Investment objective

SYCOMORE FUND SICAV - SYCOMORE SELECTION RESPONSABLE (LUXEMBOURG), SYCOMORE FUND SICAV - SYCOMORE SELECTION CREDIT (LUXEMBOURG).

The objective, the investment policy and the risk profile of the Feeder Sub-Funds and their respective Master Funds are similar. The Feeder Sub-Funds invest more than 95% of their total net assets in the Master Funds and look for a 100% exposure to their respective Master Funds, depending on the cash needed for ancillary purposes.

Investment policy of the Master Funds

The Master Fund of SYCOMORE FUND SICAV - SYCOMORE SELECTION RESPONSABLE (LUXEMBOURG):

The objective of the Master Fund of SYCOMORE FUND SICAV - SYCOMORE SELECTION RESPONSABLE (LUXEMBOURG) is to outperform the MSCI EMU Net Return index over a minimum period of five years (with dividends reinvested), via the careful selection of Euro zone equities.

The Master Fund's investment strategy is based on a portfolio exposure of 60% to 100% to Euro zone equities. These equities are selected based on a thorough fundamental analysis of companies, without sector or capitalisation restrictions. The net assets can therefore be exposed up to 100% to shares in small Sycomore Sélection Responsable cap companies, i.e. with market capitalisation of less than 15 billion Euros. The portfolio can therefore be exposed up to 100% to small cap equities. It aims to identify quality companies whose market valuation is not representative of their intrinsic value as determined by the management team.

The Master Fund of SYCOMORE FUND SICAV - SYCOMORE SELECTION CREDIT (LUXEMBOURG):

The objective of the Master Fund of SYCOMORE FUND SICAV - SYCOMORE SELECTION CREDIT (LUXEMBOURG) is to outperform the Bloomberg Euro Aggregate Corporate ex-Financials TR index over a minimum investment period of five years, and within a sensitivity range of 0 to +5 and through a socially responsible investment process.

The Master Fund's investment strategy is to continually expose the portfolio between 60% and 100% (with a maximum of 20% to public issuers and equivalent) to Euro denominated bonds (including convertible bonds) and other debt or money market securities issued by public or private issuers. In addition, the portfolio may be exposed up to 40% to fixed income derivatives listed on international regulated markets or traded over the counter (including Credit Default Swaps for hedging purposes only) to adjust the sensitivity of the portfolio without allowing any overexposure. Indirect exposure to stocks, gained through convertible bonds is limited to 10% of assets.

Notes to the Financial Statements as at June 30, 2026 (continued)

Note 2 - Principal accounting methods

The financial statements of the SICAV have been prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investment. These financial statements have been prepared on a going concern basis.

The net asset value as presented in the financial statement was calculated based on valuation prices as at June 30, 2026.

The net asset value per share of each class of shares in each Sub-Fund is determined by dividing the value of the total net assets of that Sub-Fund properly allocable to such class by the total number of shares of such class outstanding on such valuation day.

2.1 Combination of the different Sub-Funds

The combined financial statements of SYCOMORE FUND SICAV are expressed in Euro and are equal to the sum of the corresponding accounts in the financial statements of each Sub-Fund converted into Euro at the exchange rate prevailing at the end of the period.

At the reporting date, the total cross Sub-Fund investment amounted to EUR 11,517,286.46. The combined financial statements have not been adjusted to remove the impact of such investment.

2.2 Conversion of foreign currencies

Assets and liabilities expressed in currencies other than the Sub-Fund's currency are converted into that currency at the exchange rates prevailing on the closing date. Income and expenses in currencies other than the Sub-Fund's currency are converted into the currency of the Sub-Fund at the exchange rate prevailing on the date of the transactions.

Foreign exchange gains and losses resulting from this conversion are recorded in the Statement of Operations and Changes in Net Assets.

2.3 Securities portfolio

Securities officially listed on a stock market or traded on a regulated, recognised market that is functioning normally and open to the public, shall be valued at the last known closing price, and if this security is traded on several markets the last known closing price in this security's main market. If the last known price is unrepresentative, the valuation shall be based on the probable market value, estimated conservatively and in a good faith by the Board of Directors of the SICAV.

In the event that the assets are neither listed on a stock exchange nor dealt in on another regulated market or if the price as determined above is not representative of the fair market value in the opinion of the Board of Directors of the SICAV, the value of such assets shall be assessed on the basis of their foreseeable sales prices estimated prudently and in good faith by the Board of Directors of the SICAV.

Units of UCITS and/or other investment funds shall be valued at their last known net asset value per share.

2.4 Income

Interests and bank interests are accrued on a daily basis.

Dividends are recorded on the date when the shares are listed for the first time "ex-dividend".

2.5 Realised gains and losses on sales of investments in securities

Investments in securities are accounted for on trade date basis. Realised gains and losses on sales of investments in securities are calculated on the average cost basis.

2.6 Future contracts

Future contracts are valued based on the latest available market price. Realised or unrealised gains and losses are recognised in the Statement of Operations and Changes in Net Assets. The unrealised appreciation or depreciation on future contracts is disclosed in the Statement of Net Assets.

2.7 Option contracts

Option contracts are valued at their last known price on the valuation date or on the closing date. The unrealised appreciation or depreciation on options is disclosed in the financial statements. The liquidating value of options contracts not traded on any stock exchange or any regulated market shall be determined pursuant to the policies established by the Board of Directors, on a basis consistently applied for each different variety of contracts. The value of options contracts traded on a stock exchange or on regulated markets, or on other regulated markets shall be based upon the last available settlement or closing prices as applicable to these contracts on a stock exchange or on regulated markets, or on other regulated markets on which the particular options contracts are traded on behalf of the Company; provided that if options contract could not be liquidated on such Valuation Day with respect to which a net asset value is being determined, then the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable pursuant to verifiable valuation procedures.

2.8 Cash and other assimilated assets

The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Board of Directors of the SICAV may consider appropriate in such case to reflect the true value thereof.

Cash is valued at nominal value, plus accrued interest.

2.9 Forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward foreign exchange rates for the remaining period from the Valuation Date to the maturity of the contracts. The unrealised gains and losses resulting from outstanding forward foreign exchange contracts are determined on the basis of the forward foreign exchange rates applicable on the Valuation Day and recorded in the Statement of Net Assets. Net variation of unrealised gains and losses and net realised gains and losses are recorded in the Statement of Operations and other Changes in Net Assets.

Note 4 - Depositary fees and Administration fees

The Depositary and Administration Agent receive a quarterly fee in relation to their services in accordance with usual practice in Luxembourg. Fees are paid directly by the Management Company and are included in the Operating expenses and Administration fees.

Note 5 - Performance fees

A performance fee may be charged, based on a comparison of the performance of the relevant classes of shares of the relevant Sub-Funds, over the Fund's financial period, and the benchmark (as detailed in the table below).

The performance of the relevant share-classes is calculated after deduction of operating and management fees and before the performance fee.

If, over the Fund's financial period, the performance of the relevant share-classes is positive and superior to the benchmark, the performance fee is calculated on a percentage (as detailed in the table below) of the difference between the performance of the relevant share-classes and the performance of the benchmark.

If, over the Fund's financial period, the performance of the relevant share-classes is inferior to the benchmark, no performance fee is charged.

In the case of an under-performance of the relevant share-classes of the Sub-Fund in relation to the benchmark between two net asset values, any provision posted earlier will be readjusted by a provision reversal. Provision reversals will not exceed the initial provisions.

By exception to the aforementioned, for the share classes of the category "F", the performance fee calculation will be triggered by an effective out-performance compared to the relevant benchmark over a period of 5 years before the yearly performance fee becomes payable, or since the launch of the shares in category "F" during their first 5 years of operation, regardless of whether the performance is positive or negative.

If shares are redeemed while such a provision exists, the proportion of the accrued performance fee corresponding to the shares redeemed is crystallized and paid to the Management Company.
