** _____

in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

Ha effettuato **degli investimenti sostenibili con un obiettivo sociale:** _____

Ha promosso **caratteristiche ambientali/sociali (A/S)** e pur non avendo come obiettivo un investimento sostenibile, ha avuto una quota del **58.49%** di investimenti sostenibili

con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE

con un obiettivo sociale

Ha promosso caratteristiche di A/S, **ma non ha effettuato alcun investimento sostenibile**

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Nel corso dell'esercizio, il prodotto ha promosso costantemente le caratteristiche ambientali e/o sociali puntando ad avere un punteggio ESG superiore a quello del suo universo d'investimento **BLOOMBERG EURO AGGREGATE CORPORATE (E)**. Nel determinare lo score ESG del Prodotto e l'universo d'investimento ESG, la performance ESG è stata costantemente valutata confrontando la performance media di un titolo rispetto al settore dell'emittente del titolo, in relazione a ciascuna delle tre caratteristiche ambientali, sociali e di governance.

L'universo d'investimento è un ampio universo di mercato che non valuta o include componenti basate su caratteristiche ambientali e/o sociali e non è pertanto destinato ad essere coerente con le caratteristiche promosse dal fondo. Non è stato definito alcun benchmark ESG.

Gli indicatori di sostenibilità misurano in che modo sono rispettate le caratteristiche ambientali o sociali promosse del prodotto finanziario.

● ***Come si sono comportati gli indicatori di sostenibilità?***

Amundi ha sviluppato un proprio processo di rating ESG interno basato sull'approccio "Best-in-class". I rating adattati a ciascun settore di attività mirano alla valutazione delle dinamiche in cui operano le aziende.

L'indicatore di sostenibilità utilizzato è il punteggio ESG del prodotto, il quale è misurato rispetto al punteggio ESG dell'Universo di Investimento del prodotto.

Alla fine del periodo:

- Il rating ESG medio ponderato del portafoglio è **1.030 (C)**.
- Il rating ESG medio ponderato dell'universo d'investimento ESG è **0.537 (C)**.

Il Rating ESG di Amundi utilizzato per determinare il punteggio ESG è un punteggio di tipo quantitativo espresso in sette gradi, che vanno da A (universo dei punteggi migliori) a G (punteggi peggiori). Nella scala di rating ESG di Amundi, i titoli appartenenti all'elenco di esclusione corrispondono a un G. Per gli emittenti societari, la performance ESG viene valutata a livello globale e a livello di criteri pertinenti, confrontandola con la performance media del proprio settore, attraverso la combinazione delle tre dimensioni ESG:

- Dimensione ambientale: esamina la capacità degli emittenti di controllare il proprio impatto ambientale diretto e indiretto, limitando il consumo di energia, riducendo le emissioni a effetto serra, combattendo l'esaurimento delle risorse e proteggendo la biodiversità.
- Dimensione sociale: misura il modo in cui un emittente opera su due concetti distinti: la strategia dell'emittente per sviluppare il proprio capitale umano e il rispetto dei diritti umani in generale;
- Dimensione della governance: Valuta la capacità dell'emittente di garantire le basi per un quadro di corporate governance efficace e di generare valore nel lungo termine.

La metodologia applicata dal rating ESG di Amundi si avvale di 38 criteri generici (comuni a tutte le società, indipendentemente dalla loro attività) o settoriali, ponderati in base al settore e considerati in termini di impatto sulla reputazione, sull'efficienza operativa e sulla regolamentazione relativa a un emittente. I rating ESG di Amundi possono essere espressi a livello globale sulle tre dimensioni E, S e G o a livello individuale su qualsiasi fattore ambientale o sociale.

● ***... e rispetto ai periodi precedenti?***

Alla fine del periodo precedente il rating ESG medio ponderato del portfolio era 0.83 (C) e il rating ESG medio ponderato dell'universo d'investimento ESG era 0.55 (C).

● ***Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario intendeva parzialmente realizzare e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?***

Gli investimenti sostenibili hanno come obiettivo l'investimento in società beneficiarie che cerchino di rispettare due criteri:

1. seguire le migliori prassi ambientali e sociali; e
2. evitare di produrre beni o prestare servizi che arrechino danni ambientali e sociali.

Per poter affermare che l'impresa beneficiaria degli investimenti contribuisce al predetto obiettivo deve trattarsi di una società "best performer" nel proprio settore di attività con riferimento ad almeno un fattore ambientale o sociale rilevante.

La definizione di "best performer" si basa sull'esclusiva metodologia ESG di Amundi per la misurazione della performance ESG di un'impresa beneficiaria di investimenti. Per poter essere considerata "best performer", un'impresa beneficiaria di investimenti deve ottenere un rating compreso tra i migliori tre (A, B o C su una scala di rating che va da A a G) nel proprio settore con riferimento ad almeno un fattore ambientale o sociale rilevante. I fattori ambientali e sociali rilevanti sono identificati a livello del settore. L'identificazione dei fattori rilevanti si basa sul quadro di analisi ESG di Amundi che combina dati extrafinanziari e analisi qualitativa del settore associato con le tematiche della

sostenibilità. I fattori identificati come rilevanti sono quelli da cui risulta un contributo al punteggio ESG complessivo che sia superiore al 10%. Per il settore energetico per esempio i fattori rilevanti sono: emissioni e energia, biodiversità e inquinamento, salute e sicurezza, comunità locali e diritti umani. Per una panoramica più completa sui predetti settori e fattori, consultare la dichiarazione regolativa di Amundi in materia ESG (Amundi ESG Regulatory Statement) nel sito www.amundi.lu. Per contribuire ai predetti obiettivi, l'impresa beneficiaria degli investimenti non dovrebbe avere un'esposizione significativa verso settori di attività (quali, per esempio, tabacco, armi, gioco d'azzardo, carbone, aviazione, produzione di carni, produzione di fertilizzanti e pesticidi, produzione di plastica monouso) incompatibili con i criteri sopra indicati.

La natura sostenibile di un investimento è valutata a livello dell'impresa beneficiaria degli investimenti.

I principali effetti negativi sono gli effetti negativi più significativi delle decisioni di investimento sui fattori di sostenibilità relativi a problematiche ambientali, sociali e concernenti il personale, il rispetto dei diritti umani e le questioni relative alla lotta alla corruzione attiva e passiva.

● ***In che modo gli investimenti sostenibili che il prodotto finanziario ha inteso in parte realizzare non hanno arrecato un danno significativo ad alcun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?***

Per garantire che gli investimenti sostenibili non arrechino un danno significativo ('DNSH'), Amundi si avvale di due filtri:

Il primo filtro DSNH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, delle RTS (Regulatory Technical Standards, norme tecniche di regolamentazione) quando sono disponibili dati affidabili e significativi (per es. intensità delle emissioni di gas serra da parte delle imprese beneficiarie degli investimenti) attraverso una combinazione di indicatori (per es. l'intensità carbonica) e specifiche soglie o regole (per es. che il livello dell'intensità carbonica dell'impresa beneficiaria degli investimenti non rientri nell'ultimo decile del settore).

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

Oltre gli specifici indicatori relativi ai Principali Effetti Negativi sui fattori di sostenibilità contemplati nel primo filtro, Amundi ha definito un secondo filtro, che non tiene conto degli indicatori obbligatori concernenti i Principali Effetti Negativi sopra descritti, al fine di verificare che la società non abbia un rendimento negativo da un punto di vista complessivo ambientale o sociale rispetto ad altre aziende nel suo stesso settore, cosa che corrisponde a un punteggio ambientale o sociale superiore o uguale a E nella scala di rating ESG di Amundi.

- ***In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?***

Gli indicatori relativi agli effetti negativi sono stati presi in considerazione come riportato nel primo filtro "non arrecano un danno significativo" (DNSH), sopra descritto.

Il primo filtro DNSH si basa sul monitoraggio degli indicatori obbligatori concernenti i Principali Effetti Negativi di cui all'Allegato 1, Tabella 1, del regolamento delegato (UE) 2022/1288, quando sono disponibili dati affidabili e significativi attraverso la combinazione dei seguenti indicatori e specifiche soglie o regole:

- Avere un'intensità di CO2 che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore (applicabile solo a settori ad alta intensità), e
- Avere un grado di diversità nel Consiglio di Amministrazione che non rientri nell'ultimo decile rispetto alle altre aziende nel medesimo settore, e
- Non essere implicata in controversie riguardanti le condizioni di lavoro e i diritti umani.
- Non essere implicata in controversie riguardanti biodiversità e inquinamento.

Amundi prende attualmente in considerazione alcuni dei Principali Effetti Negativi nell'ambito della propria politica di esclusione, facente parte della Politica di Amundi per l'Investimento Responsabile. Tali esclusioni, che si applicano in aggiunta ai test sopra descritti, coprono i seguenti temi: esclusione di armi controverse, violazione di Principi del Global Compact dell'ONU, settore del carbone e del tabacco.

- ***Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani? Descrizione particolareggiata:***

Sì, le Linee guida OCSE destinate alle imprese multinazionali e i Principi Guida ONU su imprese e diritti umani sono integrati nella metodologia di rating ESG di Amundi. Il

nostro meccanismo esclusivo di rating valuta gli emittenti servendosi dei dati disponibili provenienti dai nostri fornitori di dati. Per esempio, il modello ha un criterio dedicato denominato “Coinvolgimento della Comunità e Diritti Umani” che viene applicato a tutti i settori oltre ad altri criteri correlati ai diritti umani, tra i quali catene di fornitura socialmente responsabili, condizioni di lavoro e relazioni sindacali. Inoltre, effettuiamo il monitoraggio delle controversie con frequenza almeno trimestrale includendo aziende identificate per la violazione di diritti umani. Nel caso in cui emerga una controversia, gli analisti stimano la situazione, assegnano un punteggio alla controversia (servendosi della nostra metodologia esclusiva) e stabiliscono il modo migliore di agire. I punteggi relativi alle controversie vengono aggiornati trimestralmente per tenere traccia dell’andamento e delle misure adottate per porvi rimedio.

La Tassonomia dell'UE stabilisce il principio “non arreca un danno significativo”, in base al quale gli investimenti allineati alla Tassonomia non dovrebbero arrecare un danno significativo agli obiettivi della Tassonomia dell'UE, ed è accompagnata da criteri specifici dell'UE.

Il principio di “non arreca un danno significativo” si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri dell'UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

Qualsiasi altro investimento sostenibile non deve inoltre arrecare danni significativi ad alcun obiettivo ambientale o sociale.

Questo prodotto finanziario ha preso in considerazione i principali effetti negativi sui fattori di sostenibilità?

Il prodotto prende in considerazione tutti i Principali Effetti Negativi di cui all’Allegato 1, Tabella 1, del Regolamento delegato (UE) 2022/1288, applicabile alla strategia del prodotto e si basa su una combinazione di politiche di esclusione (normative e settoriali), impegno e approcci di voto:

- **Esclusione:** Amundi ha definito regole di esclusione basate su previsioni normative, su attività e su settori, le quali coprono alcuni degli indicatori chiave relativi agli effetti negativi sulla sostenibilità elencati dal Regolamento sull’Informativa (Disclosure).
- **Integrazione dei fattori ESG:** Amundi ha adottato le norme minime di integrazione ESG applicate automaticamente ai propri fondi di tipo aperto gestiti attivamente (esclusione di emittenti con rating pari a G e punteggio medio ponderato ESG migliore di quello del benchmark applicabile). I 38 criteri utilizzati nell’approccio di rating ESG di Amundi sono stati ideati in modo da tenere conto anche degli effetti chiave sui fattori di sostenibilità, e la qualità delle azioni di mitigazione intraprese è presa in considerazione anche a tale riguardo.
- **Engagement:** il coinvolgimento (engagement) degli emittenti è un processo continuo e mirato che cerca di influire sulle attività e sui comportamenti delle società beneficiarie degli investimenti. L’obiettivo delle attività di engagement può ricadere in due categorie: coinvolgimento dell’emittente per migliorare le modalità di integrazione della dimensione ambientale e sociale, coinvolgimento dell’emittente per migliorare l’impatto delle attività di quest’ultimo sugli aspetti ambientali, sociali e correlati ai diritti umani o sulle altre tematiche della sostenibilità che siano rilevanti per la società e l’economia globale.
- **Voto:** la politica di voto di Amundi risponde a un’analisi olistica completa degli aspetti che, nel lungo periodo, possono influire sulla creazione del valore ivi incluse le tematiche ESG rilevanti. Per ulteriori informazioni, è possibile consultare la Politica di Voto di Amundi.
- **Monitoraggio delle controversie:** Amundi ha elaborato un sistema per tracciare le controversie che si basa su tre fornitori di dati indipendenti per il monitoraggio sistematico delle controversie e della loro gravità. Questo approccio quantitativo è quindi integrato da una valutazione approfondita, da parte degli analisti ESG, di ogni controversia grave e dal riesame periodico della sua evoluzione. Questo approccio viene applicato a tutti i fondi Amundi.

Per ulteriori dettagli su come vengono presi in considerazione gli indicatori obbligatori concernenti i Principali Effetti Negativi, si rimanda al Disclosure Statement di Amundi Sustainable Finance disponibile sul sito www.amundi.com.

Quali sono stati i principali investimenti di questo prodotto finanziario?

L'elenco comprende gli investimenti che costituiscono la **quota maggiore degli investimenti** del prodotto finanziario durante il periodo di riferimento, ossia: **Da 01/07/2023 a 30/06/24**

Maggiori Investimenti	Settore	Sottosettori	Paese	% Asset

Qual è stata la quota di investimenti legati alla sostenibilità?

- **Qual è stata l'allocazione degli asset?**

L'asset allocation descrive la quota di investimenti in asset specifici.

#1 Allineati con caratteristiche A/S comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

#2 Altri comprende i restanti investimenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria **#1 Allineati con caratteristiche A/S** comprende:

- La sottocategoria **#1A Sostenibili** contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria **#1B Altri investimenti allineati alle caratteristiche A/S** che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

● In quali settori economici sono stati effettuati gli investimenti?

Per conformarsi alla tassonomia dell'UE, i criteri per il **gas fossile** includono limitazioni alle emis-

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il fondo promuove sia caratteristiche ambientali che sociali. Sebbene il fondo non si sia impegnato ad effettuare investimenti allineati alla tassonomia dell'UE, nel periodo di

sioni e il passaggio a energia completamente rinnovabile o a combustibili a basso contenuto di carbonio entro la fine del 2035. Per quanto riguarda l'energia nucleare, i criteri includono norme complete sulla sicurezza e sulla gestione delle scorie;

Le attività abilitanti consentono direttamente ad altre attività di apportare un contributo sostanziale a un obiettivo ambientale.

Le attività di transizione sono attività per le quali non sono ancora disponibili alternative a basse emissioni di carbonio e che presentano, tra l'altro, livelli di emissione di gas a effetto serra corrispondenti alla migliore prestazione.

Le attività allineate alla tassonomia sono espresse in percentuale di:

-fatturato che riflette la quota di entrate da attività verdi delle imprese beneficiarie degli investimenti

-spese in conto capitale (CapEx) investimenti verdi effettuati dalle imprese beneficiarie degli investimenti, ad es. per la transizione verso un'economia verde.

- spese operative (OpEx) attività operative verdi delle imprese beneficiarie degli investimenti.

riferimento ha investito lo 1.91% in investimenti sostenibili allineati alla tassonomia dell'UE. Questi investimenti hanno contribuito all'obbligo di mitigazione dei cambiamenti climatici o agli obiettivi di mitigazione del cambiamento climatico della tassonomia dell'UE.

L'allineamento delle imprese beneficiarie degli investimenti ai suddetti obiettivi della tassonomia dell'UE viene misurato utilizzando i dati relativi al fatturato (o ai ricavi) e/o all'utilizzo dei proventi dei green bond.

La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● **Il prodotto finanziario ha investito in attività legate al gas fossile e/o all'energia nucleare conformi alla tassonomia UE ¹?**

☐ Sì:

☐ In gas fossile ☐ In energia nucleare

☒ No

Nel periodo in esame non erano disponibili dati affidabili sull'allineamento alla tassonomia dell'UE per il gas fossile e l'energia nucleare.

¹Le attività legate ai gas fossili e/o al nucleare saranno conformi alla tassonomia dell'UE solo se contribuiranno a limitare i cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo ad alcun obiettivo della tassonomia dell'UE. I criteri completi per le attività economiche legate al gas fossile e all'energia nucleare conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

I grafici che seguono mostrano in verde la percentuale di investimenti allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

* Ai fini dei grafici di cui sopra, per 'obbligazioni sovrane' si intendono tutte le esposizioni sovrane.

● **Qual è stata la quota di investimenti effettuati in attività transitorie e abilitanti?**

Al 30/06/2024, utilizzando come indicatore i dati relativi al fatturato e/o all'utilizzo dei proventi dei green bond, la quota di investimenti del fondo in attività transitorie era pari allo 0.09% e la quota di investimenti in attività abilitanti era pari allo 1.22%. La percentuale di allineamento degli investimenti del fondo con la tassonomia dell'UE non è stata verificata dai revisori del fondo o da terzi.

● ***In che modo la quota di investimenti allineati alla Tassonomia UE è stata confrontata con i periodi di riferimento precedenti?***
