**Directors of the Fund****Chairman**

**Silvio Cruz** — member of the board of directors since May 2012

Mr. Cruz is a Senior Vice President and Managing Director in Global Product Strategy & Development at AllianceBernstein. In addition, Mr. Cruz is a manager of AllianceBernstein (Luxembourg) S.à r.l. Since 1996, Mr. Cruz has garnered experience in areas that include servicing cross-border retail, institutional and private client distribution channels, fund structuring, fund launches, fund governance, business strategy and oversight, product strategy and development, fund accounting, fund administration, custody and transfer agency activities in support of AB's investment-management and funds-related activities in Luxembourg, the UK, Ireland, Japan, Hong Kong, Taiwan, the US and the Cayman Islands. Mr. Cruz previously served as a mutual fund accountant at New York Life Insurance Company. Mr. Cruz holds a BS in accounting from Rutgers University and an MBA with a concentration in finance from Rutgers Business School. Mr. Cruz is a FINRA-registered General Securities Representative licensed in the State of New York and Tennessee with Series 7 and 63, and a Chartered Alternative Investment Analyst (CAIA).

**Directors**

**Bertrand Reimmel** — member of the board of directors since May 2012

Bertrand Reimmel is a Senior Vice President, Head of Legal & Compliance and Managing Director of AB Lux. As Managing Director, he oversees the legal (including legal alternative), investment compliance, fund and discretionary portfolio management, product development, internal audit, and corporate accounting functions. Reimmel joined AB in 2005. He is a key element in the launch and restructuring of each AllianceBernstein European Undertakings for Collective Investment in Transferable Securities (UCITS) and Alternative Investment Fund (AIF). Furthermore, Reimmel is an active member of various Association of the Luxembourg Fund Industry ("ALFI") working groups. He became a member of the Luxembourg Bar in 1998 and, before joining AB Lux, worked for more than eight years at Elvinger Hoss Prussen, one of the leading Luxembourg law firms, where he already covered AllianceBernstein files. Reimmel has worked in the Luxembourg and European fund industry since 1998 and his significant technical expertise to UCITS and AIFs make him one of the most-senior lawyers within the AB International Legal Group.

**Olivia Moessner** — member of the board of directors since June 2020

Ms. Moessner is a partner in the collective asset management and investment funds practice at Elvinger Hoss Prussen. She advises a number of investment fund promoters and other financial institutions in relation to the set-up and structuring of their Luxembourg investment fund operations. Her practice encompasses a broad range of investment funds (UCITS, UCIs, SIFs and RAIFs) implementing various investments strategies including hedge fund strategies. Ms. Moessner is a member of the board of directors and one of the co-chairs of the regulatory board of ALFI (Association of the Luxembourg Fund Industry). She also takes part in numerous working groups of ALFI and EFAMA on various key European topics in the asset management industry. She is a lecturer at the University of Luxembourg, Master in Investment Funds Law.

**Susanne van Dootingh** — member of the board of directors since June 2020

Ms. van Dootingh is an independent non-executive director of several Luxembourg domiciled investment funds and management companies. Prior to becoming an iNED she was at State Street Global Advisors from 2002 to 2017 with her final position being Senior Managing Director, Head of European Governance and Regulatory Strategy EMEA. Prior to this she held various senior positions within State Street Global Advisors in Global Product and Fixed Income Product Engineering. Before joining SSGA in 2002 she worked at Fortis Investment Management, Barclays Global Investors, and ABN AMRO Asset Management. She graduated from the Vrije Universiteit Amsterdam with a Master of Arts in Financial Sector Management.

**Vincent Noto** — member of the board of directors since October 2023

Mr. Noto served as a Senior Vice President and Director of Fund Compliance within the Legal and Compliance department of AB L.P. from 2015 through December, 2025. Mr. Noto retired from AB L.P. on December 31, 2025. Mr. Noto had over 35 years of experience with AB L.P., which included senior roles within Global Fund Administration and Legal and Compliance. He served as the Controller for AB L.P.'s 1940 Act Funds from 1998-2007 and as the Chief Compliance Officer for AB's 1940 Act Funds during the period 2015-2022. During the period of 2011 through 2025, he provided training to Portfolio Management regarding UCITS rules/guidelines and 1940 Act rules. Mr. Noto had responsibility for investment compliance oversight for AB L.P.'s co-mingled vehicles from 2011-2025, which included European UCITS. Mr. Noto has extensive experience in reporting to Fund Boards on the following topics: fund administration, compliance matters, valuation, portfolio trading matters, new or amended policies, new Fund launches, fund mergers, and new security types. He has garnered extensive experience in areas that include investment compliance, fund administration/accounting, transfer agency, and product development during the course of his career. Mr. Noto holds a BS in Accounting from St. Peters College and an MBA with a concentration in Finance from Fairleigh Dickinson University.

**Structure of the Fund**

AB SICAV III (the "Fund") is an open-ended investment company with variable capital (société d'investissement à capital variable) incorporated with limited liability under the laws of the Grand Duchy of Luxembourg on July 18, 2006 and registered under Part I of the law of December 17, 2010 on undertakings for collective investment, as amended (the "Law of 2010"). The Fund qualifies as Undertaking for Collective Investments in Transferable Securities ("UCITS") within the meaning of Article 1(2) of the EC Directive 2009/65 of July 13, 2009, as amended.

The Fund is structured as an "umbrella fund" comprising separate pools of assets (each a "Portfolio"). As of December 2025, the Fund had 4 Portfolios.

The Fund offers various classes of shares of each of its Portfolios. All Shares of the same Class have the same rights as to distributions and redemptions.

Certain Portfolios and share classes of the Fund are registered for distribution in the following jurisdictions: Singapore, Belgium, Germany, Denmark, Portugal, Austria, Ireland, Finland, France, Norway, Sweden, Spain, Italy, The Netherlands and the United Kingdom.

**Role and responsibility of the board of directors***a. General Information*

For the year under review, the following persons have been appointed as directors of the Fund:

- **Silvio Cruz**, Chairman, Executive Director
- **Bertrand Reimmel**, Executive Director
- **Susanne van Dootingh**, Independent Director
- **Olivia Moessner**, Independent Director
- **Vincent Noto**, Non-Executive Director

The responsibility of the board of directors of the Fund (the "Board") is governed exclusively by Luxembourg law. The Board is responsible for the overall management and control of the Fund in accordance with the Fund's articles of incorporation.

The Board is further responsible for the implementation of each Portfolio's investment objective and policies, as well as for oversight of the administration and operations of each Portfolio.

*b. Depositary*

The Board has appointed Brown Brothers Harriman (Luxembourg) S.C.A. (the "Depositary") as the depositary of the Fund for (i) the safekeeping of the assets of the Fund (ii) the cash monitoring, (iii) the oversight functions and (iv) such other services as agreed from time to time and reflected in the Depositary Agreement.

The Depositary is a credit institution established in Luxembourg, whose registered office is situated at 80, route d'Esch, L-1470 Luxembourg, and which is registered with the Luxembourg register of commerce and companies under number B29923. It is licensed to carry out banking activities under the terms of the Luxembourg law of 5 April 1993 on the financial services sector, as amended.

*c. Delegated functions***Management Company**

The Board has appointed AllianceBernstein (Luxembourg) S.à r.l. as the Management Company of the Fund to be responsible on a day-to-day basis, under supervision of the Board, for providing administration, marketing, investment management and advisory services in respect of all portfolios.

The Management Company is (i) a management company authorized under chapter 15 of the Law of 2010 and (ii) an alternative investment fund manager in Luxembourg authorized under chapter 2 of the law of 12 July 2013 on alternative investment fund managers, as amended.

AllianceBernstein Investor Services, a unit of the Management Company, acts as registrar and transfer agent of the Fund. In such capacity, the Transfer Agent is responsible for processing purchases, redemptions, exchanges and transfers of Shares of the Fund.

**Investment Manager**

In respect of all portfolios, the Management Company has delegated its investment management and advisory functions to AllianceBernstein L.P., a Delaware limited partnership with principal offices at 501 Commerce Street, Nashville, TN 37203, U.S.A., a leading global investment manager providing diversified services to institutions and individuals through a broad line of investments, pursuant to the terms of an Investment Management Agreement.

**Administrator**

The Management Company has delegated the administration functions of the Fund to Brown Brothers Harriman (Luxembourg) S.C.A. pursuant to the terms of the Administration Agreement. In such capacity, it is responsible for the general administrative functions of the Fund required by Luxembourg law, such as the calculation of the Net Asset Value of the Shares and the maintenance of accounting records. Brown Brothers Harriman (Luxembourg) S.C.A. also acts as paying agent of the Fund.

**Board Meetings**

Five board meetings were held during the fiscal year of the Fund. The Board will meet quarterly generally in January, April, July and October but if necessary ad hoc meetings will be arranged. There was one ad hoc board of directors' meeting held during the fiscal year of the Fund in March 2025.

**Events during the Fiscal Year**

- It was resolved by the Board to approve the creation of a new portfolio within the Fund: AB SICAV III—Arya Alternatives Portfolio. The Portfolio commenced operations on December 5, 2025.
- The Fixed Maturity Bond 2025 Portfolio was liquidated. The last official NAV was calculated on December 31, 2025.

January 20, 2026

Dear Shareholder,

This report for AB SICAV III (the "Fund") provides an update for the annual reporting period ended December 31, 2025.

US, international and emerging-market stocks increased during the 12-month period that ended on December 31, 2025. Global markets were volatile early in 2025 following US president Donald Trump's back-and-forth announcements on tariffs in April. After trade tensions eased, global stocks rallied over the summer as investors maintained their enthusiasm for AI-related stocks, but uncertainty over future Federal Reserve (the "Fed") rate cuts grew after conflicting data on US employment and inflation. Remarks from Fed Chair Jerome Powell in August clarified the central bank's shifting focus to labor market weakness, and the Fed subsequently lowered interest rates three times in the second half of 2025.

Concerns over technology stock valuations and future Fed monetary policy decisions weighed on US stocks throughout the fourth quarter as investors rotated from growth stocks into the more undervalued sectors of the market. Investors also looked to equity markets outside the US to diversify from large-cap technology. Within large-cap markets, both growth and value stocks rose in absolute terms, with growth outperforming on a relative basis. Both large- and small-cap stocks increased in absolute terms, with large caps outperforming on a relative basis.

Fixed-income government bond market yields were volatile as investors adjusted their expectations for US tariffs, inflation, economic growth, deficits and central bank decisions. Global developed-market yields generally fell during most of the period. Government bond returns rose in aggregate. Returns were the highest in the US, New Zealand and Italy; fell in Japan; and rose the least in Germany.

Overall, developed-market investment-grade corporate bonds rose and outperformed government bonds, as corporates outperformed treasuries in the eurozone and the US. Developed-market high-yield corporate bonds advanced and solidly outperformed treasury markets, particularly in the US and eurozone. Emerging-market hard-currency sovereign bonds outperformed developed-market treasuries by a wide margin, mainly due to the strong performance of high-yield sovereigns. Emerging-market hard-currency corporate bonds overall also had solid results, again boosted by high-yield corporates. Emerging-market local-currency bonds outperformed other credit risk sectors as the US dollar fell against almost all currencies during the period.

We appreciate your investment in the Fund.

Sincerely,

AllianceBernstein L.P., the Investment Manager of the Fund

Return calculated from inception date on:

- (1) December 12, 2025
- (2) December 5, 2025

The share class performance of each Portfolio is based on the net asset value incorporating the impact of expenses reimbursed or waived by the Management Company as of December 31, 2025. No adjustment has been made for sales charges that may apply when shares are purchased or redeemed. Performance for distributing share classes includes the reinvestment of distributions paid during the year. Past performance is no guarantee of future results. Investment return and principal value may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

**NOTE A: General Information**

AB SICAV III (the “Fund”) is an open-ended investment company with variable capital (*société d’investissement à capital variable*) incorporated with limited liability under the laws of the Grand Duchy of Luxembourg on July 18, 2006 and registered under Part I of the law of December 17, 2010 on undertakings for collective investment (as amended) (the “Law of 2010”). The Fund qualifies as Undertaking for Collective Investments in Transferable Securities (“UCITS”) within the meaning of Article 1(2) of the EC Directive 2009/65 of July 13, 2009, as amended.

The board of directors of the Fund (the “Board of Directors” or the “Board”) has appointed AllianceBernstein (Luxembourg) S.à r.l. as the management company of the Fund (the “Management Company”) to be responsible on a day to day basis, under supervision of the Board of Directors, for providing administration, marketing, investment management and advisory services in respect of all portfolios of the Fund.

The Fund is structured as an “umbrella fund” comprising separate pools of assets (each a “Portfolio”). The Fund offers various Classes of Shares for each of its Portfolios.

**NOTE B: Significant Accounting Policies**

The Financial Statements have been prepared in accordance with Luxembourg legal and regulatory requirements and on a going concern basis except for the Fixed Maturity Bond 2025 Portfolio whose financial statements have been prepared on a non-going concern basis, with assets recorded at net realizable values and liabilities at net settlement values, given its liquidation on 31 December 2025. The following is a summary of significant accounting policies followed by the Portfolios.

**1. Valuation**

**1.1 Investments in Securities**

Securities listed on a stock exchange or traded on any other regulated market are valued at the last available price on such exchange or market or, if no such price is available, at the mean of the closing bid and asked prices quoted on such day. If a security is listed on several stock exchanges or markets, the last available price on the stock exchange or market which constitutes the main market for such security is used.

Securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at “fair value” as determined in accordance with procedures established by, and

All Shares of a same Class have equal rights to distributions and redemptions.

The financial statements have been prepared based on the last official Net Asset Value (“NAV”) of the year which has been calculated, in line with the definition of business days per Prospectus, on December 31, 2025 for Fixed Maturity Bond 2025 Portfolio (inclusive final redemption), Fixed Maturity Bond 2026 Portfolio, Arya Alternatives Portfolio and December 30, 2025 for Dynamic All Market Portfolio.

It was resolved by the board to approve the creation of a new portfolio within the Fund: AB SICAV III—Arya Alternatives Portfolio. The Portfolio commenced operations on December 5, 2025.

The Fixed Maturity Bond 2025 Portfolio was liquidated. The last official NAV was calculated on December 31, 2025. The Portfolio held one illiquid investment deemed worthless at December 31, 2025.

The following table lists each Portfolio’s commencement of operations as well as Share Classes funded as of December 31, 2025:

under the general supervision of the Management Company’s Board of Managers and the Board of Directors. Fair valuation procedures are designed to adjust closing market prices of securities to reflect what is believed to be the fair value of those securities at the Portfolio’s Valuation Point.

When fair valuation procedures are employed with respect to a particular Portfolio’s security, various objective and subjective factors may be considered, including, among other things, developments affecting the security or involving an entire market since the security’s latest reported price, current valuations of relevant stock indices or pronouncements of certain governmental authorities. Fair value prices based on third party vendor modeling tools may be utilized to the extent available. Therefore, when fair valuation procedures are employed, the prices of individual securities utilized to calculate the Portfolio’s NAV may differ from quoted or published prices for the same securities. Currently, fair value adjustments are only applicable to certain equity securities and futures contracts.

Accordingly, as may also be the case with a previously reported stock exchange price, the price of any Portfolio’s security determined utilizing fair value pricing procedures may be materially different from the price to be realized upon the sale of such security.

For securities primarily traded on U.S. exchanges, it is expected that fair value pricing procedures are employed only under very limited circumstances such as, for example, the early closing of an exchange on which a particular security is traded or the suspension of trading in a particular security.

However, it is anticipated that fair value pricing procedures will be utilized frequently for securities traded on non-U.S. exchanges or other markets, particularly European and Asian markets, because, among other reasons, these markets close well before the Portfolio's Valuation Point. Between the close of these markets and the relevant Portfolio's Valuation Point, significant events including broad market moves may occur.

In particular, events in the U.S. market on a trading day after the close of these other markets may affect the value of the Portfolio's securities.

Fixed income securities (i), securities not listed on any stock exchange or traded on any regulated market (ii), and securities, trading of which on a stock exchange or a regulated market is thin (iii), are valued at the most recent bid price provided by the principal market makers. If there is no such market price, or if such market price is not representative of a security's fair market value, then the security is valued in a manner determined to reflect its fair value in accordance with procedures established by, and under the general supervision of, the Management Company's Board of Managers and the Board of Directors.

U.S. Government securities and any other debt instruments having 60 days or less remaining until maturity are generally valued at market by an independent pricing vendor, if a market price is available. If a market price is not available, the securities are valued at amortized cost. This methodology is commonly used for short-term securities that have an original maturity of 60 days or less, as well as short-term securities that had an original term to maturity that exceeded 60 days. In instances when amortized cost is utilized, the valuation committee (the "Committee") must reasonably conclude that the utilization of amortized cost is approximately the same as the fair value of the security. Such factors the Committee will consider include, but are not limited to, an impairment of the creditworthiness of the issuer or material changes in interest rates.

Over-the-counter ("OTC") swaps and other derivatives are valued daily, primarily using independent pricing services, independent pricing models using market inputs, as well as third party broker-dealers or counterparties.

### 1.2 Financial Futures Contracts

Initial margin deposits are made upon entering into futures contracts. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are made or received, depending upon whether unrealized losses or gains are incurred. When the contract is closed, a realized gain or loss is recorded. This realized gain or loss is equal to the difference between the proceeds from (or cost of) the closing transaction and the Fund's basis in the contract.

Open futures contracts are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuations, the last available closing settlement price is used.

### 1.3 Forward Foreign Currency Contracts

The unrealized gain or loss on open forward foreign currency contracts is calculated as the difference between the contracted rate and the rate to close out the contract. Realized profit or loss includes net gains or losses on forward foreign currency contracts which have been settled or offset by other contracts with the same counterparty.

### 1.4 Options Purchased and Options Written

When an option is purchased, an amount equal to the premium paid is recorded as an investment and is subsequently adjusted to the current market value of the option purchased. Premiums paid for the purchase of options which expire unexercised are treated on the expiration date as realized losses. If a purchased put option is exercised, the premium is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or loss. If a purchased call option is exercised, the premium increases the cost basis of the security or foreign currency purchased by the relevant Portfolio. When an option is written, an amount equal to the premium received by the relevant Portfolio is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are treated by the relevant Portfolio on the expiration date as realized gains. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or a loss. If a written put option is exercised, the premium reduces the cost basis of the security or foreign currency purchased by the relevant Portfolio. Listed put or call options purchased by a Portfolio are valued at the last sale price. If there has been no sale on that day, such securities are valued at the closing bid prices on that day.

### 1.5 Swap Agreements

The Portfolios accrue for interim payments on swap contracts on a daily basis, within income and expenses. Swap contracts are marked to market on a daily basis with fluctuations in value recorded in "Unrealized appreciation (depreciation) on swaps" in the Statement of Assets and Liabilities and "Changes in unrealized gains and (losses) on swaps" in the Statement of Operations and Changes in Net Assets. Once a swap contract has matured or is sold, the net amount is recorded as "Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency" in the Statement of Operations and Changes in Net Assets. The upfront premiums paid or received are recognized as cost or proceeds in the Statement of Assets and Liabilities and are amortized on a straight line basis over the life of the contract. Accruals of amortized upfront premiums on credit default swaps are included in "Swap income" until the position is sold, thereafter the amortized upfront premiums are included in "Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency". On all other swap types the amortized upfront premiums are included within "Realized

gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency”.

Fluctuations in the value of swap contracts are recorded as a component of “Changes in unrealized gains and (losses) on swaps” in the Statement of Operations and Changes in Net Assets.

“Upfront premiums paid (received) on swap contracts” disclosed in the Statement of Assets and Liabilities include premiums paid (received) on the OTC credit default swaps and a margin that is yet to be settled on the centrally cleared credit default swaps.

### 1.6 Investments in other Undertakings for Collective Investment (“UCIs”)

Investments in other UCIs are valued at the last available NAV for the UCI in question.

### 2. Organization Expenses

The organization expenses for the following Portfolios are being amortized on a straight-line basis through the following dates:

AB SICAV III-	Date
Fixed Maturity Bond 2025 Portfolio	December 2025
Arya Alternatives Portfolio	December 2030

The organization expenses for other existing Portfolios have been fully amortized in prior years.

### 3. Allocation Method

Income and expenses (except for class specific and distribution fees), realized and unrealized gains and losses are allocated on a daily basis by each class’ value of their proportionate shares outstanding.

Expenses incurred as a result of hedging activity will be borne by the Currency Hedged Share Class in relation to which such expenses are incurred.

### 4. Currency Translation

Values expressed in a currency other than the currency in which a Portfolio is denominated are translated at the average of the last available buying and selling price.

Transactions in foreign currencies are translated into the currency of each Portfolio at the exchange rate ruling at the date of the transactions.

The Combined Statement of Assets and Liabilities is presented in U.S. Dollars at the exchange rates ruling at the date of the Combined Statement of Assets and Liabilities, while the Combined Statement of Operations and Changes in Net Assets is presented in U.S. Dollars at the average exchange rates ruling during the year.

Exchange rates applied in the financial statements are: spot rate 1.1752 and average rate 1.1304 for EUR to USD.

The “Currency translation adjustment” presented in the Statement of Operations and Changes in Net Assets is the result of the difference

in exchange rates used to translate combined net assets at the beginning of the year, the Statement of Assets and Liabilities and the Statement of Operations and Changes in Net Assets.

### 5. Investment Income and Investment Transactions

Dividend income is recorded on the ex-dividend date. Interest income is accrued daily. Investment gains and losses for the Portfolios are determined on an average cost basis. The Fund accretes discounts and amortizes premiums as basis adjustments, if applicable, to interest income. Investment transactions are recorded on trade date plus one day.

### 6. Estimates

The preparation of the Financial Statements in conformity with accounting principles generally accepted in Luxembourg requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of Financial Statements and the reported amounts of income and expenses during the reporting year. Actual results may differ from those estimates.

### 7. Swing Pricing Adjustment

(The following applies to Fixed Maturity Bond 2025 Portfolio and Fixed Maturity Bond 2026 Portfolio)

The Fund implemented a NAV Adjustment Policy, also known as “swing pricing” policy, effective from July 19, 2016. Under this policy, a Portfolio’s NAV may be adjusted to reflect the impact of estimated transaction costs, deal spreads and charges generated by shareholders’ purchase and redemption activity. Swing pricing is automatically applied when daily net subscriptions or redemptions exceed a threshold specified by the Swing Pricing Committee under the supervision of the Board of Directors. When swing pricing is applied, the NAV of the relevant Portfolio’s shares will be adjusted up or down, in an amount generally not to exceed 2% of the relevant NAV, so that the transaction costs incurred due to the purchase and redemption activity are borne by the investors transacting in the Portfolio’s shares, rather than the Portfolio itself. This adjustment is intended to minimize dilution of the value of shareholders’ investment in shares of a Portfolio brought on by transactions in the Portfolio’s shares.

The NAV per Share and the total Net Assets as disclosed in the Statistical Information are the published NAV per Share and total Net Assets, whereas the total Net Assets disclosed in the Statement of Assets and Liabilities and Statement of Operations and Changes in Net Assets is the total NAV excluding any period end swing adjustments.

All Portfolios subject to swing pricing swung their NAVs during the reporting year and as of December 31, 2025, the following of such Portfolios swung their NAVs: Fixed Maturity Bond 2026 Portfolio.

### NOTE C: Taxes

As a Luxembourg *société d’investissement à capital variable* (SICAV), the Fund is not subject, under present tax laws, to income, withholding or capital gains taxes in Luxembourg. The Fund is subject to the Luxembourg *taxe d’abonnement* at the rate of 0.05% per annum determined by reference to total net assets as

established on the last day of each calendar quarter. This rate is 0.01% for share classes reserved for institutional investors within the meaning of Article 174 of the Law of 2010. Dividends, interest and capital gains on Portfolio securities issued in certain countries may be subject to withholding or capital gains taxes imposed in such countries.

**NOTE D: Distributions**

For Dynamic All Market Portfolio and Arya Alternatives Portfolio, the Board currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.

For Fixed Maturity Bond 2025 Portfolio, for class A2, I2, IR2 and S1 Shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For class AT, IT, IRT and S1T Shares (and corresponding H shares), the Board intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio’s net income attributable to each class of Shares. Distributions will begin when the subscriptions in the Portfolio close.

For Fixed Maturity Bond 2026 Portfolio, for class A2, B2, C2, I2 and IR2 Shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the Shares.

Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For class BNN and CNN shares (and corresponding H shares), the Board intends to declare and pay an annual distribution equal to all or substantially all of the Portfolio’s net income attributed to such class of Shares.

For class AT, IT, IRT and S1T Shares (and corresponding H shares), the Board intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio’s net income attributable to each class of Shares. Distributions will begin when the subscriptions in the Portfolio close.

For Fixed Maturity Bond 2025 Portfolio and Fixed Maturity Bond 2026 Portfolio, the Board also may determine if and to what extent dividends paid include realized capital gains and/or are paid out of capital, attributable to the relevant class of shares. To the extent the net income and net realized profits attributable to these shares exceed the amount declared payable, the excess return is reflected in the respective NAV of such Shares.

**NOTE E: Management Fee and Other Transactions with Affiliates**

The Fund pays the Management Company a management fee. Under the terms of the Investment Management Agreement from the management fee earned, the Management Company pays an investment management fee to AllianceBernstein L.P. (the “Investment Manager”).

The Management Company has voluntarily agreed to bear certain expenses to the extent necessary to limit total operating expenses on an annual basis.

These limitations have been set as follows (limitations expressed as a percentage of the average daily net assets):

AB SICAV III –	Share Class	%
Dynamic All Market Portfolio .....	Class S1	0.90%
	Class S1 AUD H	0.90%
Fixed Maturity Bond 2025 Portfolio (1) .....	Class A2	0.60%
	Class A2 EUR H	0.60%
	Class A2 GBP H	0.60%
	Class A2 SGD H	0.60%
	Class AT	0.60%
	Class AT EUR H	0.60%
	Class AT GBP H	0.60%
	Class AT HKD H	0.60%
	Class AT SGD H	0.60%
	Class I2	0.47%
	Class IR2	0.37%
	Class IR2 GBP H	0.37%
	Class IRT	0.37%
	Class IRT GBP H	0.37%
	Class IT	0.47%
	Class S1T(2)	0.33%

AB SICAV III –	Share Class	%
Fixed Maturity Bond 2026 Portfolio .....	Class A2	0.65%
	Class A2 USD H	0.65%
	Class AT	0.65%
	Class B2	1.11%
	Class BNN	1.11%
	Class C2	1.31%
	Class CNN	1.31%
	Class I2	0.50%
	Class IR2	0.40%
	Class IR2 USD H	0.40%
	Class IRT	0.40%
	Class IRT USD H	0.40%
	Class IT	0.50%
	Class S1T	0.36%
Arya Alternatives Portfolio. ....	Class F EUR H	0.60%
	Class I	1.25%
	Class I EUR H	1.25%
	Class I GBP H	1.25%
	Class S	0.20%
	Class S1	1.20%

(1) Last official NAV calculated on December 31, 2025.

(2) Share class liquidated on May 22, 2025.

The following table shows expenses borne by the Management Company during the year ended December 31, 2025 and reimbursement receivable of the portfolios at December 31, 2025:

AB SICAV III –	Expenses borne	Reimbursement receivable
Dynamic All Market Portfolio .....	\$272,828	30,642
Fixed Maturity Bond 2025 Portfolio (a) .....	\$390,379	18,988
Fixed Maturity Bond 2026 Portfolio .....	€276,627	2,233
Arya Alternatives Portfolio .....	\$ 52,923	52,923

(a) Last official NAV calculated on December 31, 2025.

Expenses borne by the Management Company are included in the Statement of Operations and Changes in Net Assets under “Expense reimbursed or waived”. Reimbursement receivable is included in the Statement of Assets and Liabilities under “Other receivables” or in “Accrued expenses and other liabilities”. The Fund also pays its Management Company, a Management Company fee.

Specific share classes of each Portfolio pay the Distributor, a distribution fee, which is a compensation for providing distribution-related services to the Fund with respect to such shares.

All of the aforementioned fees are accrued at an annual rate on the average daily net assets of each Portfolio and paid monthly. A list of each Portfolio’s annual rate for their applicable fees can be found in Table 1 (page 74).

The Fund compensates its registrar and transfer agent, AllianceBernstein Investor Services, a unit of the Management Company, under a Management Fund Services Agreement for providing personnel and facilities to perform registrar and transfer agency services for the Fund. Such compensation amounted to \$139,022 for the year ended December 31, 2025.

The Fund compensates the Investment Manager for certain services provided to the Fund in connection with the registration of the Fund for sale in certain jurisdictions outside of Luxembourg,

**NOTE F: Soft Commission Arrangements and Transaction Costs**

During the year ended December 31, 2025, where permitted under applicable law, the Investment Manager and any Affiliated Sub-Investment Manager, if applicable, received and entered into soft-dollar commissions/arrangements with brokers relating to Portfolios of the Fund that invest in equity securities, in respect of which certain goods and services used to support the investment decision making process were received. The soft commission arrangements were entered into on the basis that the execution of transactions on behalf of the Fund will be consistent with best execution standard and the Investment Manager considers many factors regarding best execution standards when entering into soft commission arrangements such as the size and nature of brokerage fees.

Additionally, due to the nature of the investment strategy of certain Portfolios, including where the Investment Manager

subject to certain conditions. For the year ended December 31, 2025, such compensation amounted to \$4,361 and is included in “Professional fees” in the Statement of Operations and Changes in Net Assets.

The Fund compensates its legal adviser, Elvinger Hoss Prussen, *société anonyme* for legal services rendered to the Fund. Payments of €1,103 were made for the year ended December 31, 2025 and are included in “Professional fees” in the Statement of Operations and Changes in Net Assets.

The Investment Manager has not entered into transactions in relation to a placing and/or a new issue in which a connected person had a material interest as a member of the underwriting syndicate.

All transactions executed on behalf of the Fund were entered into in the ordinary course of business and/or normal commercial terms.

There was no commission paid for the year ended December 31, 2025 on securities transactions utilizing the services of the affiliated firms, Bernstein Institutional Services LLC and Bernstein Autonomous LLP.

Collective investment funds in which the Portfolio invests may be sponsored and/or managed by the Investment Manager or its affiliates, or by unaffiliated third parties, as determined in the Investment Manager’s discretion. The Portfolio’s investments in other collective investment funds may be subject to certain fees and expenses charged at the level of such collective investment fund. Where the Investment Manager has allocated the Portfolio’s assets to a collective investment fund or other product sponsored and/or managed by the Investment Manager or an affiliate (an “Affiliated Fund”), such Affiliated Fund will not charge an investment management fee in respect of the Portfolio’s investment.

The Fund’s directors are entitled to remuneration for their services. Such accrued compensation amounted to \$47,680 for the year ended December 31, 2025 and is included in “Miscellaneous” in the Statement of Operations and Changes in Net Assets.

delegates investment management services to AllianceBernstein Limited, all costs associated with soft commission arrangements may be “unbundled” and borne by the Investment Manager or its sub-delegates, if required by applicable law, with the exception of the Arya Alternatives Portfolio, which may be charged (indirectly through the TRS arrangement) a separate expense for costs associated with soft commission arrangements.

The soft commission arrangements were entered into on the basis that the execution of transactions on behalf of the Fund will be consistent with best execution standard and the Investment Manager considers many factors regarding best execution standards when entering into soft commission arrangements such as the size and nature of brokerage fees. The goods and services received include specialist industry, company and consumer research, portfolio and market analysis and computer software used for the delivery of such services. The nature of the goods

and services received is such that the benefits provided under the arrangement must be those which assist in the provision of investment services to the Fund and may contribute to an improvement in the Fund’s performance.

For the avoidance of doubt, such goods and services do not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employees’ salaries or direct money payments. Transaction costs are costs incurred in the acquisition, issue or disposal of transferable securities, money market instruments, derivatives or other eligible assets. They can include bid-ask spread, fees and commissions paid to agents, advisers, brokers and dealers, transaction related taxes and other market charges. They do not include debt premiums or discounts, financing costs or internal administrative or holding costs. Transaction costs are included within the cost of investments in the Portfolio of Investments as well as in the “Realized gains and (losses) on invest-

ments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” and “Changes in unrealized gains and (losses) on investments” in the Statement of Operations and Changes in Net Assets.

Transaction costs are excluded from the Total Expense Ratio and/or expense reimbursement calculation.

For the year ended December 31, 2025, the amount of transaction costs incurred by each Portfolio is detailed in the following table:

AB SICAV III -	Transaction costs
Dynamic All Market Portfolio .....	\$599,817
Fixed Maturity Bond 2025 Portfolio (a).....	\$ 2
Fixed Maturity Bond 2026 Portfolio .....	€ –0–
Arya Alternatives Portfolio .....	\$ 397

(a) Last NAV calculated on December 31, 2025.

**NOTE G: Forward Foreign Currency Contracts**

A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contract and the closing of such contract is included in “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” in the Statement of Operations and Changes in Net Assets. Fluctuations in the value of open forward foreign currency contracts are reflected for financial reporting purposes as a component of “Changes in unrealized gains and (losses) on forward foreign currency contracts” in the Statement of Operations and Changes in Net Assets and as a component of “Unrealized appreciation on forward foreign currency contracts” or “Unrealized depreciation on forward foreign currency contracts” in the Statement of Assets and Liabilities.

One or more of the Portfolio’s share classes offered in a particular currency (each, an “Offered Currency”) may be hedged to such Offered Currency. Any such share class will constitute a “Currency Hedged Share Class.” Currency Hedged Share Classes aim to provide investors a return more closely correlated to the

Portfolio’s base currency return by reducing the effect of exchange rate fluctuations between the Portfolio’s base currency and the relevant Offered Currency, taking into account practical considerations such as transaction costs. The hedging portfolio employed is designed to reduce, but may not eliminate, currency exposure between the Portfolio’s base currency and the Offered Currency.

Given that there is no segregation of liabilities between the various share classes within a portfolio, there is a remote risk that, under certain circumstances, currency hedging transactions in relation to a Currency Hedged Share Class could result in liabilities which might affect the NAV of the other share classes of the same Portfolio, in which case assets of the other share classes of the Portfolio may be used to cover the liabilities incurred by such Currency Hedged Share Class. Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. Dollar/Euro. The securities in each Portfolio are used as collateral for its open forward foreign currency contracts.

**NOTE H: Financial Futures Contracts**

The Fund may buy or sell financial futures contracts. The Fund bears the market risk that arises from changes in the value of these financial instruments. The Fund’s activities in financial futures contracts are conducted through regulated exchanges, which do not result in counterparty credit risk.

At the time the Fund enters into a financial futures contract the Fund deposits and maintains with the Broker as collateral an initial margin as required by the exchange on which the transaction

is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as the variation margin and are recorded by the Fund as unrealized gains or losses.

When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed.

**NOTE I: Swap Transactions**

A swap is an agreement that obliges two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a

specified amount of an underlying asset or otherwise determined notional amount. Realized gains and (losses) and changes in unrealized gains and (losses) on swaps are included in the Statement of Operations and Changes in Net Assets respectively under

“Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” and as a component of “Changes in unrealized gains and (losses) on swaps”.

#### **Centrally Cleared Interest Rate Swaps**

A centrally cleared interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payment based on a notional amount that serves as a computation basis.

#### **Centrally Cleared Credit Default Swaps**

The buyer in a centrally cleared credit default swap agreement is obligated to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

#### **Credit Default Swaps**

The buyer in a credit default swap agreement is obliged to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

---

#### **NOTE J: Option Transactions**

The Fund may purchase and write (sell) put and call options on securities. The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as Portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the option written.

Premiums received from written options which expire unexercised are recorded by the Fund on the expiration date as realized gains from options written. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium received is less than the amount paid for the closing purchase transaction, as a realized

#### **Inflation Swaps**

An inflation swap is a bilateral agreement in which each of the parties agree to exchange fixed rate payments for floating, inflation index linked payments based on a notional amount that serves as a computation basis.

#### **Total Return Swaps**

A total return swap is a bilateral agreement in which each of the parties agree to exchange the total performance of an underlying asset for a series of interest payments based on a notional amount that serves as a computation basis.

#### **Variance Swaps**

Variance swaps are contracts in which two parties agree to exchange cash payments based on the difference between the stated level of variance and the actual variance realized on underlying asset(s) or index(es). Actual “variance” as used here is defined as the sum of the square of the returns on the reference asset(s) or index(es) (which in effect is a measure of its “volatility”) over the length of the contract term. So the parties to a variance swap can be said to exchange actual volatility for a contractually stated rate of volatility.

loss. If a call option is exercised, the premium received is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option.

Exercise of an option written by the Fund could result in the Fund selling or buying a security or currency at a price different from the current market value.

The Fund may also invest in options on swap agreements, also called swaptions. A swaption is an option that gives the buyer the right, but not the obligation, to enter into a swap on a future date in exchange for paying a market-based premium. A receiver swaption gives the owner the right to receive the total return of specified asset, reference rate, or index. A payer swaption gives the owner the right to pay the total return of a specified asset, reference rate, or index. Swaptions also include options that allow an existing swap to be terminated or extended by one of the counterparties.

**NOTE K: Collateral**

The following table lists the cash collateral held by/owed to broker for certain financial derivative instruments as of December 31, 2025:

AB SICAV III-	Cash Held by Broker	Cash Owed to Broker
Dynamic All Market Portfolio...		
Bank of America .....	\$ 1,715,000	—
Citibank .....	\$ 2,923,000	—
Goldman Sachs .....	\$ 550,000	—
JPMorgan Chase .....	\$ 4,952,000	—
Morgan Stanley .....	\$49,448,838	10,242,021
UBS AG .....	\$ —	570,000
Arya Alternatives Portfolio		
Morgan Stanley .....	\$11,260,000	—

Cash collateral held by/owed to broker in relation to financial derivative instruments is recorded as part of “Cash at depositary and broker” and “Due to depositary and broker” in the Statement of Assets and Liabilities. At December 31, 2025, there was no security collateral held by/owed to broker for financial derivative instruments.

**NOTE L: Bank Facility**

The Fund has access to an overdraft facility (the “Facility”), established with Brown Brothers Harriman (Luxembourg) S.C.A. (the “Depositary”), intended to provide for short-term/temporary financing if necessary, subject to certain restrictions, in connection with abnormal redemption activity.

Each Portfolio of the Fund is limited to borrowing 10% of its respective net assets. Borrowings pursuant to the Facility are subject to interest at a mutually agreed upon rate and secured by the underlying assets of each such Portfolio.

**NOTE M: Incentive Fee**

**Arya Alternatives Portfolio**

At the end of each partial financial year/financial year, the Investment Manager received/will receive an amount equal to 20% (10% for Class F Shares) of the amount by which the “Adjusted NAV” (as defined below) of each of the relevant Share Classes exceeds the “High-Water Mark” (as defined below) at the end of the last day of a financial year.

Defined terms:

“Adjusted NAV” means the Net Asset Value per share before the reduction for the current financial year’s performance fee, if any.<sup>1</sup>

“High-Water Mark” or “HWM” means, for a Share Class, the NAV per share at the end of the last day of the most recent financial year in which the last performance fee was paid or, if no performance fee has been paid, the initial offering price of such Share Class at issue.

“Current Shares Outstanding” means the total Shares in issue, for each Share Class, on each day of the Portfolio’s financial year.

“Subscription Adjustment” means the prior day unrealized performance fee divided by the prior day shares outstanding multiplied by the gross subscription shares.

“Cumulative Subscription Adjustment” means the cumulative prior days’ Subscription Adjustment over the reference period plus the current day Subscription Adjustment.

“Reference Period” means the period equal to at least 12 months, which begins either at the issue of the Share Class or at the time

the last performance fee has been paid. The reference period will always end at a financial year end, except in the case of a Share Class liquidation.

If there is a redemption in a Share charging Performance Fees at any point during the year, other than as of the end of a financial year, a performance fee with respect to such Share will be determined for such partial financial year and paid as of such date regardless of whether the financial year end Adjusted NAV exceeds the High-Water Mark. The High-Water Mark is not reset on those Business Days at which performance fees crystallise following the redemption of Shares.

In accordance with ESMA guidelines 34/39/992 on performance fees in UCITS and certain types of AIFs, the Board will reset the High-Water Mark if no performance fee has been paid during a five year performance reference period.

The following share class (and corresponding H classes) do not charge an Incentive Fee: S.

As of December 31, 2025 incentive fees payable was \$6,367. This is included within the line item “Accrued expenses and other liabilities” in the Statement of Assets and Liabilities.

<sup>1</sup> For the avoidance of doubt, the Adjusted NAV is net of costs

For the period ended December 31, 2025, the following share classes had incentive fees as follows:

Share Class	Incentive Fee charged	Percentage incentive fee based on the average share class NAV
F EUR H.....	\$6,347	0.08%
I .....	4	0.04%
I EUR H .....	5	0.04%
I GBP H .....	6	0.04%
S1 .....	5	0.05%

**NOTE N: Joint Credit Facility**

The Fund together with other investment funds (the “participating funds”) participates in a \$400 million (effective from May 6, 2025) revolving credit facility (the “Credit Facility”) intended to provide short-term financing related to redemptions and other short term liquidity requirements,

subject to certain restrictions. Fees related to the Credit Facility are paid by the participating funds and are included in miscellaneous expenses in the combined statement of operations. The Fund did not utilize the Credit Facility during the year ended December 31, 2025.

**To the Shareholders of  
AB SICAV III****Opinion**

We have audited the financial statements of AB SICAV III and of each of its portfolios (the "Fund"), which comprise the statement of assets and liabilities and the portfolio of investments as at December 31, 2025 and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its portfolios as at December 31, 2025, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

**Basis for Opinion**

We conducted our audit in accordance with the Law of 23 July, 2016 on the audit profession (the "Law of July 23, 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of July 23, 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the *réviseur d'entreprises agréé*" for the audit of the financial statements section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Other information**

The Board of Directors of the Fund (the "Board of Directors") is responsible for the other information. The other information comprises the Board of Directors' Report, Investment Manager's Report, Share Performance, Shares Outstanding, Statistical Information, Table 1—Fee Schedule, Table 2—Portfolio Turnover and Shareholders' Information but does not include the financial statements and our report of the *réviseur d'entreprises agréé* thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

**Responsibilities of the Board of Directors for the financial statements**

The Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Fund's and of each of its portfolios' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or any of its portfolios or to cease operations, or has no realistic alternative but to do so.

**Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the *réviseur d'entreprises agréé* that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting

and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its portfolios' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its portfolios (except for the portfolio(s) where a decision or an intention to close exists) to cease to continue as a going concern.

- In respect of portfolio(s) where a decision or an intention to close exists, we conclude on the appropriateness of the Board of Directors of the Fund's use of the non-going concern basis of accounting. We also evaluate the adequacy of the disclosures describing the non-going concern basis of accounting and reasons for its use. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé".
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**ERNST & YOUNG**

Société Anonyme

Cabinet de révision agréé

Kerry Nichol

Luxembourg, March 11, 2026

The Investment Manager may sub-delegate some of its investment management services to one or more of its wholly owned subsidiaries (the "Affiliated Sub-Investment Managers") when implementing the Portfolios' respective investment strategy. All Affiliated Sub-Investment Managers are authorized, registered, or approved to provide investment management services and are subject to prudential supervision by their supervisory authority. The Investment Manager delegated investment management services to the following Affiliated Sub-Investment Managers as follows:

**AllianceBernstein Limited:**

Fixed Maturity Bond 2026 Portfolio  
Arya Alternative Portfolio

**Financial Information on the Fund**

The Fund will be made available the latest semi-annual and annual financial reports containing a list of each Portfolio's holdings and their market values at the offices of the Management Company and the Depositary. Electronic copies of each annual and semi-annual reports are also available on [www.alliancebernstein.com](http://www.alliancebernstein.com). Information concerning issue and purchase prices, purchases and sales of securities and the situation of the Fund as well as, copies of annual and semi-annual reports, the Prospectus, the KIDs, the articles of incorporation and facilities requirements for investors related to Article 92 1 of the UCITS Directive can be requested from:

AllianceBernstein Investor Services, a unit of

Spain

Allfunds Bank, S.A., Milan branch  
Via Santa Margherita 7  
Milan

Italy Information in relation to facilities for investors related to Article 92 1. b) to f) of the UCITS Directive for France, Finland, Luxembourg, Germany, The Netherlands, Norway, Italy, Sweden, Belgium, Denmark, Portugal, Austria and Ireland is made available at [www.eifs.lu/alliancebernstein](http://www.eifs.lu/alliancebernstein).

Facilities requirements for investor related to Article 92 1. a) of the UCITS Directive will be processed by AllianceBernstein (Luxembourg) S.à r.l.

The key information documents (KIDs) of the Fund are made available at [www.alliancebernstein.com/go/kid](http://www.alliancebernstein.com/go/kid).

**Notice to Shareholders**

All notices to shareholders will be published in one or more newspapers, and in the *Recueil Electronique des Sociétés et Associations* (RESA), to the extent required by Luxembourg law and the Fund's articles of incorporation or prospectus.

**Changes in the Investment Portfolio**

Changes in the Portfolio of Investments during the reporting year are available free of charge to the Shareholders at the registered office of the Management Company.

**Controversial Weapons Policy**

The Management Company arranges for the screening of companies globally for their involvement in the production of anti-personnel mines, cluster munitions and/or munitions made with depleted uranium, biological weapons, chemical weapons and/or incendiary weapons. Where such involvement in production has been verified, the Management Company's policy is not to permit the Fund to invest in securities issued by such companies.

**Value at risk**

For UCITS, the Value at Risk (VaR) can be measured on an absolute or a relative basis. VaR is a widely used risk measure of the risk of loss on a specific portfolio of financial assets.

For Dynamic All Market Portfolio and Arya Alternatives Portfolio, the Investment Manager monitored the global exposure

(market risk) utilizing the VaR calculated on an absolute basis, pursuant to which the VaR of the Portfolio may not exceed 20% of its NAV.

During the year ended December 31, 2025 the low, high and average VaR of the Portfolios measured on an absolute basis were as follows:

<u>Portfolio</u>	<u>Low</u>	<u>High</u>	<u>Average</u>
Dynamic All Market Portfolio .....	7.39%	12.87%	9.37%
Arya Alternatives Portfolio .....	3.46%	4.25%	4.00%

The VaR of the Portfolios was calculated based on a "historical" model with a 99% confidence level and an observation period of one month.

**Leverage**

The Investment Manager does not expect to utilize bank borrowing in implementing the Portfolios' investment portfolio. The expected level of leverage for the Portfolios is estimated to be the following:

- Dynamic All Market Portfolio:  
0-750% range of the NAV of the Portfolio

- Arya Alternatives Portfolio:  
500-600% range of the NAV of the Portfolio with a maximum range of 100-1000%.

The expected level of leverage is calculated as the sum of the notional of the financial derivative instruments held by the Portfolio. Pursuant to the CSSF Circular 11/512 dated May 30, 2011,

this calculation methodology neither takes into account the fact that a particular financial derivative instrument increases or decreases the Portfolio’s investment risks nor permits to net financial derivative instruments with reverse positions. Shareholders should be aware that (i) a higher level of expected leverage does not automatically imply a higher level of investment risk and (ii) the expected level of leverage disclosed above is mainly generated by the use of derivatives for hedging purposes or for efficient portfolio management. In addition, the actual leverage of the Portfolio may deviate from the above mentioned expected level of leverage.

The leverage of the Portfolios for the year ended December 31, 2025 was:

<u>Portfolio</u>	<u>Leverage</u>
Dynamic All Market Portfolio .....	589.15%
Arya Alternatives Portfolio .....	350.00%

**Remuneration**

From January 1, 2025 until December 31, 2025 (the “Reference Period”), the total amount of remuneration paid—in cash and/or restricted securities—by the Management Company to its entire staff (composed during the Reference Period in average of 96 employees) was EUR 22,340,720.

In particular, during the Reference Period, the total amount of remuneration mentioned above was split into fixed and variable remuneration as follows:

- Fixed remuneration: EUR 12,162,199
- Variable remuneration: EUR 10,178,521

No fees based on the performance of the Fund or carried interest are used to remunerate employees of the Management Company.

During the Reference Period, no remuneration was paid by the Fund and/or the Management Company to the identified staff of the Investment Manager.

During the Reference Period, the total amount of remuneration paid to identified staff, which is composed during the Reference Period, by 7 employees, was EUR 1,706,432 (split as follows: fixed remuneration EUR 1,281,305 and variable remuneration EUR 425,127)—representing less than 8% of the total remuneration.

**Securities Financing Transaction Regulation**

The Securities Financing Transaction Regulation (the “SFTR”) introduces reporting requirements for securities financing transactions (“SFTs”) and total return swaps.

A SFT is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

For the Portfolios listed below the Investment Manager used the commitment approach pursuant to the CSSF Circular 11/512 dated May 30, 2011 to monitor global exposure (market risk) resulting from the use of financial derivative instruments. Consequently, the net derivatives exposure created by derivative transactions combined with cash and other assets will closely approximate the NAV of the Portfolios.

As a result of using the commitment approach, the average leverage of the Portfolios for the year ended December 31, 2025 was:

<u>Portfolio</u>	<u>Leverage</u>
Fixed Maturity Bond 2025 Portfolio .....	0.01%
Fixed Maturity Bond 2026 Portfolio .....	0.00%

Identified staff mentioned above are composed by the following categories of employees: a) senior management (during the Reference Period, five), b) members of staff of the Management Company whose actions may have a material impact on the risk profile of the Management Company or falling within the remuneration bracket of senior management and risk takers (during the Reference Period, none) and c) control functions (during the Reference Period, two).

Detailed information relating to—amongst others—the financial and non-financial criteria of the remuneration policies and practices, on decision-making process used to determine the remuneration policy, and on how pay and performance are linked are available in the Remuneration Statement published on AB Global website at the following address:

[www.alliancebernstein.com/go/remuneration\\_policy](http://www.alliancebernstein.com/go/remuneration_policy)

Over the Reference Period, a review of the Remuneration Policy and of its implementation has been carried out and it did not evidence any irregularity. Finally, no material change on the Remuneration Policy as it was initially designed occurred over the Reference Period.

As at December 31, 2025, the Fund held total return swaps (TRS) as type of instrument in scope of the SFTR.

**Global Data**

The amount of assets across total return swaps as at December 31, 2025, is as follows:

<u>Dynamic All Market Portfolio</u>		
<u>Type of asset</u>	<u>Amount</u>	<u>% of NAV</u>
Total return swaps	\$1,872,687	0.37%

**Arya Alternatives Portfolio**

Type of asset	Amount	% of NAV
Total return swaps	\$26,422	0.08%

**Data on reuse of collateral**

There was no collateral reuse during the year ended December 31, 2025.

There was no cash collateral reinvestment during the year ended December 31, 2025.

**Concentration data**

There was no security collateral received for total return swaps as at December 31, 2025.

The ten largest counterparties across total return swaps as at December 31, 2025, is as follows:

**Dynamic All Market Portfolio**

Type of asset	#	Counterparty	Amount
Total return swaps	1	Merrill Lynch	\$1,228,574
	2	Morgan Stanley	\$644,113

**Arya Alternatives Portfolio**

Type of asset	#	Counterparty	Amount
Total return swaps	1	Morgan Stanley	\$26,422

**Safekeeping of collateral received**

There was no security collateral received for total return swaps as at December 31, 2025.

**Safekeeping of collateral granted**

The proportion of collateral held in segregated, pooled or other accounts as at December 31, 2025 is as follows:

*Total return swaps*

**Dynamic All Market Portfolio**

	%
Segregated accounts	0%
Pooled accounts	0%
Other	100%

**Arya Alternatives Portfolio**

	%
Segregated accounts	0%
Pooled accounts	0%
Other	100%

**Returns/Costs**

Returns and costs for total return swaps for the year ended December 31, 2025 are as follows:

**Dynamic All Market Portfolio**

Returns*	Amount	% of overall returns**
To Fund	\$16,361,919	100%
Costs*	Amount	% of overall returns**
To Fund	\$8,315,857	100%

**Arya Alternatives Portfolio**

Returns*	Amount	% of overall returns**
To Fund	\$116,438	100%

Costs*	Amount	% of overall returns**
To Fund	\$3,945	100%

\* Returns (costs) are identified as the realized gains (losses), changes in unrealized gains (losses) and interest received (paid) on TRS contracts during the reporting year.

\*\* All returns (costs) from OTC derivative transactions will accrue to the Portfolio and are not subject to any returns (costs) sharing agreements.

**Aggregate transaction data**

The maturity of total return swaps as at December 31, 2025, is as follows:

**Dynamic All Market Portfolio**

Maturity	Amount
Less than one day	\$0
One day to one week	\$0
One week to one month	\$0
One month to three months	\$1,872,687
Three months to one year	\$0
Above one year	\$0
Open maturity	\$0

**Arya Alternatives Portfolio**

Maturity	Amount
Less than one day	\$0
One day to one week	\$0
One week to one month	\$0
One month to three months	\$0
Three months to one year	\$0
Above one year	\$26,422
Open maturity	\$0

The settlement and clearing mechanisms for total return swaps as at December 31, 2025, are as follows:

**Dynamic All Market Portfolio**

Settlement and clearing mechanism	Amount
Bilateral	\$1,872,687

**Arya Alternatives Portfolio**

Settlement and clearing mechanism	Amount
Bilateral	\$26,422

The aggregate transaction data for collateral positions (including cash) granted across total return swaps as at December 31, 2025 is as follows:

#### Dynamic All Market Portfolio

Counterparty	Type of collateral	Amount*	Quality**	Maturity Tenor of collateral	Currency of collateral	Country of counterparty establishment
Morgan Stanley	Cash	\$5,577,000	N/A	N/A	\$	United States

\* Portion of the collateral relates to derivatives not in scope of SFTR.

\*\* Standard and Poor's long term issue credit rating.

#### Arya Alternatives Portfolio

Counterparty	Type of collateral	Amount*	Quality**	Maturity Tenor of collateral	Currency of collateral	Country of counterparty establishment
Morgan Stanley	Cash	\$11,260,000	N/A	N/A	\$	United States

\* Portion of the collateral relates to derivatives not in scope of SFTR.

\*\* Standard and Poor's long term issue credit rating.

#### **Taxonomy disclosure**

The following Funds have been categorised as an Article 6 financial product for the purposes of the Sustainable Finance Disclosure Regulation. For the purpose of the Taxonomy Regulation, it should be noted that the investments underlying this Portfolio do not take into account the EU criteria for environmentally sustainable economic activities.

Portfolio(s) in scope:

- Dynamic All Market Portfolio
- Arya Alternatives Portfolio

#### **Sustainability-Related Disclosures**

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name: Fixed Maturity Bond 2025 Portfolio**

**Legal entity identifier: 254900BFC2KR8WAWAX50**

**Environmental and/or social characteristics**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

**Yes**   **No**

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and/or social characteristics (“E/S Characteristics”) promoted by the Portfolio included:

- ESG Integration: AB used fundamental research, including the consideration of ESG Factors, to assess target issuers. This includes engagements where AB encouraged issuers to undertake actions that may promote better outcomes for environmental and social objectives as well as benefits to financial outcomes of the issuer and/or the Portfolio.
- ESG Scoring: AB used its proprietary scoring methodology to score issuers using ESG Factors.
- Exclusions: The Portfolio was in compliance with the exclusions mentioned in the prospectus.

More information on these characteristics can be found in AB’s Sustainability-Related Disclosures: [www.alliancebernstein.com/go/FI8webdisclosures](http://www.alliancebernstein.com/go/FI8webdisclosures) and more information on the AB Stewardship Approach can be found at: [www.alliancebernstein.com/go/ABGlobalStewardship](http://www.alliancebernstein.com/go/ABGlobalStewardship).

● **How did the sustainability indicators perform?**

AB measures the attainment of E/S Characteristics promoted through various quantitative and qualitative methodologies including the measurement of documented ESG research, ESG scoring, engagement, and relevant investment exclusions, subject to satisfactory data and data sourcing.

As at 31 October 2025, 89.85% (liquidated on 31 December 2025) of the Portfolio possessed an ESG score based on AB’s proprietary methodology, and in the year to 31 December 2025, 97% of the Portfolio was deemed to promote E/S Characteristics through documented ESG research and scoring, as well as engagement on environmental and social issues.

Specifically, in the year to 31 December 2025, there were 17 ESG engagement entries with 14 distinct companies held in the Portfolio. For these engagements, there were 11 discussions of environmental issues, and 8 discussions of social issues (for the avoidance of doubt, an engagement entry may include discussions on multiple topics). The most frequently discussed E/S issues were: Carbon Emissions, Green Bonds & Environmental Sustainability-Linked Bonds, Climate Change Vulnerability, Human Capital Management, Climate Transition Plans.

The Portfolio's ESG Scoring Framework is conducted in Prism, a proprietary rating and risk factor scoring system used to convert our analyst's qualitative research views on an issuer into a structured profile comprising a series of risk factor scores and credit ratings. Material ESG considerations are an explicit component of our Prism scoring methodology.

Each issuer with an ESG score has been assessed on E, S, and G factors, and the resulting weighted average ESG score has the potential to influence the overall internal AllianceBernstein credit ratings. Our Sovereign ESG Scoring Framework creates a baseline score based on more than 20 material E, S and G factors by comparing countries on a broad range of metrics.

AB has monitored the compliance with the exclusions listed in the prospectus and confirms they were met.

- **...and compared to previous periods?**

As of 31 December 2024, 99% of the Portfolio possessed an ESG score based on AB's proprietary methodology, and in the year to 31 December 2024, 90% of the Portfolio was deemed to promote E/S Characteristics through documented ESG research and scoring, as well as engagement on environmental and social issues.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

*The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio considered the following PAIs:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises (#10).
- Exposure to controversial weapons (#14).

For PAI 10, AB monitored for breaches of the UN Global Compact principles for securities held by the Portfolio. For PAI 14, the Portfolio excluded controversial weapons.

PAI ID	Adverse sustainability indicator	Metric	PAIs for 31/12/2025-Weighted average
PAI 10	Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	0.00%
PAI 14	Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	0.00%

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01 January 2025 - 31 December 2025

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

N/A

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?**

- Yes:
  - In fossil gas
  - In nuclear energy
- No

As of the date of this report, there is currently no data to measure whether the Portfolio has invested in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy. It may, as a result of the implementation of its specific investment strategy, hold investments having a marginal exposure to such activities but until there is external vendor data enabling measurement of such exposure, the Portfolio does not commit to any minimum exposure.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

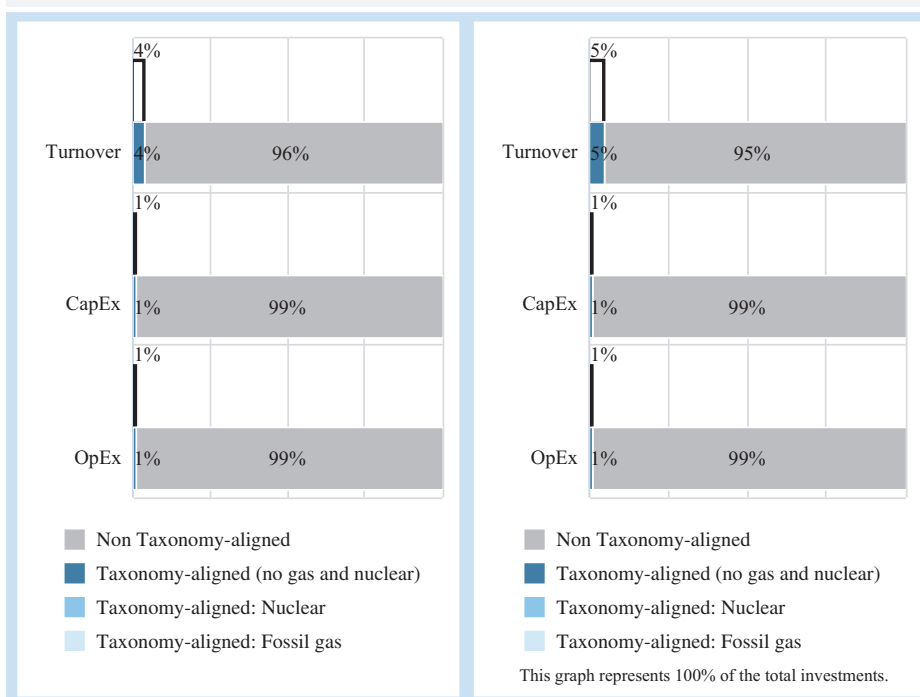

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

*The graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds*

1. Taxonomy alignment of investments including sovereign bonds\*

2. Taxonomy alignment of investments excluding sovereign bonds\*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

While the Portfolio does not intend to make EU Taxonomy-aligned investments, a percentage of actual investments of the Portfolio was reported as EU Taxonomy-aligned during the reference period, as required by ESAs.

● **What was the share of investments made in transitional and enabling activities?**

As of the date of this report, AB does not have access to suitable data to accurately report on transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

While the Portfolio does not intend to make EU Taxonomy-aligned investments, as of 31 December 2024, 1% of the Portfolio was deemed to align with the EU Taxonomy.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

N/A

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

N/A

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

This included:

- Securities that AB believes could be held by the Portfolio in order to achieve its investment objective but were not deemed to promote E/S Characteristics, subject to the satisfaction of AB's Good Governance Policy.
- Derivatives used for hedging purposes.

For these assets, there were no minimum environmental or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Portfolio promoted E/S Characteristics by holding securities that AB believes promoted E/S Characteristics.

A security was deemed to promote one or more E/S Characteristics if the following binding elements were satisfied:

- Documented ESG integration was evidenced for the issuer through ESG research and Engagements.
- The issuer was scored using ESG Factors. As of 31 October 2025, 89.85% (liquidated 31 December 2025) of the Portfolio had an ESG score.
- During the reference period, as applicable, the issuer of the security was compliant with AB's Good Governance Policy.
- The security was compliant with the Portfolio's investment exclusions.

## How did this financial product perform compared to the reference benchmark?

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The Portfolio did not use a designated reference benchmark for measuring sustainability or determining E/S Characteristics.

- **How does the reference benchmark differ from a broad market index?**  
N/A
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
N/A
- **How did this financial product perform compared with the reference benchmark?**  
N/A
- **How did this financial product perform compared with the broad market index?**  
N/A

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name: Fixed Maturity Bond 2026 Portfolio**

**Legal entity identifier: 254900ZONQY73DA3FF45**

**Environmental and/or social characteristics**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU **Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective: ___%</b> <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul>	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul>

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and/or social characteristics (“E/S Characteristics”) promoted by the Portfolio included:

- ESG Integration: AB used fundamental research, including the consideration of ESG Factors, to assess target issuers. This includes engagements where AB encouraged issuers to undertake actions that may promote better outcomes for environmental and social objectives as well as benefits to financial outcomes of the issuer and/or the Portfolio.
- ESG Scoring: AB used its proprietary scoring methodology to score issuers using ESG Factors.
- Exclusions: The Portfolio was in compliance with the exclusions mentioned in the Prospectus.

More information on these characteristics can be found in AB’s Sustainability-Related Disclosures: [www.alliancebernstein.com/go/FI8webdisclosures](http://www.alliancebernstein.com/go/FI8webdisclosures) and more information on the AB Stewardship Approach can be found at: [www.alliancebernstein.com/go/ABGlobalStewardship](http://www.alliancebernstein.com/go/ABGlobalStewardship).

● **How did the sustainability indicators perform?**

AB measures the attainment of E/S Characteristics promoted through various quantitative and qualitative methodologies including the measurement of documented ESG research, ESG scoring, engagement, and relevant investment exclusions, subject to satisfactory data and data sourcing.

As at 31 December 2025, 97.52% of the Portfolio possessed an ESG score based on AB’s proprietary methodology, and in the year to 31 December 2025, 94% of the Portfolio was deemed to promote E/S Characteristics through documented ESG research and scoring, as well as engagement on environmental and social issues.

Specifically, in the year to 31 December 2025, there were 14 ESG engagement entries with 12 distinct companies held in the Portfolio. For these engagements, there were 9 discussions of environmental issues, and 5 discussions of social issues (for the avoidance of doubt, an engagement entry may include discussions on multiple topics). The most frequently discussed E/S issues were: Carbon Emissions, Green Bonds & Environmental Sustainability-Linked Bonds, Climate Change Vulnerability, Biodiversity & Nature, Climate Transition Plans.

The Portfolio’s ESG Scoring Framework is conducted in Prism, a proprietary rating and risk factor scoring system used to convert our analyst’s qualitative research views on an issuer into a structured profile comprising a series of risk factor scores and credit ratings. Material ESG considerations are an explicit component of our Prism scoring methodology.
